Containers for the pickup of sludge shall be 20 cubic yard roll-off type containers. A different type or size may be used only with the permission of the County Staff. The Bidder shall specify the days and hours of operation of the landfill, and the exact site location.

ERIE COUNTY SEWER DISTRICT NO. 2: BIG SISTER CREEK SEWAGE TREATMENT PLANT

Estimated quantity of sludge/contaminated spoil material/scum/grit to be disposed of: 2500 tons per year (including entrained water).

The sludge consists of sanitary waste residuals from the Big Sister Creek Sewage Treatment Plant. Sludge generated B.S.T.P. is stabilized through aerobic digestion and dewatered via uncovered drying beds and a plate and frame filter press. When the sludge is sufficiently dewatered, it is imperative to remove the sludge and dispose of it as quickly as possible. This will require daily removal. The County reserves the right to dispose of any sludge through other means as allowed by the NYSDEC.

ERIE COUNTY SEWER DISTRICT NO. 3: BLASDELL WASTEWATER TREATMENT PLANT

Estimated quantity of sludge/contaminated spoil/scum/grit to be disposed of: 200 tons per year (including entrained water).

The sludge consists of sanitary waste residuals from the Blasdell Wastewater Treatment Plant. This sludge is stabilized through an anaerobic digestion process and is dewatered via drying beds.

ERIE COUNTY SEWER DISTRICT NO. 3: HOLLAND WASTEWATER TREATMENT PLANT

Estimated quantity of sludge/contaminated spoil/scum/grit to be disposed of: 50 tons per year (including entrained water).

The sludge consists of sanitary waste residuals from the Holland Wastewater Treatment Plant. This sludge is stabilized through an aerobic digestion process and is dewatered via covered drying beds.

ERIE COUNTY SEWER DISTRICT NO. 6: LACKAWANNA SEWAGE TREATMENT PLANT

Estimated quantity of sludge/contaminated spoil/scum/grit to be disposed of: 1500 tons per year (including entrained water).

The sludge consists of sanitary waste residuals from the Lackawanna Sewage Treatment Plant. This sludge is stabilized through an anaerobic digestion process and dewatered via a plate and frame filter press. Grit and screening is also removed separately at the Willmuth pump station and is washed prior to being disposed.

The County reserves the right to dispose of all sludge in excess of the estimated quantities in any manner deemed fit by the County, not withstanding any offer to dispose of more than the estimated quantity under this proposal.

ERIE COUNTY SEWER DISTRICT NO. 8: EAST AURORA TREATMENT PLANT

East Aurora Treatment Plant – 201 Mill Street – East Aurora
Estimated quantity of sludge/contaminated spoil/scum/grit to be disposed of: approximately 900 tons per year (including entrained water).

The sludge consists of sanitary waste residuals from the East Aurora Treatment Plant. The sludge is stabilized through an aerobic digestion process and is dewatered via covered crying beds. A 20 yard water tight low profile dumpster is provided by the vendor with another designated with the vendor for reloading.

GENERAL NOTES REGARDING THESE SPECIFICATIONS:

Regarding the material to be disposed of:

1) All sludge generated will be stabilized by a process approved by the NYSDEC.
2) All sludge will be dewatered to a MINIMUM of 20% + solid content.
3) All sludge has been tested for the E.P. Toxicity and have been determined to be nonhazardous (results available upon written request).
4) All sludge may contain small quantities of grit, screenings and scum mixed in with the sludge.
5) Contaminated spoil is soil like material taken from an excavation site that has been contaminated with sewage.

All bids shall specify the maximum wet tons to be accepted under the bid, and the minimum quantity under Proposal "A", if applicable.

The County will select the most favorable combination of sludge treatment and disposal methods to achieve the lowest overall costs for disposal of sewage sludge, therefore, the amount of sludge allocated for any bid may vary from the maximum stated in the bid. The County reserves the right to limit the amount of sludge.

The Bidder may not refuse the acceptance of sludge under this bid except on an order or directive of a state or federal agency.

Any bid submitted shall be considered an offer good for the entire contract period.

The successful bidder or bidders will be expected to obtain all necessary permits needed to transport and dispose of the sludge as required by the appropriate agencies. All permits must be obtained immediately upon the award of the bid.

The successful bidder or bidders will be required to sign a New York State Department of Environmental Conservation form 47-19-1 (statement of owners or operators of disposal areas or receiving areas), if receiving delivered sludge.

There shall be no filing fees for processing permits and/or applications. All such fees shall be the responsibility of the successful Bidder.

The County reserves the right to reject any and all bids. The County further reserves the right, without penalty, to limit the amount of sludge actually made available to any bidder, not withstanding any award or allocation made.

Any variation from these specifications or additional requirements of the Bidder must be made in writing and clearly noted and attached to the bid.

All bidders are to clearly mark their bids "Proposal A – Transport and Disposal of Sludge", and/or "Proposal B – Disposal of Sludge Only".

COUNTY OF ERIE

MARK C. POLONCARZ
COUNTY EXECUTIVE
DIVISION OF PURCHASE

PURCHASES BY OTHER LOCAL GOVERNMENTS OR SPECIAL DISTRICTS

The Erie County Legislature has adopted the following resolution for the purpose of allowing the following-named local governmental or school districts to make purchases through the County bidding procedures.

Under the following conditions, the Director of Purchase may make purchasing services available to the following 88 participants:

1. When in the opinion of the Director of Purchase it will not create any burden or hardship upon the County and the anticipated prices will not be adversely affected thereby, the Director is authorized when he deems appropriate and as may be requested by the participants to provide in any particular County bid specification that the participants in Erie County shall have the right to make purchases based upon the bids received by the County.

2. The County Purchase Director, within the limits of his time and manpower, shall disseminate relevant contract information to the participants.

3. The participants in County contracts will issue purchase orders directly to vendors within the specified contract period referencing the County contract involved and be liable for any payments due on such purchase orders.

Bidders shall take notice that as a condition of the award of a County contract pursuant to these specifications, the successful bidder agrees to accept the award of a similar contract with any of the participants in Erie County if called upon to do so. The County, however, will not be responsible for any debts incurred by participants pursuant to this or any other agreement.

Necessary deviations from the County's specifications in the award of a participant's contract, particularly as such deviations may relate to quantities or delivery point, shall be a matter to be resolved between the successful bidder and participants. All inquiries regarding prospective contracts shall be directed to the attention of:
