ACCOMPANYING MEMORANDUM

RE: Erie County Sheriff's Office – Use of medical specialists to review work related injury cases

I. Summary of Recommended Action

The attached resolution requests authorization for the Erie County Sheriff's Office to enter into agreements with various medical specialists who provide opinions for the office's work related injury cases. During workers compensation and line of duty hearings, the Erie County Sheriff's Office council needs medial opinions from various doctors with specialized training of the human anatomy to controvert the claimant's reports.

II. Fiscal Implications of Proposal

Without the ability to utilize medical specialists, the Erie County Sheriff's Office cannot properly investigate work related injuries and therefore, increase 207c payments and workers compensation payments.

III. Reasons for Recommendation

The Erie County Sheriff's Office needs legislative approval to enter into agreements with medical specialists for work related injury cases.

IV. Consequence of Negative Action

The Erie County Sheriff's Office would not be unable to properly investigate and review work related injury cases which could result in unnecessary or wrongly determined settlement payments.

V. Steps Following Approval of Measure

Certified copies of the approved resolution are sent to the Division of Budget and Management, the County Executive, the Erie County Comptroller, the County Attorney's Office, and the Chief of Administration of the Sheriff Office for implementation.
