RE: Transit Road Senior Housing
9500 Transit Road, Amherst NY

Dear Mr. Metzger:

We are in receipt of your February 2014 submittal for additional townhomes directly west of the previously approved Senior Housing located at 9500 Transit Rd, Amherst New York. Please be advised that Erie County Sewer District No. 5 (ECSD #5) does not have additional capacity for this out of district parcel/customer. This is consistent with previous comments made on your first submittal of the senior housing development in an e-mail dated Feb. 5, 2013 addressed to Mr. Paul Case of your office. For example, the original submittal for 9500 Transit Rd. had shown a stub from manhole no. 2 toward what appeared to be a parking lot and garages which was requested to be removed. Also, in the pumping station sizing calculations of the wet well, additional flows were included which were requested to be removed from the plans as well. The ECSD #5 Board of Managers approved only one (1) building that consisted of 100 units as an out of district customer.

I do understand that this is an unfortunate situation. Please contact me if you have any questions.

Sincerely,

Peter J. Ruffino
Assistant Sanitary Engineer
