RE: Erie County Sewer District No. 3
Rush Creek Interceptor Project
Contract 17A
Construction Activity Notice

Dear Property Owner/Resident:

In the near future, weather permitting, a Contractor for Erie County/Erie County Sewer District No. 3 will be starting a sanitary sewer construction project in your neighborhood as part of the Rush Creek Interceptor Project, Contract 17A. The project will include the construction of a new sanitary sewer along Labelle Ave, Miriam Ave, and Commercial Street with the intent of eliminating the Labelle Overflow Pumping Station. Sanitary sewer service will be maintained during construction. Please refer to the attached map for additional information specific to this project.

Construction work is scheduled to begin within the next 30 days. During construction there will be heavy machinery excavating a large trench in the road along with trucks hauling material to and from the construction area. These activities will significantly impact access to the affected roads and to adjacent driveways during active construction. The contractor will be required minimize disruption and to restore access to residential driveways prior to ceasing activities each day. Typical work hours are expected to be 7:00 am to 3:30 pm.

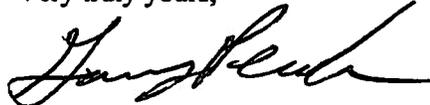

Please call the person at the number listed below if you have any particular questions and /or concerns regarding the project. Please do not call the Village of Blasdell as this is an Erie County/Erie County Sewer District No. 3 project.

- ❖ **Construction Inspector – Nadine Wetzal, P.E. – 818-0431**
- ❖ **Project Engineer and Manager – Tom McPherson, P.E. – 856-5636**
- ❖ **Contractor Superintendent – Bill Duncan, Kandey Company, Inc. – 481-7507**
- ❖ **Erie County Project Manager - Garry S. Pecak, P.E. – 858-6267**
- ❖ **Erie County Assistant Project Manager – Dan Skowronski – 858-6472**
- ❖ **Emergencies – In case the above-mentioned individuals cannot be reached, please contact the Erie County Sewer District No. 3 Operations Office at 823-8188.**

*Item
4(b)(iv)*

Thank you for your consideration in this matter.

Very truly yours,

Garry S. Pecak, P.E.
Sanitary Engineer
