Mr. Andrew Glantz
Founder and Chief Executive Officer
FoodShare LLC
GiftAMeal
225 South Meramec Avenue
Clayton, Missouri 63105

Dear Mr. Glantz:

We read with interest about your work on behalf of those Americans who suffer from or are impacted by hunger. The Erie County Legislature shares your concern and passion to ensure that we are aiding all who are caught in the bonds of poverty. Buffalo New York has been rated as one of America's most impoverished cities. In fact, according to the Food Bank of Western New York, 1 in 7 Western New Yorkers regularly struggles with hunger. We must do all we can to eradicate this scourge and provide opportunity for all to eat healthy and enjoy nutritious foods.

To this end, this honorable body frequently partners with the Food Bank of Western New York to help collect and distribute healthy foods, and to use our outreach and social media potential to encourage all citizens to become involved in the Food Bank's efforts to eradicate hunger. The Food Bank is certified by Feeding America, and is the lead agency in food distribution to those affected by hunger in Western New York. The Food Bank of WNY assists as many as 135,000 people in a given month and distributes products through 341 member agencies.

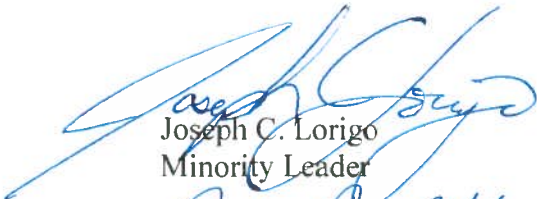

We also have partnered with the Western New York Restaurant Association on several other initiatives that provide awareness for our many local restaurants and eateries. We might add that Western New York is known for the quality of its eating establishments and the philanthropic generosity of their owners.

We extend an invitation to discuss with you and your leadership team possible opportunities here in the Buffalo area to expand your concept, and collaborate with local food banks and restaurants, to bring GiftAMeal here. We are convinced that the success you have experienced in St. Louis, Chicago, and Detroit can be reproduced in Western New York.
