

As part of our efforts to increase the ranks of the volunteer fire service in Erie County, the Department of Emergency Services created iVolunteerFIRE.org – a web site and integrated recruitment campaign designed to serve as a portal for citizens seeking opportunities to get involved by joining their local volunteer fire department and serving their community.

In doing so, we hope to leverage the power of referral from existing firefighters like you, so we ask that you please share some basic information about yourself and most importantly, by sharing your story as to how you answer our burning question of “iVolunteerFIRE because...”

Please return this form to the Erie County Fire Safety office with a photo via hand-delivery or email.
