Old Business:

None was discussed

Road Standards:

None were discussed

Zoning Amendments:

None were discussed

New Business:

Bill Arlow talked with the board on two projects that were being worked on by two Eagle Scout candidates that he is overseeing.

The first project was presented by Tom Clause. He would like to turn existing park trail into a fitness trail. He would like to put up fitness stations. These fitness stations would include pull up and sit up bars, and a leg press machine. Signs would also be put up around different points on the trail. He will be responsible for funding, promoting, building and overall executing his project. The town would not incur any additional cost. After project is finished the town would take over the maintenance. Expected time frame to have this project done would be by the spring of 2011.

The second project was presented by Drew Laudenslager. His project involves building a handicap accessible playground. He would like to build ramps, wheelchair accessible walkways, and provide safety mats in case of anyone falling off playground. He would like to have the playground next to the other established playground. The one issue that was brought up was the possibility of non handicapped children having access to the playground and not allowing the handicapped children the ability to play. A separation fence may be needed. Drew will also be expected to build, fund and execute this project as well. The town will not incur any additional expenses for this project. He is currently looking into grants to help fund this project. Projected time frame for finishing this project would be in a year and a half.

Bill Arlow said the Master Plan for the Town Parks was going to be approved by the Town Board once a resolution is presented at the next board meeting.

Bill Arlow as had a meeting with Laura Marshall the new recreation director at the Town Park. There were some concerns about parking and dropping off children for the recreational programs. A new parking area may need to be established to ease the congestion around the pool house area. The old basketball courts will be eventually taken down and that could be one possibility for the parking area. Bill Arlow will further check into this issue as well as the Eagle Scouts projects and report back to us next meeting.

Dan Miller spoke to the board about new flood maps that were being done. No word yet if new properties in Sardinia have been added or if any properties have been taken off the maps.

Betsy Marsh has the current flood maps in her office.

Dave Montgomery spoke about Emergency Management Training Courses on line. He also stated that at least two board members take some of these courses. The website for these courses offered is:

<http://training.fema.gov/is/>

Chairman Darren Farthing is going to make a list of contact information for all of the Planning Board Members.

Robert Church made a motion to adjourn the meeting.

Douglas Morrell seconded the motion.

Motion **passed** by a vote of 6 ayes to 0 noes.

Meeting ended at 8:15pm.

Next meeting is Wednesday, July 7th 2010.
