RE: Erie County Sewer District No. 3
Green Lake Dam Rehabilitation
& Associated Sanitary Sewer Work

Dear Mr. Bieler:

Thank you for your letter of April 22, 2016 regarding the above noted subject matter. In this letter you are requesting reimbursement in the amount of \$23,269.00 for sewer installation included as part of the town's project. The abandonment of the existing section has yet to be performed.

This request will be placed at the next ECSD No. 3 Board of Managers meeting agenda scheduled for June 15, 2016 at 8:00am in the Southtowns treatment plant conference room. For the Board of Manager's consideration please provide me the cost breakdown for the requested reimbursement (i.e. how the Town determined the amount, etc.).

Please note that the Division of Sewerage Management's initial reaction for the sanitary sewer relocation is that it was necessary for your project. Typically, if this was a County project utility relocation costs are considered part of the County's responsibility and not the utility itself.

If you have any question's please let me know at 858-6990.

Very truly yours,

Matt A. Salah, P.E.

Re: Green Lake Dam Rehabilitation and Associated Sanitary Sewer Work

Dear Mr. Salah:

Our contractors Zoladz and Sergi are well underway with construction of the Green Lake Dam Rehabilitation and Dredging Project. A part of this project is the complete replacement of Green Lake Dam's emergency spillway and rehabilitation of the dam itself.

As we noted in our September 13, 2015 letter, there is an existing old sanitary sewer main segment that was previously approved to be abandoned by the Village of Orchard Park, and pursued by you but was never completed. Now with the Green Lake Dam Rehabilitation project, this sewer segment needs to be partially removed where it is in conflict with the proposed spillway, and the remaining portion of the sewer main can be abandoned in-place with flowable-fill. Sergi Construction has completed the bypass work, and Zoladz Construction will complete the abandonment work. As discussed, due to the County budget of 2015 and schedule, ECSD could not complete this work in time. The Town of Orchard Park is seeking reimbursement in the amount of \$23,269.00 for this sanitary bypass work and abandonment work from ECDSM that owns and operates the system.

Thank you in advance for your time and effort on this matter. We are glad to assist in completion of this work for the betterment of the Village of Orchard Park residents. If you have any questions, please do not hesitate to contact me at 662-6425.

Very truly yours,

Wayne L. Bieler, P.E., CFM
Town Engineer
