Dear Erie County Legislator:

HHS

Thank you for taking the time to read this letter and review the enclosed information.

We are staff members of the Erie County Medical Center Corporation's Chemical Dependency Department. We were recently told that in all likelihood, the hospital will be closing our two outpatient substance abuse clinics, the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Erie Clinical Services, at 2282 Elmwood Avenue in Kenmore, by the end of this year, due to fiscal challenges.

SPENSION

The forty-three people who staff these clinics provide evaluation and treatment services to over six hundred clients at any given time, and conduct close to 4,000 clinical visits per month. We treat adults and adolescents of Erie County who suffer from alcohol dependence and abuse, as well as all other drugs of abuse found in this region.

We are a vital safety net for the communities of Western New York. Because of ECMCC's **explicit mission to provide health care to all citizens regardless of ability to pay,** we are able to engage clients in treatment rapidly, often providing next day service. Our approach with clients who have no health insurance is to help them apply for Medicaid or Family Health Plus, (we are assured coverage retroactive to the date of application), but we **do not delay treatment** until a person's health insurance becomes active, as other clinics in the area do. To do so can be extremely devastating to individuals, families, and the community at large, leading to increased costs from potentially avoidable emergency room visits, overdoses, suicides, traumatic motor vehicle accidents, incarcerations, and other consequences of addiction.

For over thirty years we have been an integral part of the addictions treatment community of Western New York, and have worked collaboratively with the criminal justice system including local town and treatment courts, Buffalo City Court, Erie County Family Court, Erie County Social Services, Child Protective Services, Buffalo City Mission, Salvation Army Adult Rehabilitation Center, Erie County Probation, New York State Parole, local school districts, women's shelters, and numerous other treatment, mental health, and social service agencies.

Enclosed you will find letters of support from some of these agencies and from current and former clients, as well as petitions with over two thousand signatures which were collected in a very short amount of time. Please take the time to look these over. We are hoping to receive your support in keeping these clinics open, and if we do, we ask that you contact Jody Lomeo, the Chief Executive Officer of ECMCC at 898-3544, and Sharon Hanson, the current chair of the ECMCC Board of Directors at 898-5495 or 898-3149. We are working with our union, CSEA, to save these clinics. Any questions you may have can be directed to Courtney Brunelle, Western New York Region 6 Political Action Coordinator, at 691-6555.

Sincere thanks for your consideration,

The staff of the Chemical Dependency Department of ECMCC

Cash woes threaten 2 ECMC clinics

Workers petition to avert closings By Jay Rey

Published:October 2, 2011, 12:00 AM 1 Comment

Recommend

Updated: October 2, 2011, 8:47 AM

Financial belt-tightening at Erie County Medical Center is raising fears the hospital will close the doors at two long-standing drug and alcohol clinics.

Workers, patients and agencies that rely on the hospital's Downtown Alcoholism Clinic, at 1280 Main St., and Northern Erie Clinical Services, at 2282 Elmwood Ave. in Kenmore, have started a petition drive to rally support for the two outpatient clinics in a pre-emptive effort to avoid their closing.

While the hospital has not announced it will shut down either one, workers at both clinics have been getting strong signals that they're on the chopping block, particularly after ECMC closed its Southern Erie Clinical Services in Hamburg in May.

The two clinics together lost \$1 million this year and are projected to lose even more in 2012, according to a hospital spokesman. Administrators have told the Civil Service Employees Association, which represents clinic staff, that changes are in store.

An ECMC board of directors meeting is scheduled for Tuesday, but it's unclear whether the board will take up the issue.

Meanwhile, union representatives are hoping to talk privately with hospital administrators and board members prior to Tuesday's public meeting in order to get more details and recommend some cost-saving measures.

"We're willing to sit down with the hospital and board of directors to find a way to make the clinics stay open," said Lynn Miller, a spokeswoman for the CSEA.

No decision has been made about the drug and alcohol clinics, said Thomas J. Quatroche Jr., senior vice president of marketing and planning at ECMC.

But Quatroche acknowledged the hospital is looking at all areas of its operation as it

prepares its 2012 budget.

Rising costs, cuts in Medicaid and inadequate reimbursement from patient health care coverage is forcing ECMC to reduce spending, Quatroche said.

"We've been very, very busy, but we're not seeing the reimbursement come through for the services we provide for the patients," Quatroche said.

"We are looking at the entire organization and how we can do business differently," Quatroche said. "We cannot continue to provide services as we are today and continue to survive."

That could mean a few different options for the Downtown and Northern Erie clinics, Quatroche said, ranging from closing to reorganizing to bringing in someone from the outside to operate the clinics.

"We're looking at it from top to bottom," Quatroche said, "and we haven't made a decision yet."

The two clinics have provided outpatient treatment services for people addicted to drugs and alcohol for more than 25 years, and are considered a mainstay in the recovery community.

The Kenmore clinic has about a dozen people on staff, while there are about 20 workers at the Main Street location, including Spanish-speaking employees to serve the Hispanic community.

The clinics have contracts with such agencies as the Salvation Army, and receive referrals from numerous entities, including Erie County probation and parole, Child Protective Services, the Buffalo City Mission and from judges presiding over drug courts throughout the county.

The two clinics combined serve an average of 600-plus clients a month, and had more than 25,000 clinical visits during the first six months of the year, said Kim Drozdz, a supervisor at the Northern Erie Clinic.

"We help people turn their lives around," Drozdz said. "We get them jobs and back into school. I can tell you story after story after story of people who have come in and are still sober today."

There are other local agencies that provide similar services, Miller said, but the ECMC clinics accept people without health coverage and begin treatment while they're waiting to qualify for Medicaid.

"That can be a 45-to 90-day wait," Miller said, "and when you have an addiction issue, you need help now. You can't wait three months."

Board of Directors Erie County Medical Center Corporation 462 Grider Street Buffalo, NY 14215-3098

Dear Madam Chair and Board Members of ECMCC:

It has come to my attention that your Board is contemplating the discontinuance of the substance abuse treatment centers associated with ECMC. This action will have a severe impact on our area courts and the ability to continue cost-saving programs which have benefit to Erie County.

ECMC is an integral part to the problem-solving courts throughout our County. As judges, we have come to rely on and value the expert services rendered by your treatment centers as we continue to utilize methods of alternatives to incarceration. Studies have proven that our courts, together with ECMC's centers, continually save money for our County by returning meaningful, productive lives back to our community. Through our courts, with the aid of ECMC treatment facilities, we have reduced incarceration costs, put families back together and developed productive individuals supporting their families otherwise on Social Services. ECMC has been an integral part of the birth of over four hundred drug-free babies who would have otherwise cost our community millions of rehabilitation dollars. While the cost-saving features of our programs are impressive, it is more noteworthy the lives that have been saved from your experts in treatment.

I believe it would be a true disservice to our community to discontinue your treatment centers. ECMC has become an integral part of something very positive in our community. I hope you reconsider your plans and support your treatment centers as they are an asset to Erie County.

Sincerely,

Toma P- amoleo

THOMAS P. AMODEO Chief Judge

September 28, 2011

÷.

Sharon L. Hanson- Chairperson ECMC Board of Directors Chemical Dependency Services Erie County Medical Center Corporation Buffalo, New York 14215

Greetings:

I serve as the presiding Judge of the Buffalo Drug Treatment Court, the Mental Health Treatment Court; and the Veterans Treatment Court Programs. The individuals seen in my Court need a variety of services that include alcohol and substance abuse treatment. The Chemical Dependency Clinics of the Erie County Medical Center continues to provide a valuable treatment and support service for the men, women and adolescents in recovery seen in these treatment courts.

The Chemical Dependency Services assist the court in providing a continuum of care that incorporates crisis, inpatient, outpatient and referral residential services for both adults and adolescents. This ability to restore these individuals to economically self-sufficient members of our society and to remain free of drugs and alcohol while learning to cope with real life situations and pressures, is invaluable to the Buffalo Drug Treatment Court Programs.

For over twenty-five years, the Chemical Dependency Clinics of the Erie County Medical Center have been partners with the courts of the Eighth Judicial District of the New York State. This partnership has worked diligently through treatment and recovery efforts coupled with judicial intervention to improve our society by allowing individuals struggling with a substance abuse disorder, to pursue a more productive lifestyle.

I strongly support the work being accomplished in both the inpatient and outpatient units of the Division of Chemical Dependency and stand ready to help in any way possible to strengthen this partnership. As reform and restructuring continues in all aspects of healthcare, be assured of Buffalo's Drug Treatment Courts commitment to preserving and enhancing the partnership that we have developed over these many years. I wholeheartedly support the continuing of the Chemical Dependency Clinics of the Erie County Medical Center.

Board of Directors Erie County Medical Center Corporation 462 Grider Street Buffalo, New York 14215

To Whom it May Concern:

I am writing to express my support for the continuation of outpatient chemical dependency services provided by the Downtown Clinic and Northern Erie Clinical Services. These clinics have been an integral part of the community for many years, and provide important services to the public. They work closely and effectively with many other community agencies to provide the best possible care for their clients.

Eliminating these services would leave a significant gap in the outpatient addictions treatment community. It would result in lengthy waiting lists for individuals who can ill afford to wait. For those people who do not have health insurance, the wait would be even longer. These clinics are the only ones in the area who will engage someone in treatment prior to their insurance being active. They have a Medicaid worker on site, who assists with getting applications submitted and approved, guaranteeing payment.

ECMC's outpatient chemical dependency clinics provide quality care to this difficult population. Closing the clinics would have a long standing negative impact on our community.

Thank you for your advance consideration

Sincerely,

Honorable Margaret G. Szczur

Board of Directors Erie County Medical Center

Madam Chair & Members of the Board:

Since 1996, when the Lackawanna City Court's Treatment Court was first introduced, the Chemical Dependency Clinics of Erie County Medical Center have partnered with the Court.

Within this partnership we have worked diligently through treatment and recovery efforts to improve our society and allow individuals struggling with a substance abuse disorder to pursue a more productive lifestyle. The Court recognizes that addiction is a medical condition that needs to be treated like any other illness. And therefore, people with an addiction must be afforded access to seek assistance for that condition.

We here at Lackawanna City Court strongly support the work being accomplished in both the Inpatient and Outpatient units of the Division of Chemical Dependency Services and stand ready to help in any way possible to strengthen the partnership.

The cost-savings of the treatment courts have been touted throughout the media and the academic literature. Attached, please find a copy of a cost savings analysis done in conjunction with the Erie County Department of Social Services and Lackawanna City Court. This document shows a significant savings per participant in the Lackawanna Drug Treatment Court. As such, the chemical dependency services available to our participants are vital to maintain such a successful and cost-saving program.

As reforms and restructuring continue in all aspects of health care, please be assured of our commitment to preserving and enhancing the partnership we have developed over the years.

Thank you for your time and consideration in this matter.

LACKAWANNA DRUG COURT- HONORABLE FREDERIC J. MARRANO ERIE CO. DSS - COMMISSIONER MICHAEL WEINER

DRUG COURT GRADUATES

In a study of recent drug court graduates, we have verified the following:

• Total of graduates - 175

- 113 had Social Services cases (Medicaid, Food Stamps, and/or Financial Assistance)
- 79 individuals had active Financial Assistance cases
- 67 of those Financial Assistance cases (involving 91 individuals) have been closed since involvement in Drug Court (84.81%)
- 6 children who had been placed in Foster Care have been returned to their homes
- 11 drug and/or alcohol free babies were born to members of this graduating class. Due to complications associated with chemical dependency, these babies can have up to \$40,000 in medical expenses in their 1st year of life
- 17 Services cases (involving CPS) have been closed
- A total of 34 children involved in CPS cases have been allowed to remain in their homes at least in part, due to the parents involvement in the Drug Court program
- An additional 17 children not residing with the parent participating in the program, have been removed from Social Services cases due to increased Child Support from the absent parent graduates
- Thirteen graduates are now current with their Child Support payments handled by the DSS, and in addition, since 1/98 more than \$18,000 has been collected towards back support payments

Drug Court Savings - Data Collection Methodology

In determining the savings associated with the Buffalo and Lackawanna Drug Courts, it was necessary to employ a variety of resources.

Cash Payments (PA) - This includes cash and in-kind payments such as rent vouchers, gas

voucher payments, etc. Information was obtained using the Welfare Management System (WMS) BICS subsystem. Direct and indirect charges were investigated for each individual.

Food Stamps (FS) - This information was also obtained by accessing the BICS subsystem.

Medicaid (MA) - To obtain Medicaid record, an adjudicated claims report was requested for each client. Adjudicated claims are the State mechanism for recording <u>all</u> Medicaid costs associated with an individual for a specified period of time.

In each of the above categories, the <u>actual</u> costs were obtained. A breakdown was then done to establish an average for each category of aid., which may be useful in projecting future anticipated savings.

Families of Graduates - The above procedures were also used to determine cost savings for families of graduates.

Foster Care Savings were determined using monthly foster care maintenance rates. As rates vary greatly depending on the age of the child and the category (normal, special, or exceptional). A <u>conservative</u> average was used which did not include special allowances such as clothing and diaper allowances.

Drug/Alcohol - Free Babies - figures were based on information received from Children's Hospital of Buffalo.

Child Support account information was accessed from the Child Support Management System (CSMS), and are actual payments received by DSS.

AMHERST TOWN COURT 400 John James Audubon Parkway Amherst, NY 14228 (716) 689-4200

September 15, 2011

Erie County Medical Center 462 Grider St Buffalo, NY 14215

Dear Board of Managers/Administrators:

There are numerous rumors of ECMC closing/merging with another agency and I am writing this letter to express my concerns regarding the importance of maintaining ECMC's substance abuse services to the community.

Our drug court serves substance abusers from all over Western New York that rely on the services of the Downtown Clinic and Northern Erie Clinical Services for outpatient treatment to our participants. Due to geographic locations of the participants, there are very limited choices of where to send people for outpatient services. In addition, the clinical skills of the staff at ECMC is exemplary and of great importance to the community.

When need arises for inpatient/detox services, choices for the participants are even more limited, and ECMC fills a void through their services that are much needed in the Western New York area.

I strongly support ECMC's commitment to the community in filling this need to continue treating people that are inflicted with the disease of addiction.

Sincerely,

Eilen Logsdon

To whom it may concern:

I have been the working in the Drug Court field since 1999 and I have held my current position as Resource Coordinator at Tonawanda City Court since 2003.

Northern Eric Clinical Services (NECS) has been a reliable and valuable agency, providing a much needed service to our community. We have utilized NECS for many of our referrals.

Most recently, one of our other local agencies, Northpointe Council closed their North Tonawanda location. This has severely limited the available resources to our Drug Court participants. Now with one less agency, our referrals have increased to NECS even more.

If Northern Erie were to close, it would it be a hardship for me professionally, since I would struggle trying to provide linkage to my participants, that already have limitations, the most pressing of those needs being transportation. But it would be a detrimental to the community. Where else would these individual go who are in need of these services?

I ask you to please consider the needs of the community and the effect it would have on those trying to improve their lives.

Please feel free to contact me if you have any questions. I can be reached directly at (716) 845-2167.

Thank you for your time.

Sincerely.

CAZENOVIA RECOVERY SYSTEMS, INC.

October 3, 2011

Board of Directors Erie County Medical Center 462 Grider Street Buffalo, New York 14215

RE: Outpatient Chemical Dependency Systems

Dear Board of Directors:

I would like to express our agency's support for the continuation of outpatient chemical dependency services provided by the Downtown and Northern Eric Clinics. These clinics have been an integral part of the community for many years and provide critical services to those in need of such specialized services within the community. These clinics work in effective partnership with Cazenovia Recovery Systems, as well as other community agencies to provide quality services for clients.

Eliminating these services would leave a significant gap in the outpatient addictions treatment community and would definitely result in lengthy waiting lists for those who can ill afford to wait. For those individuals who do not have health insurance, the resulting wait may be even longer. We are in critical need of these clinics because they are willing to engage someone in treatment prior to their insurance being active. As important is the presence of a Medicaid worker on site, who assists with getting applications submitted and approved, resulting in guaranteeing payment.

ECMC's outpatient chemical dependency clinics provide quality care to this vulnerable population. Closing them would have a long-term negative impact, on both the individuals served and the community at large.

I hope you give serious consideration allowing these clinics to remain open and fulfill a critical need and gap in services for the community.

Sincerely,

anne L'Associatte

ERIE COMMUNITY COLLEGE S T A T E U N I V E R S I T Y O F N E W Y O R K

September 30, 2011

TO:	Board of Directors for Erie County Medical Center
FROM:	Lisa Aragona, Program Director, Driving Programs
RE:	In Support of Downtown Clinic

I am writing this letter in support of the ECMC Downtown Clinic. It is a privilege to work with such an organized and efficient agency. The NYS Drinking Driver Program (DDP) does referrals for evaluation to a number of OASAS approved agencies in western New York. As part of our program responsibilities, persons referred to an outside agency are tracked through the referral process from initial referral, to evaluation results and /or treatment status and treatment completion.

The Downtown clinic responds to all of our requests for needed paperwork, with extreme competence. When we need to contact the counselors for additional information or clarification on any particular student, a fairly frequent occurrence, our calls are returned in a timely manner. The personnel are always terrific to work with and helpful in supplying any information when is it needed.

Feedback from persons referred to that clinic is almost always very positive. Counseling in the substance abuse field is demanding and certainly is very emotional for the persons attending both evaluation and treatment programs. The staff handles their clients with respect and fairness, and the counseling the clients receive motivates many to begin the path to a substance free existence.

There is a great need in the City of Buffalo to provide services for the substance abuse population. To close the Downtown Clinic, which has acquired and maintained an excellent reputation over the years, would be of disservice to the number of agencies and people who depend on the services the clinic provides. Please vote to keep the Downtown Clinic open.

County of Erie Chris Collins County Executive Department of Probation

Brian McLaughlin Director

September 19, 2011

Dear ECMC Board of Directors and Administrators:

It has come to my attention that Northern Eric Clinical Services and 1280 Main may be in danget of closing. I am a Probation Officer and supervise adults on Probation who live primarily in Kenmore and Tonawanda. Not only do I take Probation reports at the Northern Eric Clinical Services building but many of the individuals on my caseload receive outpatient substance abuse treatment services at Northern Eric. The services offered through this treatment agency are invaluable to these individuals and to my department. These services not being available could lead to hardship for clients who live in this community or who are otherwise served by Northern Eric.

Thank you for your time and consideration.

VOUT Loanne Azzarello

Kim Droz ECMC Northern Erie Clinic 2282 Elmwood Avenue Kenmore, New York 14217

Dear Kim:

I would like to take this opportunity to write in support of the Chemical Dependency Services that is part of ECMC. I would especially address the Northern Erie Clinic since that is the one that our beneficiaries mostly attend for services.

When I first came to Buffalo, I was not sure what the positive side was to our interaction because it was unique for me even after many years of being with The Salvation Army. However, it did not take me long to realize what a positive influence that the counseling and group participation received from Northern Erie's staff has influenced the men in our program.

Often when a man is ready to leave our six month program and move on – part of their list of support system is continued counseling with Northern Erie staff. They feel that not only our Center but also clinical counseling helps to keep them on the right path to continued recovery.

For years, we have been fortunate to have someone in our building from ECMC as well to act as a case manager and counselor. This continues the continuity for the men, as many of them have been raised in dysfunctional homes with family being in constant transition and turmoil.

I feel that if the clinics were removed from Erie County that it would be a disservice to people in our area and other programs or new programs would have to step up to assist individuals. Why "re-invent the wheel" when it is working to help so many just as the clinics now function.

Thank you to you and your staff who go the extra mile in caring for the men in our community. I look forward to a continued relationship in the days ahead.

Sincerely, Jennifer/Helpard

I am a Managing Attorney at the Legal Aid Bureau of Buffalo's Criminal Defense Unit in Buffalo City Court. I have worked in City Court since October of 1984. Since 1997, I have worked in the Treatment Courts in Buffalo City Court: the Drug Treatment Court, the Mental Health Court and the Veterans' Court. I also worked as a supervisor for two years in the Felony Unit here at Legal Aid and for almost two years I was trial counsel in the Integrated Domestic Violence Court in State Supreme Court. I have been a supervisor at Legal Aid since 1997.

September 19, 2011

In my years here at Legal Aid, I know only too well the devastating impact that alcohol, crack cocaine, heroin and now prescription drugs have had upon the individuals and families here in Erie County. It is imperative that citizens in our community, whether they are involved in the court system or not, have access to medical services to fight their addictions.

I have had the privilege of working with the Chemical Dependency Clinics of the Erie County Medical Center during the more than twenty five years that ECMC has partnered with the courts here in Buffalo. Throughout the erack epidemic and now the epidemic of opiate abuse, the individuals who work as court liaisons and as counselors with ECMC have done phenomenal work with my clients. Through their efforts, countless clients of the Legal Aid Bureau have entered recovery from substance abuse, stayed out of the court system and have gone on to work to support our community.

Please know that I give my complete support to the Inpatient and Outpatient Units of the Division of Chemical Dependency. If you would like to speak with me directly, please don't hesitate to call me at: 855-1553, ex. 35 or contact me by e-mail at <u>dmaichle@legalaidbuffalo.org</u>.

Sincerely, Danielle H. Maichle, Esq Managing Attorney

RE: High School Equivalency Class

This letter is in support of the High School Equivalency (GED) Class that has been held there for many years. Maryvale's GED Classes are free to ECMC's staff and clients. These classes are there every day and Maryvale provides the teacher and supplies.

There are so many people with mental, emotional, drug and alcohol problems that end up dropping out of school or end up unemployed and unemployable. Statistics show that Literacy demands of the workplace and society in general are growing and recurring linking cycles of poverty and low literacy levels have put these clients at an increasing disadvantage.

Maryvale's Literacy Class on site at ECMC makes it is convenient for the clients to attend GED Classes. These students have gained confidence, know how and education to reach out and obtain the High School Equivalency to help them become employable, if not they will be unable to find employment, due to lack of job and/or literacy skills.

It would be very sad if the ECMC Clinic were to close and very detrimental to the large number of students that we have attending class there. So many of the clients have received their (GED) High School Equivalency Diploma from ECMC and the Maryvale Literacy Class would like to continue on and work hand in hand with ECMC in helping this population.

Thank you,

ichaulh

Board of Directors Erie County Medical Center Corporation 462 Grider Street Buffalo, NY 14215

To whom it may concern:

I am writing to express my support for the continuation of outpatient chemical dependency services provided by the Downtown Clinic and Northern Erie Clinical Services. These clinics have been an integral part of the community for many years and provide important services to the public. They work closely and effectively with many other community agencies to provide the best possible care for their clients.

Eliminating these services would leave a significant gap in the outpatient addictions treatment community. It would result in lengthy waiting lists for individuals who can ill afford to wait. For those people who do not have health insurance, the wait would be even longer. These clinics are the only ones in the area who will engage someone in treatment prior to their insurance being active. They have a Mediaid worker on site, who assists with getting applications submitted and approved, guaranteeing payment.

ECMC's outpatient chemical dependency clinics provide quality care to this difficult population. Closing them would have a long standing negative impact on our community.

Thank you in advance for your cooperation.

Sincerely,

Eugehd Meeks

Ms. Kim Drozdz, Supervisor of Clinical Services Northern Erie Clinical Services 2282 Elmwood Ave. Kenmore, New York 14127

Dear Ms. Drozdz:

I was disappointed and frankly very upset to see the article in the Buffalo News on Sunday indicating that due to fiscal challenges with Medicaid reimbursement, Erie County may be considering closing Northern Erie Clinical Services as well as the Downtown clinic.

As the Director of Child & Family Services-EAP for the past 28 years, I am writing this letter on behalf of our staff and the employers we serve in Western New York to express our appreciation and continued support of the excellent services both of your clinics have provided for employees and families impacted by chemical abuse.

Our EAP provides services for approximately 100 local employers and we are a local affiliate for several nationally based EAP vendors. Along with short-term counseling for various personal and family concerns, we also provide assessment/referral services for employees and their family members who may be in need of more in-depth evaluation and/or treatment services. Since the inception of our program more than 30 years ago, we have often referred individuals to one of your clinics and have always appreciated the responsiveness and professionalism of your staff. Without these clinics, there would obviously be a huge gap in availability of services, which would have a significant impact on those in need of treatment as well their families and employers.

We hope that other alternatives are considered.

Sincerety

To Whom It May Concern:

I am writing in regard to the possible closing of the Erie County Outpatient Clinic simply because I believe it saved my life, and I am morally obligated to speak up.

My life is very beautiful today. I have three beautiful children, I am a teacher (most recently substitute teaching at the WNY Children's Psychiatric Hospital) and a productive member of society. This was not always the case.

Twenty years ago, I came to the doors of the "Downtown Clinic" wondering if I wanted to live. I knew that I would die if I continued to drink and I knew I would die if I didn't. I had no job and no insurance. The feelings of loneliness, isolation and despair are indescribable – even now. I can assure you that I know it when I see it, and so did (and do) the counselors that worked with me. They helped me get insurance through Medicaid, and Public Assistance. I am not ashamed to have utilized those resources and am very vocal in explaining that need to my friends who may judge others for it, not understanding how important that help is.

My children are wonderful – for the last 2 years they have chosen to collect donations for the City Mission at their birthday parties in lieu of gifts – they are kind and good, because they have a mother who is able to teach them. That is because someone helped me when I had nothing. No insurance, no money, no hope.

I am terrified for the people like me who are already feeling hopeless and worthless. If you turn your back on them where will they go? You have the ability to make sure they are not left behind. I fear for them, because they are the modern day lepers. Who cares about the alcoholics and drug addicts? Do you? Know that if you close the clinic you are saying you don't.

When you look at your children or grandchildren, imagine not being able to care for them because you have a powerful, insidious disease. Imagine you can't pay for treatment, and feel your fear and hopelessness increase – and think how much harder it will be to stay sober. How much easier it would be to have one more drink.....

You are holding people's lives in your hands –

Please have the courage not to hide behind the budget and do the right thing for a very vulnerable (and possibly unpopular, dispensable) population.

Sincerely,

Christine Maye Lord

September 20, 2011

ECMC Board of Directors 462 Grider Street Buffalo, NY 14215

Dear Sir or Madam:

I am writing to express my concern that the Northern Erie Clinic at Kenmore and Elmwood Avenues may be closing. Northern Erie Clinic provides an invaluable service to the North Buffalo, Kenmore citizens. The clinic has helped thousands of residents who suffer from alcoholism, drug addiction and other mental health issues.

I personally have benefitted from the clinical services at Northern Erie at a time in my life when I did not have anywhere else to turn. Since receiving the counseling services in 1989, I have attended countless 12 step meetings at the clinic. The meetings are an important part of my continued sobriety.

Because of my attendance and involvement with the 12 step meetings held at Northern Erie, I have been able to see first-hand the thousands of people who have been helped at the clinic and through the 12 Step meetings. If the clinic closes, there are no outlets for the residents to receive comparable services.

Accordingly, I would strongly urge that the Northern Erie Clinic remain open so that it can continue to provide vital services to the Buffalo/Kenmore community.

Thank you.

Very truly yours,

Sun B.

Súsan B

Director Northern Erie Clinical Services 2282 Elmwood Ave Kenmore, NY 14217-2606

January 15, 2011

Dear Sir or Madam:

I am writing to express my heartfelt gratitude for the help I have received for over the last twenty years from the staff and program at Northern Erie Clinical Services.

In the late 1980's I was living in Kenmore, walking distance from Northern Erie and I was on the verge of taking a drink. I had been sober (dry) for a little over a year after previously twice completing an in-patient treatment program in another state. As we say in AA, I was "whiteknuckling" it, trying my best to not drink. I was full of both resentment and self-pity. I am a trained professional, but I had very little money, was heavily in debt, and was unemployable. I could not see myself working full time because I believed I could not handle the stress. I was working a part-time temporary job at low wages, riding the bus back and forth to downtown Buffalo, just "hanging in there." I had previously collected two drinking driving arrests. Each day I would have to use the AA slogan "Think through the first drink." I was actually thinking "what's the use?" "I think I will get a minimum wage job and just drink." I thought I could probably earn enough money for that. In the previous two years I had on one occasion drunk myself out of my own business and on another occasion out of a full time job. AA, my sponsors and the 12 steps were all helpful to me, but I was still not really recovering. I needed something else, some more help. I was depressed. A friend I was living with suggested that I try to find some more (counseling) help. I had no health insurance, no money. I was not on Medicaid. I did not even know Medicaid existed. I cannot remember how I heard about Northern Erie, but I believe it was from the phone book.

I made the call to Northern Erie fully expecting to not be able to see anyone for a week or more. I was wrong. I was seen within a couple days and I immediately started to get the help I needed. I ended up meeting with the counselor who had answered the telephone that day. This counselor perceived my problem immediately and stated "Your problem is probably that you never had any after care. I think we should try some group therapy and see if the depression-lifts" I was put on a scale payment rate to ECMC and was able to faithfully-make all the payments when due.

I spent the better part of the next three years in therapy there, attending most of the different groups available and continuing individual counseling. I learned a lot. For the most part I have become my own therapist, although I occasionally make a phone call or pay a visit for what I like to call a "press conference," or a "tune up." I also receive help in dealing with my new wife's adult child. I sponsor many people in AA and when appropriate I refer them (with their health insurance) to Northern Erie. It is a wonderful resource within our community.

I now feel "I have recovered from a hopeless condition of mind and body." In addition to being happily married, I have been able to hold a high-paying financial position, pay my Federal, State and County taxes, and reconcile with my children.

Sincerely David W.

Hospital Administration Erie County Medical Center 2282 Grider Street Buffalo, NY 14215

9/16/11

Dear Hospital Administration,

I am sad to hear of the possibility of ECMCC closing the outpatient chemical dependency clinics. I am an alcoholism counselor at Northern Erie clinical services. I am a young professional that has had the pleasure of being a part of Southern Erie, Downtown Clinic, and Northern Erie. Our outpatient clinics provide a unique service unavailable elsewhere. As a clinician at Downtown Clinic I learned that all people regardless of Socio economic status, given the opportunity, can thrive. When I transferred to Northern Erie I found my home. We are a family here and this provides a welcoming atmosphere to our clients. The supervisory staff provides a unique environment of support where clinicians thrive, fostering innovative and passionate professionals not found at many private agencies. This is felt by our clients who are treated with dignity and respect. While other agencies may turn away difficult cases or refuse treatment to the uninsured; our clinic embraces these clients that would otherwise face problems such as homelessness, prison, or death.

While the effects of outpatient closing will be devastating to staff, I am more concerned about the welfare of the clients we serve and our community as a whole. It is impossible to quantify the profits of outpatient chemical dependency. While it is true that reimbursement is an important aspect of any business, when measuring the success of a human services agency more must be taken into account. In my time as a counselor I have seen many people who were once uninsured and using social services regain employment. These clients that were once a drain, become contributing members of our county. ECMCC outpatient uniquely provides onsite availability of Medicaid-workers, a vocational training-program, and GED classes. These services when combined with counseling have improved the lives of many. Clients that once frequently presented to the ER without insurance, are now able to avoid expensive hospital visits. Clients who were committing crimes such as robbery, drug possession, and driving while impaired are no longer a danger to themselves or other citizens. Parents are able to regain their children from foster care or other placements. As you can see the benefits of proper treatment of addiction is widespread.

ECMCC has a strong presence in the community. In addition to those who self refer; we also serve the 8th judicial district's treatment courts, Salvation Army, Erie County Probation/Parole, Social Services and Kenton school districts. Without our services many of these clients may be without treatment or the ability to take advantage of these other programs. Salvation Army and Northern Erie together provide housing and treatment for homeless men, keeping them off of the streets of Buffalo and teaching valuable work skills. Kenton support center and Northern Erie cooperate to provide early intervention to children and young adults. These services prevent and treat addiction before problems escalate. Finally the judicial system takes a treatment approach helping to change those committing crimes instead of incarceration. The closing of ECMCC outpatient would negatively Impact these clients, cooperating organizations, and the community as a whole.

I hope that this letter helps to demonstrate the importance of ECMCC outpatient chemical dependency clinics. I would be happy to further discuss the impact of our services, as this letter can only give a glimpse into our impact on the community. As myself and collogues are passionate about our work and the outpatient clinics, we would be happy to be a part of any discussions to save on costs or increase reimbursement. Thank you for taking the time to consider my letter

Sincerely,

Erin Hoppe

SEPTEMBER 15, 2011

ADMINISTRATION, ERIE COUNTY MEDICAL CENTER 462 GRIDER STREET BUFFALO, NEW YORK 14215

TO THE ADMINISTRATORS OF ECMC:

I AM A SEMI-RETIRED PROFESSIONAL WOMAN – AND FORMER CLIENT OF NORTHERN ERIE CLINICAL SERVICES – WHO IS DEEPLY DISTURBED BY RUMORS THAT THE FACILITY MAY BE CLOSED.

IT IS BAFFLING TO ME THAT A SERVICE SO EFFECTIVE AND FAR-REACHING WOULD BE CONSIDERED FOR TERMINATION — BUT PERHAPS YOU ONLY KNOW THE CLINIC IN TERMS OF DOLLARS AND CENTS WHEN, TO THOUSANDS OF COUNTY RESIDENTS, INCLUDING ME, IT HAS LONG BEEN A RESTORER OF LIVES.

MANY OF US TRIED OTHER RECOVERY PROGRAMS BUT WERE UNSUCCESSFUL IN OUR ATTEMPTS TO BECOME SOBER BEFORE EXPERIENCING NECS'S UNIQUE, CLIENT-ORIENTED APPROACH - WHICH I UNDERSTAND IS AVAILABLE AT ECMC'S DOWNTOWN CLINIC AS WELL. IT IS AN APPROACH THAT SIMPLY ISN'T FOUND ELSEWHERE.

I AM ALSO TOLD THAT THE NORTHERN ERIE AND DOWNTOWN CLINICS ARE THE ONLY PLACES IN THE COUNTY WHERE CLIENTS WITHOUT HEALTH INSURANCE CAN GET TREATMENT BEFORE A PLAN FOR PAYMENT IS IN PLACE.

IT HAS BEEN MORE THAN 21 YEARS SINCE I "ENROLLED" AT NECS FOR ALCOHOLISM TREATMENT. A WOMAN DEEMED "HOPELESS" BY OTHER PROGRAMS, I SOON FOUND MYSELF IMMERSED IN LEARNING NOT ONLY HOW TO GET BETTER BUT HOW TO LIVE A USEFUL AND QUALITATIVE LIFE.

A DAY AT A TIME — THROUGHOUT MY TREATMENT AT NECS – I HAD NO REASON TO PICK UP A DRINK — AND, A DAY AT A TIME, THROUGH THE GRACE OF GOD AND ALL I LEARNED AT NECS, I REMAIN SOBER. I AM ALSO STILL A REGULAR AT NECS — AS A MEMBER OF THE RENAISSANCE GROUP OF ALCOHOLICS ANONYMOUS, A THRIVING AA GROUP WHICH MEETS THREE TIMES A WEEK AT NECS.

A SMALL SEMI-CIRCLE WHEN I FIRST CAME TO NECS, THE GROUP NOW FILLS THREE ROOMS – AND COUNTS, AMONG ITS MEMBERS, MANY NECS "ALUMNI." OUR NEWCOMERS ARE MOST OFTEN CLIENTS OF NECS. GRATEFUL – AS I WAS – TO HAVE AN AA MEETING ON THE PREMISES. AS MY PRIMARY NECS COUNSELOR TOLD ME, IT WAS THE "MIX" OF THE TWO THAT WAS OPTIMUM FOR MY RECOVERY.

I KNOW I AM NOT ALONE IN FINDING AN ETHIC AT NECS THAT CONTINUES TO ENHANCE MY LIFE –I AND HAVE ALWAYS CONSIDERED IT A PRIVILEGE TO BE ABLE TO RETURN TO THE SITE OF MY "RE-BIRTH" FOR AA MEETINGS. A FACT THAT ALLOWS ME TO CONTINUE TO SAY THANK YOU TO THE COUNSELORS AND STAFF AT THE FACILITY WHO BRING SUCH PASSION, PROFESSIONALISM AND INTEGRITY TO THEIR WORK.

TODAY, I AM PRESENT TO MY (FULL AND BEAUTIFUL) LIFE — AS A SOBER MOTHER, DAUGHTER, GRANDMOTHER AND WORKING WOMAN. MY FAMILY, MY FRIENDS AND I ALL KNOW THAT I OWE THIS QUALITATIVE LIFE TO THE "MIX" OF NECS AND AA — AND THEY JOIN ME IN ASKING YOU TO RECONSIDER ANY THOUGHTS OF TAKING AWAY WHAT, FOR COUNTLESS ADDICTS AND ALCOHOLICS IN THE COUNTY, IS THE PROVEN, AND ONLY, SQLUTIQN.

e governa e

YOURS.

Kate B.

AMHERST, NEW YORK

Candace J. Casey 85 Charles Street Cheektowaga, New York 14206

October 13, 2011

Board of Directors Erie County Medical Center Corporation 462 Grider Street Buffalo, New York 14215

To Whom It May Concern:

I'm writing to express my gratitude for the clinicians at ECMC's outpatient clinics. After many years of alcohol and drug abuse which began when I was 10 ½ years old, I ended up in treatment at the age of 28. As a veteran, my inpatient treatment was at the VA Hospital in Buffalo, NY. Unfortunately after my release I did drink and use drugs again.

I ended up in Casa DiVita halfway house in August of 1987 and began outpatient treatment at 120 West Eagle Street (the predecessor to ECMC's 1280 Main St Clinic). After 18+ years of alcohol and drug abuse I was beaten into a person I could not, nor would I, look at in the mirror. The gift I received in my outpatient treatment was a counselor (Juanita Holt) who was steadfast in her belief in me and my ability to get sober. Through her dedication and strength she reflected back to me what I could become. Without her guidance, counseling and unwavering support, I don't believe I would be sober today.

I write this letter to you today as a woman who has been sober for 24 years. I am a dedicated taxpaying employee who contributes to society. I volunteer in my community and I give back to other recovering alcoholics through my participation in self help groups.

The services available at ECMC's outpatient clinics were there for me at a time in my life when suicide was not only one of my options, but many days seemed to be my best option. The expertise and caring provided to me changed my life in ways I can't adequately describe. To hear that the agency directly responsible for the beginning of my new life may close leaves me in complete disbelief.

ECMC's outpatient clinics provide care the moment you walk in the door, and I personally know dozens of men & women who are sober today as a result. If you turn away those that need help and tell them to come back when their insurance kicks in, many will never make it back.

When we disregard the weakest in our society, we give away a part of our soul. I was given the gift of my soul back through the partnership developed with my counselor and the belief she gave me to believe in myself.

Please reconsider your decision to close ECMC's outpatient clinics. The soul you save may be one of your own.

Sincerely,

Candace I.

October 6th, 2011

To Whom It May Concern;

I was regrettably informed that the facility at 1280 main street was slated to be closed. I have been there for about 5 months in the outpatient program. I have been to several outpatient programs without much success. Being in this program has been very successful, this stretch has been about the longest I've stayed clean. In a short time I've developed a great relationship with not only my counselor but everyone I've come into contact with here. The staff here does an excellent job and understands the needs of every patient they have.

I understand in the times now of budget cuts everywhere and a country that is in massive debt that some things do have to close, but this facility many people depend on and it would be a terrible shame to see it close. I drive about thirty miles three times a week just to go to the groups here because this facility is successful.

I am writing this to ask of the board that if there is any way to keep this facility open to please consider any options you may have. Myself and many others depend on this place very much and there is a dwindling number of places like it. Southern Erie Clinical Center in Hamburg and some of the other major facilities in Western New York have already closed and I just don't believe this area can afford for another to become inactive. So I ask of you to carefully consider what is about to happen before any final decisions are made.

Regards, Kristen

December 30, 2001

Northern Erie Clinical Services 2282 Elmwood Ave. Kenmore, NY 14217

Dear Sirs:

About 7 years ago I hit bottom. I felt broken and I thought that I was irreparable. I wanted to die. I thought that nobody could understand what I was talking about, worse yet, how I was feeling. I felt shame, guilt, alone, and lonely. I was losing my family, I was losing my life.

I began to come to Northern Erie Clinical Services and found the much needed help in the form of the fine counselors I met there. With the help of their counseling, my meetings began to work magic with me. Their therapy helped me recover my self respect and my family. Best of all it helped me understand myself, and my disease.

I am so grateful that Northern Erie exists for not only the immediate neighborhood, but is accessible by public transportation for those who live far and want to get well.

The center has provided me with a structured safe haven where I can come full of troubles and in a few minutes, with their wise system of guidance, they help me see that I can handle my problems, I can see the light, I feel that there is a better future for me and for all the people who use Northern Erie.

Thanks to the guidance I have received at the center, I am becoming more confident, developing self respect, and starting to believe that I can make it in life. Better yet, I am actually improving the quality of my life. Now I have a social life, and I am better able to control my emotions. I have set up boundaries with those who are abusive with me. – Instead of being a burden I feel I can actually contribute to society.

I am extremely grateful to Northern Erie. Without it I would be dead by now.

Margaret M.

October 6, 2011

Board of Directors Erie County Medical Center Corporation 462 Grider Street Buffalo, NY 14215

To whom it may concern:

My name is Geoffrey Smith and I volunteer at the Downtown Clinic at 1280 Main Street. Currently, I'm a team leader of the vocational/maintenance program there. I work the front door everyday to greet and welcome our clients.

This program has helped me with confidence, appreciation and direction in my life and allows me to see these qualities in others. Some may not have these when first entering the facility, but they always leave with a vast improvement in attitude and direction in their lives.

I'm writing this letter to inform you that cutting the care for current and future clients would be devastating to the community. There are certain steps and changes in order to better ourselves and become productive members of society. In these steps provided, people have a chance to learn. Even though their lives are not on track, they will always have a chance to do some things better. People learn here, knowing that they can become productive members of society. There are techniques and advice that all staff portray to clients. The Downtown Clinic, as well as Northern Erie, gives clients the strength and initiative to help them open up to life's positives and gives them opportunities to rebuild and reconstruct what's needed to accomplish their goals.

Please take my letter seriously, for I would not be anywhere in my life if it weren't for the programs provided here.

Sincerely,

Geoffrey R. Smith
TO WHOM IT MAY CONCERN:

It has come to my attention that ECMCC is considering closing the Chemical and Alcohol Dependency Clinics located at 1280 Main St. and Elmwood and Kenmore. As a recovering alcoholic for over twenty (20 years) I started my recovery when the clinic was located at 120 west Eagle. As I was working downtown, this clinic was very positive in my recovery.

These clinics are necessary for recovering people to maintain their sobriety. Being involved with a knowledgeable counselor is instrumental in the recovery process. An addicted person must know and trust their counselor. As a recovered alcoholic I remember how fragile and sick I was at the beginning of my sobriety. My counselor most probably saved my life. What price can you put on that?

I strongly feel that the closing of these clinics will result in many people not seeking the treatment they need to recover from the grip of addiction. They would no place to go, Please do not turn your back on our recovery.

Thank You for your consideration.

Sincerely,

A recovering Alcoholic,

Gregory G

• . ! -1408 SIR - 911 Mered Here Chine I need my beep & super from this a really bed addretter with, cleahad To whom it may concern I had

i. De la companya de la

Madam Chair and Members of

The ECMCC Board of DIRECTORS,

For the past twenty years I have been employed by the Erie County Medical a court liaison /caseaide in the department of chemical dependency assisting clients that have been arrested and have addiction problems in the City of Buffalo Drug Court and Cheektowaga Town Court get substance abuse treatment in the outpatient treatment programs and inpatient programs at ECMCC.

Before that I was a falling down drunk that without the help of the Downtown clinic I would not be alive today and if I was I would be in jail or another institution. I can't believe That these programs be closed after what I have seen with others and with myself personally. I have twenty five years of sobriety and I have been given the chance to help others the way I was helped by the outpatient substance abuse treatment at ECMCC.

So I say find a way to keep these great programs open so that we can continue to help the less fortunate the way I was helped.

As a result of me being sober I was able to continue my education, buy a home and pay taxes due to the great work in the addictions programs at ECMCC.

Sincerely.

Cecilio Diaz Jr.

Court Liasion/Caseaide for Addictions ECMCC

October 1, 2011

Northern Erie Clinical Services 2282wood Ave Kenmore, New York 14217

To the Board of Directors,

I am a current client of the clinic, using various group therapy sessions on a daily basis. Through my attendance at these groups, I have realized that I am an alcoholic and always will be. The sessions have helped me deal with my recovery, my emotional issues and also, my physical health. The staff has provided an important part in my success. They have gained my trust and have become trusted advisors in a safe and confidential environment

I believe that the closing of the clinic would be a catastrophic blow to not only me, but to the others who utilize the services at this location. I understand that all programs offered are at full capacity. With this said, the closure of this site would have a devastating effect on all participants as we would have to start anew with different staff.

I urge you to reconsider the closing of this facility and appreciate you taking the time to read this letter.

Sincerely,

Simone A. LaDuca

To whom it may concern:

My name is Matthew Mayer and I am a current patient at Northern Erie Clinical Services. I recently read an article about the idea of closing NCES in the Buffalo News, which prompted me to write this letter. I find the idea of the closing of the clinic very troubling.

I am a former drug addict and in recovery. I would just like to give you some back round information. I have been struggling with addiction for years, which is a life long struggle. I have been in several different approximately eight different outpatient programs that have been very unsuccessful. I have been in Amherst drug court, which was unsuccessful. Until I started to attend Northern Erie that took some time and hard work to get, clean.

Northern Erie Clinical Services is a great safe place where recovering addicts can go. The counselors here our great people, who actually care about there clients. Which in most outpatient clinics they often do not care which is troubling to me. I have met a great group of people on there team who work well together. I have a counselor who I can call 24/7 and who will return my phone call as soon as possible, which is a great tool to have when you struggle with addiction.

All I would like to say is please consider my letter. I cannot explain it but Northern Erie has worked for me and I would not trade my sobriety for anything in the world. I believe that I owe my sobriety to the staff at NECS who have been great to me and many others.

Thank you for your time,

Matthew R Mayer

Mat R7

Addiction affects one out of seven individuals in New York State. Addiction treatment is an important part of healthcare. Please support us in urging ECMCC to remain in the addiction treatment business. I'm sure we all know someone whose life depends on it!

The senior management and Board of Directors of Erie County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Erie Clinical Services at 2282 Elmwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept someone into treatment without having health insurance. We then work with that person to secure their health insurance.

Addiction affects one out of seven individuals in New York State. Addiction treatment is an important part of healthcare. Please support us in urging ECMCC to remain in the addiction treatment business. I'm sure we all know someone whose life depends on it!

The senior management and Board of Directors of Erio County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Erie Clinical Services at 2282 Elmwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept someone into treatment without having health insurance. We then work with that person to secure their health insurance.

Addiction affects one out of seven individuals in New York State. Addiction treatment is an important part of healthcare. Please support us in urging ECMCC to remain in the addiction treatment business. I'm sure we all know someone whose life depends on it!

The senior management and Board of Directors of Erie County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Erie Clinical Services at 2282 Elmwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept someone into treatment without having health insurance. We then work with that person to secure their health insurance.

Addiction affects one out of seven individuals in New York State. Addiction treatment is an important part of healthcare. Please support us in urging ECMCC to remain in the addiction treatment business. I'm sure we all know someone whose life depends on it!

The senior management and Board of Directors of Erie County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Erie Clinical Services at 2282 Elmwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept someone into treatment without having health insurance. We then work with that person to secure their health insurance.

Addiction affects one out of seven individuals in New York State. Addiction treatment is an important part of healthcare. Please support us in urging ECMCC to remain in the addiction treatment business. I'm sure we all know someone whose life depends on it!

The senior management and Board of Directors of Erie County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Erie Clinical Services at 2282 Elmwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept someone into treatment without having health insurance. We then work with that person to secure their health insurance.

The senior management and Board of Directors of Eric County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Eric Clinical Services at 2282 Elinwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept sorneone into treatment without having health insurance. We then work with that person to secure their health insurance.

The senior management and Board of Directors of Eric County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Eric Clinical Services at 2282 Elinwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept someone into treatment without having health insurance. We then work with that person to secure their health insurance.

The senior management and Board of Directors of Eric County Medical Center Corporation are considering closing their two outpatient chemical dependency clinics. They closed our clinic in Hamburg earlier this year, leaving the Downtown Clinic at 1280 Main Street in Buffalo, and Northern Eric Clinical Services at 2282 Elinwood Avenue in Kenmore. These clinics provide thousands of units of service to community members and their families whose lives are impacted by the use of drugs and alcohol. We are the only agencies who will accept someone into treatment without having health insurance. We then work with that person to secure their health insurance.
