

Western New York Pediatric and Adolescent Coalition

www.wnypac.org

Welcome to the members section of the WNYPAC!

It is our distinct pleasure to be part of a group of people devoted to the wellness of the children of Western New York.

This coalition brings together all facets of service and care providers who are dedicated to:

- increasing immunization rates
- increasing lead testing rates
- quality healthcare initiatives
- public awareness
- community support

It is through our ongoing attention to the needs of the children of Western New York that we have evolved into a driving force that promotes child wellness, immunizations and lead screening.

We welcome new members who wish to champion the cause of child and adolescent wellness.

Your continued diligence and passion for the children of our region will serve as a template for the emergence of other community organizations. Together, we will accomplish great things.
