## Buffalo River Corridor

### Join us for a Visioning Workshop!

EE

The City of Buffalo Office of Strategic Planning has been awarded three significant Brownfield Opportunity Area grants from the New York State Department of State. This program enables communities to put strategies in place to return dormant or underutilized brownfield sites back to productive use and improve conditions for surrounding neighborhoods while simultaneously restoring environmental quality. A portion of this funding will be used to undertake a Step 2 Nomination Study for the Buffalo River Corridor area. Once completed, this document will help guide the transformation of the City's riverfront and surrounding areas.

The City of Buffalo has retained the expertise of land use, environmental, and economic consultants to conduct the BOA study. Now that the analysis phase is approaching completion, Urban Strategies Inc., the lead consultant, will be hosting a public open house on Wednesday, January 25th.

Building on the first open house, the consultant team will present their initial findings and directions and host a visioning workshop on the future of the Buffalo River Corridor Brownfield Opportunity Area.

Please join us to hear about the work we have done to date, discuss the preliminary directions for the future of the area and participate in a visioning session to let us know what you would like to see happen!

### Findings & Directions for the Future

Public Workshop:

January 26th, 2012 from  
6:00pm to 9:00 pm

Valley Community Center,  
93 Leddy Street
