Re: Green Innovation Grant Program Project (GIGP) #300
Big Sister Creek Wastewater Treatment Plant – Energy Efficiency Improvement Project

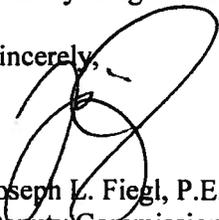

Dear Ms. Ty,

Thank you for the opportunity to participate in the NYSEFC's GIGP program for the Big Sister Creek Wastewater Treatment Plant Energy Efficiency Improvement Project. The financial assistance offered through the GIGP program provided a significant boost to foster enactment of this important project and allowed the implementation of innovative technologies that may not have been attempted without NYSEFC's grant. The overall project resulted in remarkable benefits in terms of savings, more efficient treatment operations, and demonstration of green technologies. This project also enhances the Big Sister Creek Wastewater Treatment Plant's ability to protect water quality and public health.

I would be remiss if I did not recognize Suzanna Randall, Katie Syron, and the rest of the NYSEFC staff for its assistance and professionalism throughout. NYSEFC staff were very helpful in navigating through all of the requirements from grant submission through final payment.

Thank you again for this tremendous opportunity.

Sincerely,

Joseph L. Fiegl, P.E.
Deputy Commissioner

Cc: S. Randall – Manager of Green Policy, Planning and Infrastructure – NYSEFC
K. Syron – GIGP Projects Coordinator – NYSEFC
