

# Help maintain the blood supply.

*Throughout this outbreak, the Red Cross remains dedicated to ensuring the safety and availability of the U.S. blood supply for patients including accident and burn victims, heart surgery and organ transplant patients, and those receiving treatment for leukemia, cancer or sickle cell disease.*

Blood drives are scheduled in all communities and are open to the public. Due to many added precautions, it is safe to donate blood during the COVID 19 pandemic.

\*It is important to make an appointment so we can maintain social distancing practices.

**To make an appointment, go to [redcrossblood.org](https://redcrossblood.org)  
You can find blood drives by zip code.**
