## **VILLAGE OF AKRON & TOWN OF NEWSTEAD NEW 2016 ELECTRONIC RECYCLING PROGRAM**

The Village of Akron & Town of Newstead would like to introduce the **NEW 2016 Electronic Recycling Program**.

Due to the escalating cost of recycling Cathode Ray Tubes (CRT's) we have instituted a new CRT Recycling Permit. As a participant in the Village of Akron Garbage & Recycling Program you as a property owner are eligible to recycle up to two (2) CRT's per year.

If you are the owner of a rental property and participate in the Village of Akron Garbage & Recycling Program you are allowed to recycle up to two (2) CRT's per unit per year. You are responsible for getting this information to your tenants if they need to recycle a CRT.

The enclosed CRT Recycling Permit card must be presented on the day of the event in order to recycle a CRT. The permit will be marked with each CRT that is recycled. The permit is valid through 2018.

Electronics will be collected at the Joint Municipal Facility located at 12707 Clarence Center Road from 9:00 AM to Noon on the following three days only in 2016:

**Saturday January 9, 2016 (Electronic Recycling & Christmas Tree Drop-Off)**

**Saturday April 23, 2016 (Electronic Recycling & Household Hazardous Waste Drop-Off)**

**Saturday October 1, 2016 (Electronic Recycling & Household Hazardous Waste Drop-Off)**

For additional information please feel free to contact the Village of Akron at 716-542-9636 or the Town of Newstead at 716-542-4573.
