**Submitted by Pastor James Giles, Voice Buffalo, in support of
LL 7-2 (2014) A Local Law in Relation to the Establishment of
an Erie County Conditional Release Commission**

VOICE-**Buffalo**

Petition to Reinstate the Local Conditional Release Program in Erie County

Yes! I support **VOICE-**Buffalo****'s efforts to reinstate the *Local Conditional Release Program (LCRP)* in Erie County. I call on County Executive Poloncarz and the members of the County Legislature to restore the LCRP in order to:

- *free non-violent prisoners languishing in jail and reduce over-crowding;
- *make our community safer;
- *help veterans suffering from PTSD and others with mental illnesses; and
- *save taxpayers a great deal of money!

The LCRP allows up to 25 non-violent prisoners in the Erie County Jail in Alden to be released early. In return, these prisoners agree to a year of probation in which they work or attend vocational training and/or receive counseling that helps them reintegrate into the community. They are supervised by a probation officer who can return them to jail if they fail to complete these activities. The probation dramatically drops their recidivism rate. The cost of providing probation is \$95,000. But the taxpayers save a good portion of the \$175 per day cost for *each* of the freed prisoners. *Everybody wins!*

VOICE-Buffalo

Petition to Reinstate the Local Conditional Release Program in Erie County

Yes! I support **VOICE-Buffalo**'s efforts to reinstate the *Local Conditional Release Program (LCRP)* in Erie County. I call on County Executive Poloncarz and the members of the County Legislature to restore the LCRP in order to:

- *free non-violent prisoners languishing in jail and reduce over-crowding;
- *make our community safer;
- *help veterans suffering from PTSD and others with mental illnesses; and
- *save taxpayers a great deal of money!

The LCRP allows up to 25 non-violent prisoners in the Erie County Jail in Alden to be released early. In return, these prisoners agree to a year of probation in which they work or attend vocational training and/or receive counseling that helps them reintegrate into the community. They are supervised by a probation officer who can return them to jail if they fail to complete these activities. The probation dramatically drops their recidivism rate. The cost of providing probation is \$95,000. But the taxpayers save a good portion of the \$175 per day cost for *each* of the freed prisoners. *Everybody wins!*

VOICE-Buffalo

Petition to Reinstate the Local Conditional Release Program in Erie County

Yes! I support **VOICE-Buffalo**'s efforts to reinstate the *Local Conditional Release Program (LCRP)* in Erie County. I call on County Executive Poloncarz and the members of the County Legislature to restore the LCRP in order to:

- *free non-violent prisoners languishing in jail and reduce over-crowding;
- *make our community safer;
- *help veterans suffering from PTSD and others with mental illnesses; and
- *save taxpayers a great deal of money!

The LCRP allows up to 25 non-violent prisoners in the Erie County Jail in Alden to be released early. In return, these prisoners agree to a year of probation in which they work or attend vocational training and/or receive counseling that helps them reintegrate into the community. They are supervised by a probation officer who can return them to jail if they fail to complete these activities. The probation dramatically drops their recidivism rate. The cost of providing probation is \$95,000. But the taxpayers save a good portion of the \$175 per day cost for *each* of the freed prisoners. *Everybody wins!*

VOICE-**Buffalo**

Petition to Reinstate the Local Conditional Release Program in Erie County

Yes! I support **VOICE-**Buffalo****'s efforts to reinstate the *Local Conditional Release Program (LCRP)* in Erie County. I call on County Executive Poloncarz and the members of the County Legislature to restore the LCRP in order to:

- *free non-violent prisoners languishing in jail and reduce over-crowding;
- *make our community safer;
- *help veterans suffering from PTSD and others with mental illnesses; and
- *save taxpayers a great deal of money!

The LCRP allows up to 25 non-violent prisoners in the Erie County Jail in Alden to be released early. In return, these prisoners agree to a year of probation in which they work or attend vocational training and/or receive counseling that helps them reintegrate into the community. They are supervised by a probation officer who can return them to jail if they fail to complete these activities. The probation dramatically drops their recidivism rate. The cost of providing probation is \$95,000. But the taxpayers save a good portion of the \$175 per *day* cost for *each* of the freed prisoners. *Everybody wins!*

VOICE-Buffalo

Petition to Reinstate the Local Conditional Release Program in Erie County

Yes! I support VOICE-Buffalo's efforts to reinstate the *Local Conditional Release Program (LCRP)* in Erie County. I call on County Executive Poloncarz and the members of the County Legislature to restore the LCRP in order to:

- *free non-violent prisoners languishing in jail and reduce over-crowding;
- *make our community safer;
- *help veterans suffering from PTSD and others with mental illnesses; and
- *save taxpayers a great deal of money!

The LCRP allows up to 25 non-violent prisoners in the Erie County Jail in Alden to be released early. In return, these prisoners agree to a year of probation in which they work or attend vocational training and/or receive counseling that helps them reintegrate into the community. They are supervised by a probation officer who can return them to jail if they fail to complete these activities. The probation dramatically drops their recidivism rate. The cost of providing probation is \$95,000. But the taxpayers save a good portion of the \$175 per day cost for *each* of the freed prisoners. *Everybody wins!*

VOICE-Buffalo

Petition to Reinstate the Local Conditional Release Program in Erie County

Yes! I support **VOICE-Buffalo's** efforts to reinstate the *Local Conditional Release Program (LCRP)* in Erie County. I call on County Executive Poloncarz and the members of the County Legislature to restore the LCRP in order to:

- *free non-violent prisoners languishing in jail and reduce over-crowding;
- *make our community safer;
- *help veterans suffering from PTSD and others with mental illnesses; and
- *save taxpayers a great deal of money!

The LCRP allows up to 25 non-violent prisoners in the Erie County Jail in Alden to be released early. In return, these prisoners agree to a year of probation in which they work or attend vocational training and/or receive counseling that helps them reintegrate into the community. They are supervised by a probation officer who can return them to jail if they fail to complete these activities. The probation dramatically drops their recidivism rate. The cost of providing probation is \$95,000. But the taxpayers save a good portion of the \$175 per day cost for each of the freed prisoners. *Everybody wins!*
