**University at Buffalo School of Dental Medicine**

Most clinical facilities are located in Squire Hall on the University at Buffalo's South Campus on Main Street near the intersection with Bailey Avenue. It is easily accessible from Millersport Highway (Route 263), Main St. (Route 5), or Bailey Ave. (Route 62). Parking is available in the shaded lots on the map below with a daily permit obtained from the reception desk in Squire Hall. For more information call: 829-2821 or visit them on the web at: <http://www.sdm.buffalo.edu/patient/becoming.html>

Fee for service:

Prior to acceptance we require prospective patients to fill out an application and proceed through a 'screening appointment.' Application and screening do not guarantee acceptance. Many factors influence your acceptance into our educational program including but not limited to: the complexity of your dental health and your availability. Request a patient application packet from the patient admissions office at (716) 829-2821. Complete the forms and return them with the screening fee of \$41 or Medicaid information in the envelope provided. Please make check or money order payable to School of Dental Medicine. DO NOT SEND CASH. Please respond within 30 days. Following the return of your completed forms and screening fee you will be contacted by

phone or postcard to schedule your screening appointment. Due to increased demand at various times of the year, there may be a delay before screening can take place.

Clinic hours are 9:00 AM to 12:00 PM and 1:00 to 4:00 PM Mon. – Fri.

Patients who do not qualify to participate in our clinical educational program will be notified in writing. We regret that all patients screened cannot be accepted for dental care. Your treatment may be too complex for student dentists and may be best managed by a private dentist.

The fees charged are substantially less than the cost of care from a private dentist and treatment progresses more slowly. The lower fees are offered to compensate for the longer treatment time and more frequent visits. Your estimated fees will be presented to you along with a treatment plan before any substantial treatment is begun; however, payment is required at time of service may become necessary to refer some or all of your treatment to one of our postgraduate or specialized clinics. Fees for treatment by dentists in our advanced clinics are higher than those offered in the student dental clinics (pre-doctoral), because the providers are licensed dentists working either toward a specialized degree or gaining additional experience in a general dentistry setting. You will be informed if all or part of your dental care requires referral to one of those clinics.

**PLEASE NOTE: Although this information is updated on a regular basis it may not reflect recent closings or changes. Please contact the service provider to inquire about dental services and fees.**
