Dear Ms McCarthy:

My name is Dr. Kathleen M Casacci and I represent LabCare Inc. My husband Daniel and I founded LabCare, Inc. with the sole intention to bring medical cannabis to Erie County and Western NY. We feel we have one of the strongest applications to present to the NYS Department Of Health.

We have recently secured a 60,000 sq foot facility in Erie county that we would like to utilize as a growing facility. We would like to meet with the Erie County Legislature to present our business plan and garner support for our application. We estimate that our facility will service more than 20,000 individuals that will qualify for treatment with medical cannabis. The excise tax generated from medical cannabis has the potential to bring more than \$1,500,000 to Erie County in new tax revenue if the growing facility is located in Erie County.

The selection process with the Department of Health and Governor Cuomo will begin soon and we would like the support of the Erie County legislature when we submit our application. We respectfully request an opportunity to present our proposal as soon as possible.

Thank you for your consideration,
