Re: Support for the Donor Conceived Person Protection Act

WHEREAS, medical, educational, and criminal history of a donor provides recipients with important information necessary to make an informed decision during the process for artificial insemination or assisted reproductive technology procedure; and

WHEREAS, the Donor-Conceived Person Protection Act is intended to ensure that reproductive tissue banks, licensed by the Department of Health, collect and verify medical information from any donor it procures reproductive tissues from and disseminates such information to a recipient before they purchase or otherwise receive any such tissue; and

WHEREAS, the Donor-Conceived Person Protection Act also requires that the information collected about the donor be shared with the donor conceived person, when such person turns eighteen years of age or earlier upon consent of the recipient's parent or guardian; and

2021-2022 Regular Sessions

IN SENATE

December 15, 2021

Introduced by Sens. GALLIVAN, BORRELLO, RATH -- read twice and ordered printed, and when printed to be committed to the Committee on Rules -- recommitted to the Committee on Health in accordance with Senate Rule 6, sec. 8 -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the public health law, in relation to establishing the "donor-conceived person protection act"

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. This act shall be known and may be cited as the "donor-con-
2 ceived person protection act".

3 § 2. Legislative findings and intent. The legislature acknowledges
4 the importance of parents and donor-conceived persons knowing the
5 medical history of individuals who have donated reproductive tissue to a
6 reproductive tissue bank for purposes of an artificial insemination or
7 assisted reproductive technology procedure and disseminating this histo-
8 ry information to a recipient and donor-conceived person upon request,
9 if any.

10 The legislature further acknowledges knowing the medical history of a
11 donor will provide recipients with the necessary information to make
12 informed decisions regarding the process of artificial insemination or
13 assisted reproductive technology procedure and for donor-conceived
14 persons to obtain essential medical information, which may reveal any
15 genetic or mental health disorders.

16 The legislature finds that reproductive tissue banks, including semen
17 banks, oocyte donation programs and embryo banks have a duty to collect
18 and verify medical history information provided by donors on donor self-
19 reported medical histories and during the donor screening processes and
20 to keep detailed records of such for use by recipients and donor-con-
21 ceived persons, if any, prior to a procedure and in the future.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

LBD13971-04-2

1 The legislature further finds that the protections currently afforded
2 to reproductive tissue bank donors' medical records be waived and that
3 donors' identify all recent medical professionals on such donor self-re-
4 ported histories and during the donor screening processes, in order to
5 effectuate the provisions of this act.
