

# COUNTY OF ERIE FIRE ADVISORY BOARD

3359 Broadway  
Cheektowaga, New York 14227

May 1, 2015

Honorable Edward Rath III  
Old Erie County Hall  
92 Franklin Street Fourth Floor  
Buffalo, N.Y. 14202

Legislator Rath,

The members of the Erie County Fire Advisory Board are requesting action be taken to expedite the repair of the Erie County Fire Training Facilities Training Towers. It has been known the forcible entry doors need repaired/replacement for well over a year.

Fire departments are beginning outdoor training at the facilities. We should not have facilities in need of repair at the very beginning of the training season.

We are requesting your committee work with other legislators to procure funding for the repairs as quickly as possible. We have a brief training season; having our facilities in full operation is mandatory to produce the best trained firefighters to serve the public.

Sincerely,

A handwritten signature in black ink that reads "William G. Szewc, Jr." with a stylized flourish at the end.

William G. Szewc, Jr.  
Secretary  
Fire Advisory Board
