Mr. and Mrs. David Woolsoncroft  
225 Claremont Ave.  
Buffalo, N. Y. 14223

Dear Mr. and Mrs. Woolsoncroft:

Thank you for your recent inquiry regarding the future of our town neighborhood libraries.

I and Legislator Chuck Swanick want to assure you that no specific action affecting our community library branches will take place in 1999. What is being planned is a series of local resident meetings to gain residents' comments and recommendations concerning the future of neighborhood library services.

When the neighborhood library staff publicly announces meeting schedules and holds resident forums, it is our hope that you will attend and provide suggestions on how best to improve user friendly services.

I have also enclosed two documents that further illustrate the importance of an orderly and phased approach for the planning and implementing of how we will assure a future for our local library system that will meet the defined needs of our constituents.

Sincerely,

A handwritten signature in black ink that reads "Lynn M. Marinelli".
