

# EMS TRAINING

## CPAP

### CONTINUOUS POSITIVE AIRWAY PRESSURE

When:

Monday, December 19th @ 7PM

Where:

East Seneca Fire Company

100 Lein Road

West Seneca, New York 14224

About CPAP:

The Western Regional Emergency Medical Advisory Committee (WREMAC) protocols offer **CPAP** as an approved skill for the EMT-Intermediate level. **CPAP** is not currently in the EMT-I curriculum and current EMT-Intermediates will require training on this newly added skill beyond the proposed protocol roll-out. This training is provided by the **Wyoming-Erie Regional EMS Council** and **FREE to all attendees**.

Dr. Kevin McGee will offer a two (2) hour in-service on **CPAP**. This training is intended for all Advanced EMTs. Basic EMTs are invited to attend but are not eligible to use the skill.

**RSVP Requested!**
