Privilege of the Floor/Question Period:
Darryl Murszewski of 7540 Cedar Street stated he has owned his property for 12 years and has 2”
pumps running to try to draw the water off, but it is not successful. He currently has 6”-8” of water
behind his pool. He realizes he is on a County road and has tried to get them to address the road
drainage issues several times but he believes there is also an existing town easement between 7440
and 7522 Cedar Street. That is why he is here before the Board to see what the Town might be able
to do. He is not sure what the easement is for or if it has ever been enforced. He can’t even access
his rear private pond or playground right now because everything is under water. He has talked to
the past Code Enforcement Officer and Erie County Highway officials regarding his concerns as has
his neighbor Dick Owens. He also just reached out to the new Code Enforcement Officer today. He
stated there is no defined ditch at the Carney Road intersection and he believes he is getting the
runoff from those homes as well as a possible artesian well in the same area.

The Board members asked several questions and looked at 2 maps provided by Mr. Murszewski.
The Supervisor took his cell phone number and said they will look into the issues and get back to
him.

The Supervisor reminded the Board of the July 15th training from 6-9pm, which will follow the
special meeting.

There being no further business to come before the board for the regular meeting a motion was made
by Councilwoman Morlacci, seconded by Councilman Burke to adjourn the regular meeting at
7:50pm. Carried Unanimously

Respectfully Submitted,
Dawn D. Izydorczak, RMC, Town Clerk
