Dear ~~Terry~~, **TERY**

Enclosed is information regarding one of my constituents Kean Stimm, a wind energy scientist and inventor of the Kean Wind Turbine. This Williamsville company represents the potential of creating hundreds of Western New York jobs through the manufacturing of eco-friendly wind turbines that produce low cost electric power.

I would like to extend an invitation to Mr. Stimm to attend a meeting of the Energy and Environment Committee to present his concept and provide information on his project and its benefits to Erie County. I am hopeful that arrangements could be made for his attendance at a meeting in September, after the August session recess.

Please advise as to your thoughts regarding the Kean Wind Turbine project. I look forward to discussing this concept with you this week.

Sincerely,
