Town of Clarence Fleet Management Policy

Written by James A. Dussing- Superintendent of Highways

Effective January 7, 2015

PREAMBLE-

The purpose of this policy is to comply with a recommendation from the New York State office of Comptroller and to provide the most efficient, cost effective way to manage vehicles owned by the Town of Clarence (the "Town"). Our goal is to provide the highest quality vehicles at the lowest possible price. Best management practices (BMPs) should be used throughout the implementation of this policy. This policy incorporates all the requirements of the "Vehicle Usage" section of the Town Policy Manual (currently Section 507 of the Town Policy Manual).

ADMINISTRATION-

The Town Board will be responsible for enforcing this policy. The Town of Clarence Superintendent of Highways or his/her appointee will be responsible for administering the provisions of this policy that relate to purchasing, maintenance and disposal of Town of Clarence Fleet vehicles. Prior to purchasing any Town Vehicle, such purchase must be authorized by the Town Board. Authorization of the Town Board is required for any modifications to or deviations from this policy. The Town Board will review the Town's fleet of vehicles at least once annually to determine whether vehicles should be added to or removed from the fleet.

VEHICLES COVERED-

"Fleet Vehicles" or "T Vehicles" are vehicles owned and maintained by the Town of Clarence and listed in the Town's inventory with a T followed by a number. These vehicles include all the vehicles driven by Town of Clarence officials and employees with the exception of Parks Department and Highway Department Vehicles. The Parks and Highway Superintendents will have the authority to manage the vehicles in their respective fleets that are not covered by this policy, based on the individual needs of their departments, with the understanding that efficient and cost effective use of vehicles should be the priority. All vehicles owned by the Town of Clarence, (including those vehicles that are not "Fleet Vehicles" or "T Vehicles") are subject to the "Vehicle Markings" section of this Policy.

NUMBER OF FLEET VEHICLES-

There is no set number of vehicles that can be owned by the Town of Clarence. Every effort will be made to keep the total number of vehicles owned by the Town to an absolute minimum. Town vehicles with very low mileage (vehicles driven less than 1500 miles per year) should be repurposed or removed from the inventory. No vehicles will be purchased without a needs assessment survey being completed and considered by the Town Board and a resolution from the Town Board approving the purchase. The practice of "banking" vehicles for use by multiple departments will be implemented to maximize the use of each vehicle. Keys to all Town Vehicles must be kept in one secure location and signed out for use. The assignment of a vehicle to an individual department or employee must be done annually by the Town Board at the organizational meeting in January. The Town Board may modify these assignments as it sees fit throughout the year.

TAKE HOME VEHICLES-

It is the goal of this Policy to minimize the number of Town Vehicles taken home by Town Employees or Town Officials. Only those individuals who have a regular and reoccurring Town business need to take a vehicle home on a regular basis will be given the authority to take a Town Vehicle home. Such authority shall be limited only to the period of time the legitimate Town Business need exists. All take home vehicles must be approved by Department Head and the Town Board. The Town Board has the right to cancel or revoke the

privilege to take a vehicle home at any time upon the passing of a resolution. Please refer to the Town Policy Manual provision entitled "Vehicle Usage" (currently section 507) for specific information on permissible use of take home vehicles. Employees are not permitted to use Town Vehicles for personal use. In the rare and unlikely event that a Town Vehicle must be used for personal reasons, the employee's department head, or the Town Board (in the case of Department Heads or Town Officers and Officials) must be immediately notified of the personal use and the reason therefore. All employees and Town Officers and Officials are subject to any applicable IRS and NYS State or local tax liability for using a Town Vehicle for personal purposes.

VEHICLE MARKINGS-

All town of Clarence vehicles (whether or not the vehicle is covered by other provisions of this Policy) must be clearly marked. The Town seal must be on each vehicle as well as a vehicle ID number and an American Flag. The Town seal is to be permanently placed on the driver and passenger doors of all vehicles. The use of magnetic emblems is not allowed. The seals must be at least 10 inches tall on all cars and SUV's and at least 14 inches tall on all trucks, and must be clearly visible from a reasonable distance. Any variations to this rule must be approved by the Town Board. Officials may remove emblems temporarily for code enforcement, public safety or other uses that require the town official to act in a discreet manner. Any changes in vehicle marking must be approved by the Superintendent of Highways. The decals will be provided by and installed by the Highway Department or approved shop. Arrangements must be made to have all vehicles clearly marked as soon as possible after the approval of this policy.

Passengers-

The use of Town owned vehicles is restricted to employees of the Town of Clarence. Passengers must either be Town employees, officers or officials or individuals conducting work on the behalf of the Town who have a need to ride in the Town Vehicle with a Town employee, officer or official. Department heads may approve non-employee passengers for situations in which it is deemed necessary by them (i.e. local dignitaries, or representatives of the media visiting the Town, etc.). A log of the name of individuals who are not Town Employees and who are not conducting work on behalf of the Town, who are transported in a Town Vehicle must be kept and must include, the name of the individual transported, the date of transport, the reason for the transport, and the locations from/to which the individual was transported.

PURCHASING-

All purchasing of new "T" vehicles will be performed by the Superintendent of Highways or designated appointee. The Town Board will notify the Highway Superintendent of the need to purchase a new vehicle and will provide specifications for the purchase (i.e. timing, and type of vehicle to be purchased and maximum purchase price). Upon locating an appropriate vehicle and negotiating a purchase price, the Town Board will authorize the Superintendent of Highways or designated appointee, by resolution, to enter into and execute any purchase contracts. The Town will first attempt to use the New York State Office of General Services contract to obtain the lowest possible price. If the vehicle is not available through state contract and the total purchase price exceeds \$10,000 then the purchase must be advertised and put out for public bid and the bid must be awarded to the lowest responsible bidder. The replacement cycles of vehicles and the subsequent purchase of new vehicles can vary depending on budget constraints and other factors. It should be the goal to replace cars at three years and SUV's at four years to obtain the best possible trade in or resale value.

MAINTENANCE-

The town of Clarence should provide the best possible maintenance to its fleet vehicles to obtain the best resale value. Any malfunctions or signs that the vehicle is not operating properly must be reported to the Superintendent of Highways, in writing, immediately (an email identifying the vehicle and describing the malfunction or problem will suffice). All service to vehicles must be recorded in a vehicle history log for that

vehicle. The vehicle history report must be kept by the maintenance staff at the Highway Department. This report must include mileage, service dates and any repairs made to the vehicle by highway department personnel or by an outside repair shop. Any damage to the vehicles must be reported to the employee's Department Head and to the Highway Department Mechanic Crew Chief immediately. The Highway Department Mechanic Crew Chief must include that information in the vehicle history log and, in consultation with the Superintendent of Highways, determine the best method for making the necessary repairs.

DISPOSAL

The goal of the disposal of fleet vehicles is to get the highest salvage value for the vehicles while minimizing administration costs. Trade in price, public auction and public bidding of the vehicle should always be considered when removing vehicles from the Town's inventory. It will be left to the discretion of the Superintendent of Highways on what option best fits the town's needs. Public sale of the vehicles will be posted and advertised by the Town Clerk's office.

REPLACEMENT SCHEDULE-

The Superintendent of Highways will maintain an up to date vehicle replacement schedule at all times. This schedule can be changed at any time at his/her discretion. The basis of the schedule should be to always keep the Town of Clarence fleet current. Generally, Cars should be replaced every three years and SUV's should be replaced every 4 years. Specialty vehicles such as vehicles used by the senior center, youth department and the animal control officers should be replaced as needed. A needs assessment survey must be completed by the Department Head or the Superintendent of Highways and submitted to the Town Board for all vehicles for which replacement is being sought. This needs assessment survey must be accompanied by a proposed resolution upon submission to the Town Board. The Town Board will consider the request for replacement, including the information submitted in the needs assessment survey, and act the resolution. The Town will endeavor to replace vehicles before major repairs are necessary. Changes to the type of vehicle, or options available on the vehicle at the time of replacement must be approved by the Town Board and will be considered on a case-by-case basis. The vehicles that need replacement must be budgeted for during the budget process and purchased during the next calendar year. Emergency replacement of fleet vehicles will be carried out by the Superintendent of Highways.
