

PIVOT

Placing Individuals in Vital Opportunity Training

The PIVOT Program provides the business community in Western New York with a unique partnership opportunity. PIVOT matches Temporary Assistance clients seeking employment with companies looking to fill existing full time positions. To assist employers, all PIVOT candidates are pre-screened for job compatibility to reduce interviewing and processing time. Additionally, our Comprehensive Employment Division, located at 290 Main Street, coordinates onsite recruiting and job fairs twice each month.

The formula is simple - your company provides vital, job-specific training and Erie County subsidizes 100% of their wages for six months. PIVOT counselors coordinate transportation, child/day care needs and constantly monitor client progress. When the training period concludes, your company retains a new, permanent employee.
