Ref: Cayuga Creek Proposed Water District

Dear Property Owner:

The Town Board and I realize that the creation of a public water district in your area has been a long and arduous task. All of us on the Town Board appreciate your patience and opinions, as we continue to seek procedures for fair and equitable costs for the district residents.

Since the September meeting, the Board has developed a revised district map plan based on a frontage charge and flat unit charge for properties located in the proposed district. This change has reduced the cost to individual properties than previously proposed. Enclosed for your information is the revised cost estimate based on this new map plan.

While we have been down this road before, it is once again required that the Town surveys the residents of the proposed district in a formal petition process; requesting the formation of public water district based on this revised map plan and cost estimates.

Enclosed is a petition sheet for your property. Only the person(s) whose name(s) is (are) on the property deed are authorized to sign. For properties owned by more than one individual, while not required, we would encourage all deeded owners to sign.

All signatures must be notarized. If you do not have access to a notary, there is one at the Alden Town Hall, please call for an appointment (937-6969 ext. 3). If you are unable to come to the Town Hall, our notary will be happy to come to you. **Upon completing the enclosed petition form please return it to the Alden Town Hall at the above address no later than Friday, November 20, 2020.**

After the petition process is completed, we estimate the district to be completed in approximately eighteen to twenty four months.

Sincerely,

Dean W. Adamski
Supervisor

**Proposed Cayuga Creek Water District Estimated Property Cost Based on Frontage
and Flat Fee**
