Work Session: The Supervisor reported that at the last work session held, the following items were discussed: review of the 2016 budget, buildings projects at town buildings, water/sewer issues, planning issues, grant items, IT services, village issues- sewer billings & CRT fees, and any other matters brought before the Board.

Agenda Items Question Period: Bob Scheib of 51 Brooklyn Street appeared on behalf of Charles Carter, 6 Marshall Avenue, and read the following statement:

“With recent grant approval, the Akron Airport was given permission to add runway lights and a beacon; and, (conditional) approval for the pavement of the crosswind runway deemed essential by the FAA. I say conditional because the FAA stipulation was that the crosswind runway meet FAA criteria for length – which in the past it has not.

Questions:
A. Has there been any work performed at the airport site since the last board meeting when the petition for variance was turned down and if so, have the necessary permits and inspections been performed? SEQR report submitted? Code analysis been submitted?
B. Has the fire marshal been through the site in recent months? Last meeting when the variance was requested, there was a question of site access in case of fire and installation of a lock box for fire department use. Has this been installed as they said it would be?”

Supervisor Cummings stated that he did not know the answers to these questions and he would get back to Mr. Carter.
