Angola, NY 14006

RE: Erie County Sewer District No. 2
Lake Shore Road LPG System
Availability of Sewer – 2nd Notice to Connect

Dear Property Owner:

The Erie County Department of Environment and Planning/Division of Sewerage Management is informing you that the sanitary sewer installed to service your property by means of a low pressure grinder system is ready for use. You were initially made aware of this through a letter dated September 2, 2015 and given 90 days to connect from that date. According to our records, you have not yet complied with this request.

Please note that you are in **violation** of Article II, Section 201 of the Erie County Sewer Districts Rules and Regulations and must connect within **30 days** to the existing sewer. In order to connect, a permit must be obtained from the Southern Region Sewer District Office at 8443 Lake Shore Road, Angola NY 14006 from 8:30 am to 3:30 pm, Monday through Friday (except holidays).

The permit and connection fee is \$2.00. Typically, your contractor/plumber will secure the permit. When the permit is picked up, information regarding the County's rules and regulations, as well as, detailed specifications for the materials and installation of your lateral will be provided. The permit will also outline the inspection requirements for the installation and the connection. You may also visit the DSM website at www.erie.gov/dsm for information on the connection permit and details for a house service lateral and typical connection.

Should you have any questions, please feel free to contact me at 549-3161 at the Southern Region District office.

Thank you for your cooperation in this matter.

Sincerely,

Carl D. Horne
Sewer District Manager
