DIESEL FUEL FOR SEPTEMBER 1, 2009 TO AUGUST 31, 2010
BID SPECIFICATIONS

1. The successful bidder(s) to whom a contract shall be awarded shall furnish all of the County of Erie's requirements of Diesel Fuel for the contract period September 1, 2011 to August 31, 2012 at the locations listed herein, for which the bidder shall have entered a bid price.

As ordered and released by individual County facilities;

In quantities and kinds as required;

At prices for each individual location in accordance with this bid.

2. Quantities listed in this invitation to bid are estimated, for figuring purposes only. Bidder guarantees to provide all of the needs of each individual location for which a bid is offered, in a timely manner, without fail.
3. The bidder proposes to deliver petroleum and to invoice the County for such fuel at the Buffalo, New York **average*** posted price in effect during the week of delivery, plus or minus the difference between the bid price for the grade and location quoted herein, and The **average*** Buffalo posted price effective August 22, 2011.
4. The bidder will bid for each grade of petroleum fuel and for the listed County locations, the price which the bidder would propose to charge for delivery effective August 22, 2011.
5. The bidder shall list here the Journal of Commerce **average*** posted price at Buffalo, New York effective August 22, 2011.

No. 1 Diesel \$3.6145

No. 2 Diesel \$3.0310

No. 6 Fuel Oil NB

6. The contractor's invoice prices will be adjusted weekly, upward or downward, by the deviation of the Journal of Commerce published **average*** price for the week of delivery, compared to the Journal of Commerce published **average*** price for the base period, effective August 16, 2010.

$$*AVERAGE = \frac{LOW + HIGH}{2}$$

DIESEL FUEL FOR SEPTEMBER 1, 2011 TO AUGUST 31, 2012
BID SPECIFICATIONS

7. The contractor shall notify the Director of Purchase of the County of Erie the invoice price for each commodity and location for which a bid is awarded, each time that a change in delivered price shall occur.
8. Bid prices shall include all transportation, delivery and other costs.

NOTES:

All diesel fuel shall be hydrocarbon oil, free from grit, acid and fibrous or other foreign matters likely to clog or injure the burners or valves, fuel nozzles, injectors and fuel pumps. If required, it shall be strained by being drawn through filters of wire gauze of 16 meshes to the inch.

All tank wagons or vehicles delivering oil shall be equipped with accurate printing type flow meters registering the gallonage be delivered.

Lubricity specifications to comply with stanadyne fuel injection pumps.

DIESEL FUEL FOR SEPTEMBER 1, 2011 TO AUGUST 31, 2012
BID SPECIFICATIONS

10. STORAGE: Contractor must maintain on hand at all times, ready for immediate delivery, not less than 10,000 gallons of #2D regular diesel fuel.
11. SAMPLES: Samples for analysis as taken by the County shall be accepted by the contractor as proper and the analysis as made by the County shall be final.
12. QUALITY: Contractor will be required to assume full responsibility for the quality of oil furnished. If any oil is supplied which proves unsatisfactory in use, or an analysis shows it does not come within the requirements of the specifications, contractor will be required to remove the remaining oil and supply oil of a proper quality. In default thereof, the County may purchase same in the open market at the contractor's expense, and deduction in price made for consumed oil.
13. CANCELLATION: Contract entered into under the terms of these specifications may be canceled by the County, if after analysis and practical test of such duration as may be decided by the County, it is determined that oil is not being supplied in accordance with the specifications, or if through fault of the contractor, deliveries are not made when ordered by the County, causing a shortage of oil to the County. If contract is canceled, the County may purchase proper oil in the open market and any additional cost to the County through such action will be charged to the contractor.
14. THE COUNTY MAY, AT ITS SOLE OPTION, ADD ADDITIONAL LOCATIONS AS REQUIRED, AT PRICE LEVELS CONSISTENT WITH THE PRICES QUOTED HEREIN.
15. Quantities listed are estimates only.
16. It is the responsibility of the successful vendor to perform proper clean up of any petroleum product which is spilled as a result of tank refueling, including spillage to the ground's surface and/or spillage into fuel tank "catch basins" or other secondary containment devices.
17. The list of generator locations have been added to this bid due to any power or snow emergencies where generators must be utilized, deliveries have to be made to these designated locations.
