About Book “B”

The line-item budgets contained in this separate budget document are organized into four major sections covering all special funds included in the 2013 Proposed Budget.

The first section provides line-item appropriation and revenue detail for the county's 2013 grants, and contains grant budgets for each department. Grants are budgeted in a separate fund, the Grant Fund, which is not a part of the county's operating budget. County share portions of grant budgets are, however, included as interfund expenditures in each department's operating budget.

The grant budget information for each department contained in Book “B” includes a brief description of each grant, as well as line-item appropriation and revenue detail. Personal services information includes historical data similar to that included in the operating budget. Appropriation detail is included only for the 2013 requested, recommended and adopted amounts. Estimated revenues for each grant, listed by account, follow the project's appropriation detail. Revenue detail is included only for the 2013 requested, recommended and adopted amounts for each grant.

The second section covers sewer districts and the Division of Sewerage Management in the county's Sewer Fund. It provides a brief description of each entity's operations and a detailed budget. Appropriation and revenue detail is included for 2011 actual amounts; the 2012 adopted and adjusted budget and the 2013 requested, recommended and adopted amounts.

The Sewer Districts and Sewer Fund are self-supporting and are not a part of the county's operating budget. Interfund expense and revenue is budgeted in General Fund accounts to represent services to the Sewer Districts.

The third section includes the 2013 Proposed Capital Budget and the 2013-2018 Capital Improvement Program. Information provided in this section includes project descriptions, location of projects, total project cost and 2013 capital budget allocations for each project. Also included are detailed schedules for each department showing recommended projects and project expenditures for the six-year capital program period.

The fourth section covers the Debt Service Fund, which is a part of the county's total operating budget. The section begins with explanations of the county's debt management policies and the purposes of the Debt Service Fund, the types of expenditures paid out of the fund, and its sources of revenue. This introduction is followed by schedules showing line-item appropriation and revenue detail. Information is provided for 2011 actual revenues and expenditures; the current year adopted and adjusted budgets, and the 2013 requested, recommended and adopted amounts. Also provided are a statement of the county's bonded indebtedness and a calculation of the county's total net indebtedness.

Book B also includes budget resolutions pertaining to implementation of the 2013 Budget.

DISTRICT ATTORNEY-GRANTS

AID TO PROSECUTION

This project is a continuation of an existing grant for the entitlement period 4/1/13 to 3/31/14. The purpose of this state grant is to provide funding for increased effectiveness in prosecuting serious, violent crimes. Assistant District Attorneys and support staff are assigned to provide specialized, expedient and efficient prosecution of serious, violent and repeat felony offender cases. Studies have shown that a disproportionate number of crimes are committed by a small cohort of "career criminals". Targeting these felons with vigorous prosecution should result in long-term incarceration, which is an effective means of significantly reducing crime.

Investigative resources of the District Attorney's Office and victim assistance are strengthened, and needs/safety assessments and referrals provided. BE-SAFE improves both the prosecutorial and investigative skills by providing training and education. This grant involves collaborating with the Erie County Probation Department, the Family Justice Center of Erie County, Haven House, Hispanics United of Buffalo and the International Institute; who are also recipients of this award money.

COUNTY EXECUTIVE COMMUNITY DEVELOPMENT FUND GRANT

OFFICE OF WORKFORCE DEVELOPMENT

This is a continuation of an existing project for the period 1/1/13 to 12/31/13 to fund activities of the Buffalo and Erie County Workforce Investment Board (WIB). The Office of Workforce Development provides staff support for the WIB and advises the County Executive on workforce development issues. The WIB has the key role of providing direction on local strategic workforce issues, identifying needs, and developing strategies to address those needs. It is responsible for overseeing the Title I program under the Workforce Investment Act, Welfare-to-Work programs. Appointed by the County Executive and the Mayor of Buffalo, the WIB works in partnership with these elected officials to develop the five-year workforce investment plan, select One-Stop Operators and providers of training for workers, coordinate a wide variety of Federal and other employment and training programs, promote private sector involvement in the workforce development system, and coordinate workforce training with local economic development efforts. In its role as overseer of the local workforce development system, the WIB must establish program performance standards in conjunction with the New York State Department of Labor.

All costs associated with the Office of Workforce Development are reimbursed to Erie County from federal funds provided under the Workforce Investment Act.

ENVIRONMENT AND PLANNING COMMUNITY DEVELOPMENT BLOCK GRANT

The following pages contain both the Operations Budget for the administration of the Community Development Block Grant Programs and the estimated Grant Budgets for the three awarded programs. These programs are a continuation of three existing grants from the U.S. Department of Housing and Urban Development for the entitlement period of 04/1/13 to 03/31/14. It is anticipated that federal support for these programs will continue at the following levels:

Community Development Block Grant	
Federal Share	\$2,508,925
Program Income	\$ 430,502
HOME Investment Partnership	
Federal Share	\$ 695,936
Program Income	\$ 100,000
Emergency Solutions Grant	
Federal Share	<u>\$ 239,056</u>
TOTAL	\$3,974,419

A resolution will be presented to the Legislature in February authorizing the Department of Environment and Planning to administer the awarded amounts and execute any and all agreements to implement the programs. The awarded amounts will be accounted for as Funded Programs in SAP.

Program Description

The Department of Environment & Planning, Division of Planning administers the Erie County Community Development Block Grant and HOME Investment Partnership Consortia. These comprise 34 and 37 communities respectively in the County that have entered into formal consortium agreements to receive federal funds. The program provides financial and technical support for community planning, capital improvements, housing rehabilitation, and economic development programs. In 2013, approximately \$3.5 million in federal block grant funds will be allocated to the Consortium.

The Community Development Block Grant is used to assist participating municipalities in the development of locally approved community or economic development activities which are eligible under federal program regulations. It is also used for housing rehabilitation loan programs.

The HOME Investment grant is used to rehabilitate the homes of low and moderate income homeowners. Additionally, non-profit community housing development organizations receive funds to develop, sponsor, or acquire affordable housing projects throughout the Consortium area.

The Emergency Solutions Program funds several non-profit agencies to provide homeless services to participating communities.

These programs serve all cities, towns and villages in the County with the exception of the City of Buffalo, towns of Amherst, Cheektowaga and Tonawanda, and the villages of Kenmore, Sloan, Williamsville and the Cheektowaga portion of Depew.

Program and Service Objectives

- Support an improved quality of life for low and moderate income people.
- Provide County residents with low and moderate incomes with access to affordable, quality housing.
- Secure permanent housing for the homeless and county residents at risk of becoming homeless.

Top Priorities for 2013

- Redevelop the Commercial Center area within the Village of Lancaster through targeted building façade improvements and demolition of blighted structures in the former urban renewal area.

ERIE COUNTY DEPARTMENT OF ENVIRONMENT & PLANNING DIVISION OF SEWERAGE MANAGEMENT

DESCRIPTION

As a part of the Erie County Department of Environment and Planning, the Division of Sewerage Management assists in the coordination, support, and implementation of various programs and projects that improve the quality of life for Erie County residents, businesses, and visitors. The Division of Sewerage Management is an important participant in several Department-wide initiatives, including the "Framework for Regional Growth," the Erie County Water Quality Committee, and Erie County Sewer District Number 6's participation in the Western New York Stormwater Coalition.

The Division of Sewerage Management maintains overall responsibility for the seven Erie County Sewer Districts. The Erie County Sewer Districts are special service districts created pursuant to state and local law.

The Erie County Sewer Districts provide sanitary sewer collection, conveyance and treatment services to communities within their respective boundaries, as may be specified by contracts between each district and/or the local jurisdictions served. Sewer districts are responsible for the construction, operation and maintenance of collector and interceptor sanitary sewer systems, pumping stations, excess flow management facilities and wastewater treatment facilities. In Erie County Sewer District No. 6, the storm sewer system is also included.

The Sewer Districts are governed by Boards of Managers whose members are generally recommended by the involved municipalities and appointed by the County Executive.

The Sewer Districts are self-supporting entities with the power to assess appropriate service fees and levy local sewer charges. Their annual revenues, which are sufficient to cover all operating costs and capital debt service, are derived from a combination of flat rate charges, parcel charges, footage charges, user charges, and sewer charges based on the assessed value of real property.

Sewer District No. 3 also includes a small portion of the Town of West Seneca.

District 3 operates and maintains sewage treatment facilities located in the Town of Hamburg (Southtowns Advanced Wastewater Treatment Facility and its excess flow management facility), the Town of Holland (Holland Wastewater Treatment Plant), and the Village of Blasdell (Blasdell Sewage Treatment Plant). The Southtowns Treatment Facility is staffed 24 hours per day, 365 days per year. The other two treatment plants are staffed Monday through Friday 8:00 a.m. – 4:00 p.m. and monitored at all other times via telemetry systems.

ERIE COUNTY SEWER DISTRICT NO. 4

This District provides collection and conveyance services for portions of the Towns of Alden and Lancaster and conveyance services for the Villages of Depew and Lancaster. Infrastructure includes a network of pumping stations, an excess flow management facility, collector and interceptor sewers which transport sanitary sewage for treatment at the Buffalo Sewer Authority.

ERIE COUNTY SEWER DISTRICT NO. 5

This District provides collection and conveyance services for portions of the Towns of Amherst and Clarence. Infrastructure includes a network of pumping stations and sanitary sewers which transport wastewater to the Town of Amherst for treatment at the Town's treatment facility. This District provides operation and maintenance for the Town of Clarence Sewer Districts by contract. This District also operates one small sewage treatment plant which services the Clarence Research Park area.

ERIE COUNTY SEWER DISTRICT NO. 6

This District operates and maintains the network of sanitary and storm sewers along with several pumping stations in the City of Lackawanna, along with an excess flow management facility and a wastewater treatment facility. The wastewater treatment facility is staffed and operated 24 hours per day, 365 days per year.

ERIE COUNTY SEWER DISTRICT NO. 8

This District serves the Village of East Aurora and portions of the Town of Aurora. Infrastructure includes collector sewers, pumping stations, and an advanced wastewater treatment facility. This treatment facility is staffed Monday through Friday 8:00 a.m. – 4:00 p.m. and monitored at all other times via a telemetry system. Collection system maintenance is handled by a Memorandum of Understanding with Sewer District No. 3 staff.

RATH BUILDING STAFF

The Division, through the staff located at the Rath Building, provides management services related to the administration, operation, design and construction of the sewer facilities. Engineering duties include: compliance with regulatory permits, capital improvements planning, facilities planning, design, information technology, community outreach and education, supervision of construction, inspection, approval of contractor payments, applying for the financing of new projects, accounting, and handling of construction claims. Administrative duties include Division management, accounting, budget development, sewer charge preparations, and Human Resources.

Program and Service Objectives

To provide sewer service to properties in Erie County Sewer Districts, and to construct and operate various County projects economically, efficiently, and in an environmentally sound manner.

Top Priorities for 2013

- Continue to evaluate consolidation studies: sending sewage from Lackawanna to the Buffalo Sewer Authority; various other mergers of service.
- Complete the implementation of the energy efficiency study in Erie County Sewer District No. 2 with assistance from the Green Innovation Grant Program (GIGP) and other energy incentive programs.
- Continue the Division-wide Annual Pipe Repair Term Contract that addresses collection system deficiencies in various locations of the Erie County Sewer Districts primarily through cured-in-place pipe lining.
- Build upon the Division's asset management based program for infrastructure operations and maintenance purposes with greater focus on financial modeling and budgeted impacts.
- Continue population of the sewer system GIS database for use by staff for planning, reporting, and maintenance purposes, including GPS location and quantification of assets.
- Complete the construction of the Pumping Station Elimination Projects in the Village of Hamburg.
- Complete the sewer construction project to eliminate septic systems on Geneva Road in the Town of Aurora.
- Begin construction of the improvements necessary to address the Aurora North Pumping Station.
- Begin construction of the Rush Creek Interceptor Project and the next phase of the Southtowns AWTP upgrades, with assistance through Water Quality Improvement Project grant funding.
- Address recently promulgated sewage sludge incinerator regulations.

- Continue work on the compliance schedules for State Pollutant Discharge Elimination System (SPDES) permits.
- Continue promulgating the Division's comprehensive Capital Improvements Planning (CIP) process as part of its advanced asset management philosophy. The CIP process is integral in the prioritization of the eventual rehabilitation, renewal, replacement and optimization of the sewers, pumping stations, treatment facilities and other Erie County Sewer District assets. As part of the planning procedures, assets are characterized based upon the criticality of an individual facility and a rating of the confidence that performing a capital improvement on a particular asset is "the right project, at the right time for the right cost, and for the right reasons." The CIP process allows for forecasting rate impacts into the future so the Division can proactively budget to minimize the impacts to our ratepayers.
- Continue implementation of a computerized maintenance management system (CMMS) across the Division. This is the primary tool for storing, retrieving, reporting and analyzing maintenance and operations information for the full life cycle of an asset from inception to decommissioning. Using a CMMS reduces costs by tracking preventative maintenance to extend asset life, tracking parts inventories to avoid duplication, and by planning staff work schedules. Aligning the Division's protocols with the use of SAP Plant Maintenance is an on-going process that will continue in 2013.

CAPITAL BUDGET

Introduction to the 2013 Capital Budget

This section of the budget includes the 2013 Capital Budget and 2013-2018 Capital Improvement Program. The Erie County Charter, Article 25, requires the County Executive to submit annually to the Legislature a capital improvement program for the next six-year period. Article 18 of the Erie County Administrative Code establishes procedures for the Budget Director and a Capital Projects Committee to develop a recommended six-year Capital Improvement Program. The capital programming process for most projects normally takes place between May and August, with submission of a recommended Capital Improvement Program to the County Executive required by September.

Capital projects are defined as all physical projects which meet the following criteria: (1) All physical projects of a non-recurring nature, including construction, improvements or renovations to buildings, roads, bridges and parks; (2) Acquisition of equipment which has a useful life of five years or more; or (3) Acquisition of property or planning/engineering studies which will lead to a capital project.

All projects proposed for inclusion in the six-year program are submitted by the sponsoring departments to the Department of Environment and Planning and the Division of Budget and Management, which are responsible for coordinating the development of the capital program. Information concerning cost, project justification, location and suggested programming year is submitted.

Each project is analyzed by the Department of Environment and Planning, Division of Budget and Management and the Capital Projects Committee. The Capital Projects Committee consists of representatives from those county departments and members of the Erie County Legislature as prescribed by the Erie County Administrative Code. A six-year program is prepared which considers project relationships to each other, as well as financial requirements. The program includes an annual Capital Budget which defines those projects recommended for implementation during the coming year.

The Capital Projects Committee submits its recommended Capital Improvement Program and proposed Capital Budget to the County Executive by September for his consideration in preparing the annual County budget.

The Capital Budget is a separate portion of the total County budget for the coming fiscal year. It represents the first-year implementation of projects in the six-year Capital Improvement Program. The Capital Budget is developed separately from the operating budget of the County for several reasons. Capital improvement projects usually involve substantial expenditures which may be required over a period of years.

Capital projects are also different from activities that are funded under the operating budget. Capital projects include physical development projects such as new public buildings, sewers or parks, and road or bridge construction. The operating budget, on the other hand, includes ongoing operating and normal maintenance expenditures.

Development of a six-year Capital Improvement Program is an effective way to plan for future physical improvements and to analyze both the expenditures that will be required to finance these improvements and the potential impacts of the projects at an early stage. It also sets priorities for capital improvements and thus ensures that the most critical needs are met first.

The capital planning process has been enhanced in a number of significant ways. The capital programming strategy considers and balances the County's ability to both complete previously authorized projects and undertake new projects. Financial, as well as operational capabilities are assessed, and capital borrowing targets are established.

In order for projects to be considered for the 2013 Capital Budget, they had to meet one of the following tests:

- **Health and Safety** - Projects which have a direct relationship to reducing hazards to the health and safety of county residents or employees. This is considered to be the highest priority criterion in the review process.
- **Previous Commitment** – Multi-year projects which were authorized in prior years, and which require necessary funding to complete the entire project.
- **Legal or Governmental Mandates** - Projects which the County is required to undertake by law or court order, or under federal or state mandate.
- **Special Considerations** - Projects which do not meet the above tests but which warrant further consideration due to special circumstances, such as the loss of outside funding if the project is not undertaken.

The 2013 Budget contains authorizations for: seven (7) General Projects; seventeen (17) Highway, Bridge and Fleet Projects; one (1) Sheriff Project; five (5) Parks and Recreation Projects; four (4) Health Projects; three (3) Environment and Planning Projects; one (1) Central Police Services Project; one (1) County Clerk Project; one (1) Senior Services Project; one (1) Division of Information and Support Services Project; and four (4) Erie Community College Projects.

Table 1 summarizes projects in the 2013 Capital Budget. It totals \$58,242,882 including State and Federal funded projects. The bonded component is \$38,987,229. This table includes the project title in each project classification, a column showing the county six-year total project cost for the projects programmed in 2013, and a column showing the Capital Budget allocations in 2013. Brief descriptions of these projects follow Table 1.

Following the description of projects included in the 2013 Capital Budget are a series of tables which represent the six-year Capital Improvement Program. The 2013-2018 Capital Improvement Program totals \$249,448,882. It is summarized in Table 2 by department. Schedules which show the six-year Capital Improvement Program projects for each department are provided in Tables 3 through 13.

DEBT SERVICE

Debt Management

The County administration's Fiscal Stability Plan sets forth objectives regarding prudent debt management. This plan articulated policies and initiatives to reduce the County's debt burden and to improve the County's financial position, including the objective to improve the County's credit rating. The underlying ratings of County bonds are "A2" by Moody's, "A" by Fitch, and "A-" from Standard and Poor's. The Standard and Poor's "A-" rating reflects an upgrade received in December 2011. Moody's affirmed the County's rating in September 2012, and Fitch affirmed the rating in July 2012.

The fundamental principles of the County's debt management policy include: restricting long-term borrowing to improvements too large to be financed from current revenues; continuation of good communication with rating agencies; continuation of full disclosure on all financial and official statements; and the use of bonds rather than Bond Anticipation Notes wherever possible to finance capital projects.

It is the County's intention to limit annual capital borrowing, exclusive of sewer fund debt, to assure a reduction in the amount of long-term debt outstanding. This policy is subject to change to take advantage of future opportunities that may develop.

Supplementing the County's debt management policy is the County's Capital Planning process. The Capital Planning process is more fully described in the Capital Budget section of Book B.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for the payment of principal and interest on long-term debt. The Debt Service Fund was established at year-end 1986 to segregate resources for a "Reserve for Bonded Indebtedness" created by the Legislature pursuant to Section 6-h of the General Municipal Law. A Debt Service Fund is required for the legally mandated segregation of resources represented by the reserve. The Debt Service Fund is used only for the accumulation of resources for and payment of General Fund and Sewer Fund debt service.

The types of expenses paid out of the Debt Service Fund are the following:

Bond Principal: When a bond is sold, the County agrees to pay back the amount borrowed over a set period of time. This is called an amortization schedule. It is determined by the "Period of Probable Usefulness" of an item. This time period is set by Local Finance Law. Each bond issue includes a schedule of how much principal will be paid back each year. The annual principal payment expense is paid out of the Debt Service Fund.

Bond Interest: When a bond is sold, it is priced according to market conditions and the credit rating of the County. Typically, these rates change each year and are printed on the cover page of the Bond Official Statement along with the payback schedule. The annual interest expense is paid out of the Debt Service Fund.

Reserves: The County, at its option, can establish a reserve during a year to fund future years' debt service. These reserves must be identified as to what specific debt service they will pay. Local Finance Law restricts the amount of the reserves that can be used in a given year to the amount of the scheduled annual debt service payment. Any excess reserves over this amount must be set aside in the reserve to pay future years' debt service for that project.

Debt service payments on short-term indebtedness are not paid out of the Debt Service Fund. Interest payments on Revenue Anticipation Notes (RAN's), Tax Anticipation Notes (TAN's), and Bond Anticipation Notes (BAN's) are paid directly out of the General Fund. BAN principal payments are made out of the Capital Fund.

The sources of revenue for the Debt Service Fund are the following:

Accrued Interest: Typically, a bond sale is not closed on the same day as the date of sale. For example, the bonds may be dated September 1st and the closing date may be September 5th. During that five day period, the County is responsible to pay

interest to the bond holders. The bond underwriter, therefore, holds the cash for the five days and pays interest to the County equal to the amount of interest expense the County incurs for those five days. This interest income must be restricted for payment of future debt service on the bonds issued.

Interest Earnings: Bonds are typically sold to finance capital projects. A capital project can take from six months to six years or longer to complete. Therefore, the County invests the bond proceeds and draws against the proceeds only as needed to pay bills. The interest generated on the invested bond proceeds is restricted to pay debt service for the specific project for which the bonds were borrowed.

State/Federal Aid: If any aid is received as a reimbursement for debt service incurred by the County, this aid must be restricted for payment of debt service for the specific project for which the aid was received.

Unexpended Bond Proceeds: The amount borrowed for a capital project is an estimate of the cost of the project. If the project is completed for less than the estimate and less than the amount borrowed, these excess bond proceeds may then only be used for the following purposes: if debt service still exists for the project, then the excess bond proceeds must be used and/or reserved to pay this debt service; if no debt service for the project exists, then the excess bond proceeds may either be used to pay other debt service, or to fund other "like" capital projects, or they may revert back to the General Fund.

Subsidies: The difference between debt service to be paid during a year and revenues available from any other sources must be funded. This funding is provided in the form of subsidies from the General Fund, Public Library Fund and the Sewer Fund. The subsidies are provided in the form of interfund transfers to the Debt Service Fund.
