Dr. Gale R. Burstein, MD, MPH
Commissioner of Health

EPA Lead Safety for Renovations, Repairs, & Painting Course

The EPA **RRP RULE** requires that all renovations, repairs, & painting done in Pre-1978 housing must be done by or under the supervision of a **CERTIFIED RENOVATOR**. This means that all **LANDLORDS, PROPERTY MANAGERS, & CONTRACTORS** are required to take this course. **This training will result in a certified skill that could lead to a competitive advantage when seeking a job or bidding on a project.** Upon completion of the training you will be an EPA Certified **Renovator** able to work on any Pre-1978 dwelling.

You may receive the Lead Safe Work Practices Paint Kit **ONLY** if you are cited by the Health Department for Lead-Based Paint violations, have completed a **WORK PLAN** and received your certification from this class. Program staff will be on hand to assist in the completion of the work plan.
