

The Erie County Sheriff Office continues raising awareness about child safety with producing over 14,894 Operation Safe Child Cards since inception in July 2005. Through an historic partnership with the New York State Police, New York City Police Department, New York State Sheriffs' Association and the New York State Association of Chiefs of Police, the Division of Criminal Justice Services and its Missing and Exploited Children Clearinghouse have expanded Operation SAFE CHILD into a multi-pronged campaign teaching parents and guardians in keeping children safe in today's world.

Sheriff Timothy Howard is please that the Erie County Sheriff's Office is one the agencies that continues to lead in producing the most card in the State of New York along with the New York State Police, New York City Police, Division of Criminal Justice Services and Onondaga Sheriff's Office.

### **Know your Child's Information by Obtaining a SAFE CHILD Card**

Statistics show that 34 percent of parents in the United States do not know their child's exact height, weight and eye color. And, when a child is reported missing, time can be the greatest adversary. Possessing up-to-date photographs and detailed information about a child can prove to be important proactive measures that can greatly assist local law enforcement officials to quickly respond to a child's disappearance.

Using equipment that contains the latest digital fingerprinting technology and high resolution photography capabilities, the Erie County Sheriff's Officer is able to produce a **SAFE CHILD Card** for parents and guardians.

The cards contain a child's name, biographical information (date of birth, gender, height, weight, hair color, eye color, etc.), and a digital fingerprint image of both index fingers. The card can be made in less than two minutes and can be easily carried in a wallet or pocketbook. Interested parents can choose to store the fingerprints, basic biographical information and photographs of children who are not missing -- information critical to expediting the return of a missing child. The storage of information is entirely voluntary and requires the written consent of a parent or legal guardian. The information gathered is digitally recorded and stored in a database at the Division of Criminal Justice Services (DCJS) in Albany. In the event DCJS receives a missing child report, the fingerprints of that child will be included in a special search file and compared against all incoming fingerprints submitted to the agency.

In addition to being able to quickly provide important details to police agencies investigating child disappearances, the New York State SAFE CHILD Card will serve as an important tool when used in conjunction with the New York State AMBER Alert and Missing Child Alert programs. These cards will allow essential missing child information to be electronically disseminated, statewide if necessary, within minutes and dramatically increase the possibility of bringing a missing child home unharmed.

If you have any questions about this program or would like to schedule an event please call Coordinator Michael Licata at 858-6305.

## **Operation SAFE CHILD**

- Operation SAFE CHILD was created in July 2005 to raise awareness about child safety. Through an historic partnership with the New York State Police, New York City Police Department, New York State Sheriffs' Association and the New York State Association of Chiefs of Police, the Division of Criminal Justice Services and its Missing and Exploited Children Clearinghouse have expanded Operation SAFE CHILD.

# Operation SAFE CHILD EZ Child ID Turnkey System

## \$4999

Analog Weight Scale &  
Custom Height Chart  
with PVC Stand included!

Your EZ Child ID Turnkey system is ready to go right out of the box. The software has been customized for Operation SAFE CHILD. We even pre-install it with your departments information. It works with standard 8.5 x 11 paper and standard CD-R disks to burn the child's data. You can also add the optional PVC card printer, or it will work with your existing PVC card printer.

The Nations  
Most Comprehensive  
ID System

You can set  
it up in under  
30 Seconds

### You EZ Child ID system Includes:

- Laptop Computer
- Logitech Web Camera
- HP Inkjet Printer
- 512 dpi Fingerprint Scanner
- Height Chart & Scale
- External Keyboard and Mouse
- Custom EZ Case
- EZ Instruction Manual
- EZ Child ID Software
- 2 Years Free Tech Support
- 2 Years Free Software Upgrades
- 1 Year warranty

### Optional PVC Card Printer

- Dual sided printing
- 250 PVC cards included
- 3 year manufacturer warranty
- Warranty includes loaner coverage
- Easy loading
- Cleaning guide with 3 cleaning cards and 1 cleaning roller
