

Web Based Resources:

Combat Addiction Campaign & Toolkit

The New York State Office of Alcoholism and Substance Abuse Services (OASAS), in partnership with the NY State Education Department (NYSED), has developed an evidence-based repository of age-appropriate educational materials to address drug, alcohol and e-cigarette use by youth. Download-able pamphlets, prevalence statistics, reference guides, curricula, “conversation aids” and other documents are available. The website has a section specific to youth vaping.

Centers for Disease Control and Prevention

The CDC website provides straightforward, factual information about vaping and the science behind the dangers of vaping products. Resources and fact sheets are available for download. Content is most appropriate for teachers and parents.

Stanford Tobacco Prevention Toolkit

This FREE, online curriculum is a theory-based and evidence-informed “educational resource that can be adapted to fit the individual needs of educators and students in all types of settings.” Prepared lessons (50 minute modules) and interactive materials include PowerPoint presentations, supplemental worksheets, and associated classroom activities.

CATCH My Breath Curriculum

CATCH My Breath is a FREE best-practices youth E-cigarette and JUUL prevention program developed by The University of Texas Health Science Center at Houston (UTHealth) School of Public Health. CATCH My Breath utilizes a peer-led teaching approach and meets National and State Health Education Standards. Created for ages 10-18 (5th grade - 12th grade) and can be taught in one or multiple grade levels. The lessons are broken down into 4 lessons that last 30-40 minutes each.

2019 Resource Guide

MISSION:

A collaboration of agencies and community organizations working to reduce the vaping epidemic by providing current evidence-based education and resources for schools, youth and their families.

Serving all eight counties of Western New York.

Programs Available:

- **Vaping Intervention Program:**

A collaborative 60-90 minute program of the WNY Anti-Vaping Coalition for at-risk teens (ages 10-18) and their parent/guardian(s). The program educates participants about the potential dangers and consequences of teenage vaping. Recommendations for the program can be made by any adult who is concerned about a teen's vaping (educator and parent referrals are most common). The program is offered on a monthly basis. Parent/guardian attendance is required.

- **Student Education Program:**

40-minute, classroom style, presentation for grades 5-12 to inform about the potential dangers and consequences of teenage vaping. Topics covered include:

- Impact of cigarette smoking on previous generations
- Similarities between cigarette smoking and vaping
- Intentional marketing of vaping products to teens and young adults
- Health and safety concerns of vaping
- Impact of nicotine on the undeveloped, adolescent brain
- Options for teens who are addicted to vaping

- **Adult Education Program:**

60-minute presentation to inform about essential information regarding the vaping culture that continues to gain popularity with teens. Topics covered include:

- History of the vaping culture in the United States
- Evolution of vaping devices and products on the market
- Health and safety concerns of vaping
- Impact of nicotine on the undeveloped, adolescent brain
- Abuse potential of other substances from vaping devices
- Intentional marketing of vaping products to teens and young adults
- What parents can do if they have concerns for their child regarding vaping

(Program content may vary slightly depending upon presenter)

Member Agencies of the WNY Anti-Vaping Coalition

VISION:

A community educated on the dangers of vaping and other harmful substances with a commitment to fostering a substance free tomorrow.
