**RE: Erie County Correctional Facility-Video System Upgrade - Alternates**

Dear Honorable Members:

On January 19, 2012, the Department of Public Works received bid proposals for the Erie County Correctional Facility-Video System Upgrade - Alternates project. Your Honorable Body authorized a contract to Weydman Electrical, Inc. for the base bid contract work on March 29, 2012.

The bid documents contained a number of Alternates, which if all accepted would add additional security and surveillance equipment to the project. At the time of award, there were insufficient funds to complete the work identified by the Alternates. Additional funds are now available. This resolution is requesting authorization to accept the Alternates and authorize the County Executive to issue a contract amendment to Weydman Electrical, Inc.'s contract.

Should your Honorable Body require further information, I encourage you to contact Commissioner John C. Loffredo at the Department of Public Works. Thank you for your consideration on this matter.

Sincerely,

  
Mark C. Poloncarz, Esq.  
Erie County Executive

To: Honorable Members of the Erie County Legislature  
From: Department of Public Works  
Re: Erie County Correctional Facility-Video System Upgrade - Alternates  
Date: December 3, 2012

---

### **SUMMARY**

The bid documents contained a number of Alternates, which if all accepted would add additional security and surveillance equipment to the project. At the time of award, there were insufficient funds to complete the work identified by the Alternates.

This resolution is requesting authorization for the County Executive to issue a Contract Amendment to Weydman Electrical, Inc.'s current contract to accept the Alternates and incorporate this work into the project.

### **FISCAL IMPLICATIONS**

Funds for the project are currently available from the approved, as amended, 2008 County Budget, SAP Project Account – A.000330 – Video Surveillance Upgrade – Correctional Facility

### **REASON FOR RECOMMENDATION**

The upgraded and expansion of the surveillance equipment will improve the visual coverage, and monitoring of the facility. The acceptance of the Alternates will add additional security and surveillance equipment to the project.

### **BACKGROUND INFORMATION**

Video surveillance systems are essential in providing effective monitoring and security to keep the building, employees, visitors and inmates safe. This work will improve the quality of the system, increase facility coverage and increase video storage for a longer period of time.

### **CONSEQUENCES OF NEGATIVE ACTION**

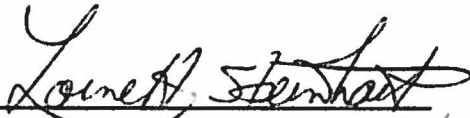

Legal claims arising out of an event may be compromised due to the quality of the video or may be lost altogether due to the limited storage capabilities of the current system.

## **STEPS FOLLOWING APPROVAL**

The County Executive shall enter into an agreement with the lowest responsible bidder so the work can proceed.

## **COMPTROLLER'S OFFICE REVIEW**

The proposed legislation has been reviewed by the Comptroller's Office and is related to an authorized capital project for which there are sufficient appropriations for the action proposed.
