Department of Health

## **ECDOH Medical Examiner's Office Streamlines Services**

Central Police Services and the Medical Examiner's Office have collaborated to eliminate the duplication of forensic services. Effective December 1, 2008, the Medical Examiner's Office is now performing all DUI/DUID forensic testing. This transfer will result in an improvement in the forensic services available to Erie County law enforcement agencies, and is another example of how cooperation and communication have resulted in a more efficient manner through which this testing will be provided.
