He read the comments submitted by Erie County Planning on his project and feels almost all of the issues have already been addressed. He asked if the Town Board would still be willing to vote on the site plan tonight otherwise it will put him back 3 weeks in his schedule.
Mike Metzger of Metzger Engineering agreed that these issues have been dealt with and would like to be able to resolve this matter tonight.

Supervisor Cummings stated the town board members have not even seen the letter from Erie County Planning as it was faxed to our office at 5:10 this evening and he would like the planning board to be able to review the comments. He offered to inquire whether the planning board, who is presently meeting, would have time to discuss the issues with them. The Supervisor inquired and the Planning Board has not seen the letter either but are willing to meet with Mr. Bola & Mr. Metzger this evening.

Town Engineer Rybarczyk agreed that his office would like the opportunity as well to review the letter and the comments made by the County.

The Town Board offered that, if the planning board and town engineer review the material over the next week and are satisfied with the results, they would be willing to hold a special meeting to approve the project.
