

OPERATION EXPANDED TESTING

Introduction

FEDERALLY FUNDED COVID-19 TESTING

For schools and qualifying organizations

What is Operation Expanded Testing?

Operation Expanded Testing is a program supported and funded through the U.S. Department of Health and Human Services to provide COVID-19 screening testing to K-12 schools and other qualifying organizations at no cost to the school or organization. This program is being run by Affinity Empowering on behalf of Clinical Enterprise Inc., a Eurofins Scientific company.

Participation in this program is simple for schools and organizations while helping them stay safer against the risk of COVID-19.

PARTICIPATION

By participating in this program, schools and organizations will receive:

Flexible testing experiences and the ability to adjust testing plans as needed

Testing at **no cost** to the school for classrooms as well as athletics, after school programs, summer school, and more

Confidence in having a plan to rapidly identify and limit the spread of COVID-19

Easily and **quickly** implemented processes built on industry best practices and informed by years of experience

Timely notifications of test results

A sense of **wellness and security** for parents, teachers, staff, and students

and become prepared to face the year ahead

GETTING STARTED IS SIMPLE

Enrollment

Immediate, real-time access via a user-friendly enrollment platform for easy setup

Program Setup

Affinity professional collaborates with the school to provide a quick to launch and easy-to-run program. We walk you through the setup, launch, and training, with a professional to guide the way

Ready for testing

Affinity provides ongoing program management support every step of the way with regular touchpoints and around the clock support

Why now?

- COVID-19 cases are rising in some parts of the country, especially where vaccination rates remain low.
- Children, who are not eligible for a vaccine until age 12, are increasingly falling victim to the delta variant.
- About 10 percent of children testing positive for coronavirus are requiring hospitalization and some require critical care, including ventilators.
