SPECIFICATIONS

1. The successful bidder(s) to whom a contract shall be awarded, shall furnish all of the County of Erie's requirements of Gasoline for the period September 1, 2011 through August 31, 2012 at the locations listed herein for which the bidder shall have entered a bid price.
 - As ordered and released by individual County Facilities
 - In quantities and kinds as required;
 - At prices for each individual location in accordance with this bid
2. Quantities listed in this invitation to bid are estimated, for figuring purposes only. Bidder guarantees to provide all of the needs of each individual location for which a bid is offered, in a timely manner, without fail.
3. The bidder proposes to deliver gasoline and to invoice the County for such fuel at the lesser of
1.) Buffalo,
New York **average*** posted price in effect during the week of delivery, plus or minus the difference between the bid price for the gasoline and location quoted herein, and the **average*** Buffalo posted price effective August 22, 2011. Bid on Branded Ethanol Gasoline.
4. The bidder will bid for each grade of gasoline and for listed County locations, the price which the bidder would propose to charge for delivery effective August 22, 2011.
5. The bidder shall list here the Journal of Commerce **average*** **Branded Ethanol Gasoline Only!** posted price at Buffalo, New York effective August 22, 2011.

BRANDED ETHANOL UNLEADED GASOLINE ONLY! \$ 2.9055
BRANDED ETHANOL PREMIUM GASOLINE ONLY! \$3.1155

6. The contractor's invoice prices will be adjusted weekly, upward or downward, by the deviation of The Journal of Commerce published **average*** price for the base period effective August 22, 2011.

$$\text{*Average} = \frac{\text{Low} + \text{High}}{2}$$

7. The contractor shall notify the Director of Purchase of the County of Erie the invoice price for the gasoline and location for which a bid is awarded, each time that a change in delivered price shall occur.

All vehicles delivering gasoline shall be equipped with accurate printing type flow meters registering the gallonage being delivered.

10. Successful vendors shall maintain sufficient gasoline on hand to meet all of awarded requirements.
11. Quality: Contractor will be required to assume full responsibility for the quality of the gasoline furnished. If any gasoline is supplied which proves unsatisfactory in use, or an analysis shows it does not meet Specifications, contractor will be required to remove the gasoline and supply gasoline of a proper quality. In default thereof, the County may purchase same in the open market at the contractor's expense and Deduction in price made for consumed gasoline.
12. Cancellation: Contract entered into under the terms of these specifications may be canceled by the County, If, after analysis and practical test of such duration as may be decided by the County, it is determined that Gasoline is not being supplied in accordance with the specifications, or if through fault of the contractor, Delivered are not made when ordered by the County, causing a shortage of Gasoline to the County. If contract is canceled, the County may purchase proper oil in the open market and any additional cost to. The County through such action will be charged to the contractor.
13. The County, may, at its sole option, add additional locations as required, at pure levels consistent with the prices quoted herein.
14. Please note there are five locations that are high lighted in the bid specifications. These specific locations are being considered to be used as "Temporary standby storage tanks", in an attempt to achieve a 20% reduction of fueling sites.
15. It is the responsibility of the successful vendor to perform proper clean up of any petroleum product which is spilled as a result of tank refueling, including spillage to the ground's surface and/or spillage into fuel tank "catch basins" or other secondary containment devices.
