Come to the Expo and See What's **NEW**:

**NEW** Products

**NEW** Innovative Ideas

**NEW** Product Demonstrations

**NEW** Ways to Improve Your Safety Culture

## DiVal Expo Schedule and Breakout Session Information

- Begins at 7:30am** **Expo Registration** Register when you arrive and then grab a coffee, or any of the other morning refreshments, and start viewing the vendor exhibits.
- 8:30am - 9:30am** **OSHA Update - What's on the Horizon?** Local Compliance officers from OSHA will share an update on the Agencies local and national emphasis areas. There will also be information presented on how the elections may effect the agency. Time will be allotted for a question and answer period.
- 10:00am - 11:00am** **Training Learning Game** Safety is not all fun and games but it can be in some of your sessions! Customized, computer based games which involve the audience can help you make your meetings come alive and be memorable. During this session we will discuss how to effectively incorporate available "games" into your required Safety training and the audience will participate in a "live safety training meeting". The audience will get to experience the "game" and the "effective training techniques" first hand.
- 11:30am - 1:30pm** **Lunch & The DiVal Safety Fashion Show** Enjoy lunch and something we're bringing back into fashion from the 1990's Expo era. The DiVal Safety Fashion Show is a runway full of new and head-turning products, modeled by our own DiVal fashion models (note these are not your typical fashion models from the runways of Paris or New York). Watch and get a chance to win a prize raffled off by each DiVal model.
- 2:00pm - 3:00pm** **OSHA Globally Harmonized System (GHS)** The GHS is a system to standardize the way hazardous materials are classified and labeled. Currently many different countries have different systems for classification and labeling of chemical products. In addition, several different systems can exist even within the same country. This situation has been expensive for government to regulate and enforce, costly for companies who have to comply with many different systems, and confusing for workers who need to understand the hazards of a chemical in order to work safely.

Vendors will be exhibiting from 7:30am until 3:15pm for your viewing convenience.

This is a **FREE** event, but you must be registered to attend!
