**Privilege of the Floor/Question Period:**  Kelly Schultz of Stage Rd was present with Jack Willert, Kevin Stoldt and Dan Eckerson to express their support for current acting Code Enforcement Officer Mike Borth. They heard Mike may leave his position with the Town and as businessmen that have completed approximately $50 million dollars in projects in the town over the years, they thought they needed to express their support of Mike.  Kelly stated Mike has been by far the best CEO to work with over the last several years and they would like to see the town do whatever necessary to keep Mike in the position. He is a pleasure to deal with and knows what he is talking about and makes projects move along easily.  He is an asset to the town.  

Supervisor Cummings informed them that the Town offered Mike a very good package to take on the full time position with the Town and he opted to accept an offer from the Village instead for a part time position. The Town needs a dedicated full time person in that spot. A candidate from Amherst had been chosen to take over the job but changed his mind at the last minute before starting due to another offer from Amherst.  

Dan Eckerson of East Ave asked if we could negotiate to share Mike with the Village.  

Supervisor Cummings responded that with Mike taking the 30 hour per week position with the Village, that would only leave 10 hours per week for work in the Town. The building department and planning department are way too busy for someone to work only 10 hours per week. The Town had attempted to negotiate a joint venture with the Village last year and the Village backed out of the agreement just before we were set to move forward on the venture.
Mike Mutter of Newstead Fire Company stated he has been on many walk throughs of buildings with Mike and they have a good working relationship. He likes that Mike is local so that in emergency situations he is on site within 10 minutes usually. The residency for our CEO position is a big plus for the fire company’s purposes. With past Code Enforcement Officers if they didn’t answer their phone or bother to show up to an emergency call he or his guys would have to stay on a call site for hours until he could find someone else qualified to sign-off on the safety of a building. Mike has helped the relationship with the fire companies to move forward in the last year.

Supervisor Cummings thanked them all for their comments and the Board will take them into consideration as we move forward.

The Supervisor announced there will be no work session next week.

The Board entered executive session at 8:52pm to discuss highway and fire contracts on a motion from Councilman Jendrowski, seconded by Councilwoman Morlacci. Carried Unanimously

The Board exited executive session on a motion by Councilman Jendrowski, seconded by Councilman Burke at 9:27pm, having taken no action. Carried Unanimously

There being no further business to come before the board for the regular meeting a motion was made by Councilman Morlacci, seconded by Councilman Dugan to adjourn the regular meeting at 9:28pm. Carried Unanimously

Respectfully Submitted,
