EDUCATION

M.B.A./Management Information Systems, May 1988, and
B.S. Civil Engineering, May 1986 at
State University of New York at Buffalo

REGISTRATION

New York State Professional Engineer - No. 069371-1, obtained August, 1992

EXPERIENCE

2/94 - Present

Civil Engineer II - Regional Rail/Municipal Programs Coordinator
New York State Department of Transportation - Buffalo, New York

Supervise Rail/Municipal Programs Section staff. Responsible for the administration of the Grade Crossing Safety Improvement Program, railroad capital construction projects, highway/rail coordination, railroad billings, and the railroad preferential rights process as the Rail Coordinator. Responsible for the administration of the Transportation Enhancement Program, Industrial Access Program, Legislative Initiatives, and Consolidated Local Street and Highway Improvement Program as the Municipal Programs Coordinator.

12/92 - 2/94

Junior Engineer/Civil Engineer I - Quality Assurance Engineer
New York State Department of Transportation - Buffalo, New York

Responsible for the review of highway design plans and documents to assure accuracy and integrity. Position enhanced knowledge of the New York State Department of Transportation's Standard Specifications and the preparation of contract drawings.

10/91 - 12/92

House Renovation/Professional Study

Purchased and contracted out the total renovation of a two-family house. Project included electrical, structural, and mechanical design. Studied for and successfully passed Part II of the New York State Professional Engineers exam.

3/90 - 10/91

Project Engineer

De Leuw, Cather & Company of New York, Inc. - Buffalo, New York

Developed environmental assessment reports pertaining to highway construction. Reports included noise, air, water quality, and hazardous waste assessments. Reports were written to evaluate compliance with NYSDEC regulatory standards, and were subject to NYSDOT and FHWA reviews under SEQR guidelines. Other responsibilities included utility plotting utilizing Intergraph CADD software, geometric design for highway alignments according to AASHTO and NYSDOT standards, and construction cost estimating.

5/89 - 3/90

Drainage Engineer

De Leuw, Cather & Company - Orlando, Florida

Performed hydraulic studies in accordance with Florida permit requirements. Responsible for the development of drainage boundaries, computer run water surface profiles (WSPRO), retention pond sizing, peak flow routing, and the production of bridge hydraulic reports.

6/88 - 5/89

Engineer and Construction Inspector

De Leuw, Cather & Company of New York, Inc. - Buffalo, New York

Participated in the design of multi-million dollar highway projects. Responsible for developing construction cost estimates, cross-sections, grading plans, horizontal and vertical alignments, and final contract plans.

ACTIVITIES

New York State Association of Transportation Engineers

1991 Membership Chairman-Buffalo Sect. of the American Society of Civil Engineers

Participated in a 40-hour Hazardous Waste Safety Training course

Competent in Lotus, WordPerfect, Highway Capacity Software, Stamina/Optima Noise Models, TR55, and WSPRO.
