

**COUNTY OF ERIE
DIVISION OF PURCHASE
95 FRANKLIN STREET
BUFFALO, NEW YORK 14202**

**Bids for Construction and Maintenance Materials
For use by Erie County Department of Public Works,
Division of Highways**

**Submitted in accordance with New York State Specification
For the Year From April 1, 2015 – March 31, 2016**

BID NO.: 215085-004

INSTRUCTIONS TO USERS OF THIS CONTRACT

When using this contract you will notice that it is set up in sections that coincide with NYSDOT numbers.

Any municipality who is listed on the Erie County Exhibit "B" of the Instructions to Bidders, Purchases by other local governments or special districts can participate in this contract.

All successful bidders' prices are posted, however please note that in order to utilize this highway material book properly, the lowest bidder must be contacted first. If the low bidder is not available then the second low bidder should be contacted and if they are not available go down the line. Due to the fact that Buffalo has a very short construction and maintenance season it is necessary to have more than one or two vendors under contract. The lowest bidder is not always available when a district or municipality needs the product or the service. When that happens there are other vendors in the book that can provide product or service to avoid any down time.

When using this book be sure to include the bid number, page number, item number and description of material or service as written in the bid on the requisition. This information **must be included** with all orders. The unit price and quantity must be indicated in all orders.

When using the Aggregates section, be sure to take into consideration the plant/pit location with the delivery location. That will help determine who the low bidder is.

When the lowest bidder is not being used, the enclosed justification affidavit must be completed, signed and filed with the purchasing documents.

This Highway summary book was put together in compliance with General Municipal Law §100-a, General Municipal Law §103 and General Municipal Law §104.

Erie County Highway Bid#
Justification Affidavit

The Erie County Highway Bid is a compiling of multiple vendors and their pricing for various supplies and services. The goal of this bid is to provide valid resources to assist in completing a multitude of projects within a seasonal window. Therefore, there is a process that needs to be followed to ensure that you are using the lowest bidder of that item or service that can be provided within the time-frame of the project. The project time-line becomes a very important part of the evaluation. If the lowest vendor cannot provide within the specified time-frame of said project, it is permissible to go to the next lowest bidder. The Division of Purchase will require the following information will from you when this is the case.

Project Description:

Project Time-line: _____

Item or Services
Needed:

Lowest Bidder's Company Name: _____

Can Supply ___ Cannot Supply ___

Name at Company who verified above: _____

Phone#: _____

Signature: _____

Print Name: _____

*****I verify that to my knowledge, all that is stated above is true.*****

Please forward this document with your Purchase Requisition. Thank You
