

# Help Train our Future Workforce

## *Join the Say Yes Buffalo Internship Program*

Say Yes Buffalo and the Buffalo Niagara Partnership are working together to create a pipeline of talent from our local colleges to Western New York employers.

We invite local businesses and nonprofit organizations to join us by providing meaningful, paid summer internships for our qualified student candidates.

### How does it work?

- Employers complete a short internship description for posting on the Say Yes Buffalo website
- Buffalo Niagara Partnership staff screen candidates that respond and present qualified options to the employer for consideration
- Once an employer identifies the student they would like to take on, a contract is established

### What is the cost to the employer?

- Our employer partners commit to providing an opportunity between 20 - 40 hours per week for six - ten weeks
- We suggest an hourly wage of \$10; So at minimum the commitment is \$1,200
