We hereby approve and submit the Child and Family Services Plan for Erie County Department of Social Services and Youth Bureau 2019 Annual Plan Update.

We also attest to our commitment to maintain compliance with the Legal Assurances outlined below.

**Legal Assurances**

All signatures must be included, along with the date(s). The signatures on this page attest to the district’s compliance with assurances A through H (below), which are incorporated by reference into your plan. The legal assurances are statutorily mandated; districts must indicate that they are complying with these standards or must provide a remediation plan if they are not.

**A. General**

1. All providers of service under this plan operate in full conformance with applicable federal, state, and local fire, health, safety and sanitation, and other standards prescribed in law or regulations. Where the county is required to provide licensure for provision of services, agencies providing such services shall be licensed.
2. All recipients of funds are required to operate each program or activity so that, when viewed in its entirety, the program or activity is readily accessible to and usable by persons who are handicapped to the extent required by law.
3. Benefits and services available under the state plan are provided in a non-discriminatory manner as required by Title VI of the Civil Rights Act of 1964 (as amended).
4. The activities covered by this plan serve only those individuals and groups eligible under the provisions of the applicable state and federal statutes.
5. No requirements as to duration of residence or citizenship will be imposed as a condition of the participation in the State’s program for the provision of services.
6. There is in operation a system of fair hearings and grievances under which applicants for or recipients of services and care may appeal denial, exclusion, reduction, termination, or choice of services/care; mandatory nature of service/care; or failure to take timely action upon an application for services/care.
7. Adequate and timely notice is provided to applicants for and recipients of services and care as required by NY 18 NYCRR 407.5(h) (2) (I).
8. Title XX-funded services are available to eligible individuals in every geographic area within the district. Where different services are made available to a specific category of individuals in different geographic areas, services are available to all eligible individuals in that category who reside in that area.
9. Title XX reporting and fiscal systems includes level of care, maintenance, and services provided to children and families and costs of services provided.

**B. Child Protective Services**

1. The district maintains an organizational structure and staffing, policies, and practices that maintains compliance with 18 NYCRR 432.
2. The district has specifically reviewed 18 NYCRR 432.2 (f)(3) and is in compliance with all assurances outlined in those regulations.

**C. Preventive Services for Children**

1. Children and families in need of the core preventive services have these services provided to them in a timely manner. Core services include day care, homemaker, transportation, 24-hour access to emergency services, parent aide or parent training, clinical services, crisis respite care, services for families with AIDS/HIV+, and housing services.
2. The district maintains efforts to coordinate services with service agencies and other public and...
private agencies within the district that provide services to children including the use of referral procedures with these agencies and formal and informal agreements.

3. The district has prepared plans and procedures for providing or arranging for 24-hour access to emergency services for children who are at risk of foster care as specified in 18 NYCRR 423.4. Staff is aware of such plans and procedures.

**D. Youth Development**

1. Where the county receives state funds pursuant to Executive Law 420, the municipality’s youth development program maintains an organizational structure and staffing, policies, and practices that comply with Article 19-A of the Executive Law and 9 NYCRR Subpart 165-1.

2. Executive Law section 420(1)(c) sets forth statutory options for RHYA services in Executive Law 420(2). This information is located in the RHYA/Youth Bureau Administrative Component.

**E. Adult Protective Services**

1. The district has established a process that enables the commissioner to act as a guardian and representative or protective payee on behalf of a client in need of adult protective services (APS) when no one else is available or willing and capable of acting in this capacity.

2. In providing protective services for adults, the district will implement each responsibility contained in 18 NYCRR Part 457.

3. The district attests that following has been established for PSA:
   - Financial management system with written procedures;
   - The roles and responsibilities have been defined and written for the delivery of protective services for adults for the various divisions and offices of the social services district, including accounting, income maintenance, medical assistance, protective services for adults, and all relevant services; and
   - An interagency service delivery network has been developed with other appropriate agencies including, but not limited to, the Office for the Aging, the Department of Health, community mental health services, psychiatric center(s), legal services and appropriate law enforcement agencies.

**F. Domestic Violence Services**

1. Domestic violence victims seeking non-residential services are provided with all needed core services directly from the provider in a timely manner and as otherwise specified in 18 NYCRR Part 462.

2. Non-residential services are provided regardless of the person’s financial eligibility; must provide services in a manner that addresses ethnic composition of the community; must provide services in a manner that addresses needs of victims who are disabled, hearing impaired, or non-English speaking, and must provide services in a safe and confidential location.

**G. Child Care**

The district assures that when providing child care services under the New York State Child Care Block Grant (NYSCCBG), the Social Services Block Grant (Title XX), and other child care services funded with state or federal funds, it is in compliance with all pertinent state and federal laws, regulations, and policies, which include but are not limited to the following:

1. Providing parents or other eligible caretakers with information about the full range of providers eligible for payment with child care subsidy funds.

2. Offering child care certificates to assist parents in accessing care.

3. Informing clients of criteria to consider when selecting a child care provider.

4. Allowing parents or other eligible caretakers to select any legal, eligible child care provider (districts may disapprove providers chosen by families with a preventive or protective case under certain circumstances).

5. Establishing at least one method of paying for child care provided by caregivers who do not have a contract with the county.

6. Determining that legally exempt child care providers are operating in compliance with any additional state-approved local standards.

7. Giving priority for child care subsidies to children of families with very low income, to families
that have children with special needs, and to families experiencing homelessness.

8. Guaranteeing child care services to families that have applied for or are in receipt of public assistance when such services are needed for children under 13 years of age in order to enable custodial parents or caretaker relatives to participate in activities required by a social services official including orientation, assessment, or work activities as defined in 18 NYCRR Part 385.

9. Guaranteeing child care services to families who are in receipt of public assistance when such services are needed for children under 13 years of age in order to enable the parents or caretaker relatives to engage in work as defined by the social services district.

10. Guaranteeing child care services to applicants for or recipients of public assistance who are employed and would otherwise be financially eligible for public assistance benefits that choose to receive child care subsidies for children under 13 years of age in lieu of public assistance benefits for such period of time as the applicants/recipients continue to be financially eligible for public assistance.

11. Guaranteeing child care services to families transitioning from public assistance whose cases have been closed or who voluntarily close their public assistance cases, and who are no longer financially eligible for public assistance due to an increase in earned income or child support. The family must include an eligible child under the age of 13 who needs child care in order for the parent to be engaged in work, and the family’s gross income must be at or below 200 percent of the state income standard. For transitional child care, the eligibility period begins with the first month in which a family becomes ineligible for public assistance or “child care in lieu of public assistance” and is limited to 12 months in duration.

12. Informing recipients of public assistance and former public assistance recipients of the child care guarantees for eligible families.

13. Informing families in receipt of public assistance of their responsibility to locate child care.

14. Informing families in receipt of public assistance of the criteria the district will use to determine that a family has demonstrated an inability to obtain needed child care because of the following reasons:
   - Unavailability of appropriate child care within a reasonable distance from the individual’s home or work site;
   - Unavailability or unsuitability of informal child care by a relative or under other arrangements; or
   - Appropriate and affordable regulated child care arrangements.

15. Offering two choices of legal child care, at least one of which must be a licensed or registered provider, to recipients of public assistance who have requested assistance in locating child care for a required work activity and who have demonstrated an inability to obtain care.

16. Informing recipients of public assistance that their public assistance benefits cannot be reduced or terminated when they demonstrate that they are unable to work due to the lack of available child care for a child under the age of 13.

17. Advising recipients of public assistance that the time during which they are exempted from their required activity due to the lack of available child care will still count toward the families’ time limit on public assistance.

18. Providing payment for the actual cost of care (rate charged by the provider to non-subsidized families unless a lower payment rate has been established in a negotiated contract) up to the applicable market rate.

19. Allocating NYSCCBG subsidy funds in a manner that provides eligible families equitable access to child care assistance funds.

20. Providing child care to families who are eligible, as long as funds are available, and to other families that are eligible if funds are available and if the social services district has listed such families as eligible in the Child and Family Services Plan (CFSP).

21. Not requiring a contract with child care providers as a condition for payment when providing child care subsidies under the NYSCCBG. The district provides parents or other eligible caretakers the option to either enroll the child with an eligible provider who has a contract with the district or to receive a child care certificate to arrange child care services with any eligible provider.

22. Obtaining approval from the New York State Office of Children and Family Services (OCFS) as part of the district’s CFSP before imposing any additional requirements on child care providers that serve subsidized children.

H. Staffing
Organizational Chart requirements will be met by the social services district's assurance that the organizational chart submitted to the Bureau of Financial Operations for the Random Moment Survey process is current.

The Preventive Services Planning requirements will be met by the social services district's assurance that names and addresses of agencies providing purchased preventive services entered into the CONNECTIONS system or the Benefits Issuance and Control System (BICS) is current.

☑️ I attest to our commitment to maintain compliance with these legal assurances.

**Commissioner County Department of Social Services**

Public Hearing Requirements

No updates required in Annual Plan Update years

The law requires that at least one public hearing must be held during the development of and prior to the submission of the plan. Such public hearing(s) shall be held only after at least a 15-day notice is provided in a newspaper of general circulation in the district. Such notice must specifically identify the times during the public hearing when child protective services, adult services, and family and children’s services components of the plan are to be considered.

One goal of the public hearing is to inform the community of the services available in the district and how they can be accessed. The public hearing also allows the public to raise issues and offer ways to improve delivery and provision of services in the district. Comments and issues raised at the hearing must be incorporated into the planning process if they are deemed to be valid. Implementing strategies that provide for meaningful public input can help to enhance the local planning process. The plan should not be completed prior to the public hearing and should be considered a draft until after the public hearing.

The plan is not to be submitted until 15 days after the public hearing.

Complete the form below to provide information on the required elements of the public hearing.

Date Public Hearing held:
2018-03-27
(at least 15 days prior to submittal of Plan)

Date Public Notice published:
2018-03-07
(at least 15 days in advance of Public Hearing)

Name of Newspaper:
The Challenger and the Amherst Bee

Number of Attendees:
0

Topics and Comments Addressed at Hearing:

No updates required in Annual Plan Update years

Please upload a copy of your signed MOU to this system or include a narrative summary of the cooperative procedures to be followed by both parties in the investigation of incidents of child abuse and maltreatment, consistent with their respective obligations for the investigation or prosecution of such incidents, or as otherwise required by law.

- A copy of our MOU has been uploaded to the system
- A narrative summary of our MOU is below and a copy of the signed MOU is on file with OCFS

If providing a narrative summary, please enter it here:

Attached is an interagency agreement that outlines the DA’s Office and ECDSS roles, duties and collaborations.
County Overview

If the district has one, please enter the district’s mission or vision.

The Vision of the Department of Social Services is a community where children, adults and families are healthy and safe and enjoy a quality of life. As a responsive and efficient organization, we seek to continually engage the community in defining the role of Social Services. We strive to always meet our Core Values of Integrity, Respect, Quality Customer Service, Collaboration and Diversity.

Describe the district's demographic, economic, and social characteristics.

Erie County is the largest county outside of the New York City area, with a population of approximately 922,129 and a 14.7% county poverty rate. 22.1% of children under the age of 18 and 8.5% of senior citizens ages 65 and older are living in poverty. The racial makeup of Erie County is 82.1% White alone, 13.0% Black alone; with the remaining 4.9% covered by two or more races or other populations.

Describe the district's successes and achievements in the last five years.

Erie County Department of Social Services (ECDSS) collaborated since 2015 with University at Buffalo Masters of Social Work to offer internships for graduate students. The students were trained on ECDSS programs and services and assist community members throughout Erie County with questions about ECDSS benefits and services, with special attention to those who experienced transportation and technology obstacles. In addition to assisting individuals in community settings, many of the interns are paired with workers from the Child Protective Service division to shadow and observe.

Erie County Department of Social Services administered the 2018 Summer Youth Employment Program (SYEP) in collaboration with community partners, Buffalo Urban League and Catholic Charities who acted as the program operators connecting the youth with a worksite to provide them with a meaningful work experience over the summer. 740 youth age 14-20 participated in the 8 week program at 125 worksites throughout Erie County. All youth who participated in the program received financial literacy learning on personal finance and to augment the work component, educational activities were offered to better prepare youth as they continue their education and transition to work. The SYEP concentrated its efforts to help high need youth such as youth in foster care, homeless/runaway youth and youth with disabilities.

Erie County Department of Social Services continued its partnership with Society for the Advancement of Construction-Related Arts (SACRA). This partnership provides the opportunity for DSS clients to attend a program that teaches skills in craftsmanship and construction. Since the program inception in September 2017, 37 DSS recipients enrolled in the program, of which 86% successfully completed the program and 78% obtained employment in Construction or Advanced Manufacturing positions as businesses are committed to interview and hire candidates from the SACRA training program.

To increase awareness of the importance of early childhood development, partnered with 2-1-1/Help Me Grow WNY to offer additional support and services to our families with children from birth through 6 years of age. A representative from the agency is on site to provide child development information and connect families with community resources. Help Me Grow WNY is a FREE resource connecting families to community resources and child development information and offers the following services: Information on general child development and parenting topics; Referrals to community resources, such as early intervention agencies, family therapy, literacy support, mentoring and tutoring programs, parenting classes, recreational opportunities; Care coordination to ensure that families successfully connect with suggested resources; Developmental questionnaires: the Ages and Stages Questionnaire (ASQ), for children ages 0-72 months; Partnerships with service providers, child care centers, pre-Kindergarten programs and child health providers. This partnership has increased the awareness of the families interacting with DSS, Erie County-contracted child care providers and ECDSS employees about resources available through 2-1-1/Help Me Grow and how to use them to improve family
stability and improve developmental progress of children.

The Erie County Department of Social Services met monthly with Child Care Resource Network (CCRN), CSEA/Voice and day care providers to continue collaborative efforts, facilitate communication, share information, and support efforts of child care program stakeholders for funding and quality child care. These meetings enabled us to evaluate and respond to community needs in order to increase our impact on children and families.

Describe the financing for the district's services. Include general information about the types if funds used (e.g. federal, State, local, TANF, or innovative funding approaches). Include new uses of TANF or Flexible Funds for Family Services for program services. Include any innovative approaches to funding or new uses of funds to support the service delivery system.

The County initially pays for most expenses related to Social Services programming including child welfare services, public assistance and administration. The big exception is the payment of Medicaid, as the State pays medical providers directly for most medical services. The local share for those medical expenses is paid by counties through a weekly wire transfer of 100 percent county funds to the State’s Medicaid bank account.

Each month, the County submits complete expenditure summary information on a set of forms housed in the Automated Claims System. These claim forms are submitted by the County to the State to obtain Federal and State reimbursement. The rules and procedures for claim filing are prescribed by the State. The State in turn submits quarterly reports to the Federal government to obtain Federal funding.

The County does not participate in the claim filing with the Federal government.

Counties receive both Federal and State funds from the State as advances for certain programs that are subsequently reconciled through monthly settlement of Federal and State share claims. This settlement process is generally subject to a three-month delay. This delay makes the State Fiscal Year (April 1 - March 30) correspond with the County Fiscal Year (January 1 - December 31).

Some programs receive partial Federal reimbursement dependent upon the eligibility of individual clients for Federal funding. That eligibility is, in some cases, dependent upon family income as a percent (such as 200%) of the Federal Poverty Level. In other cases, that eligibility is without regard to family income, but instead is dependent upon family circumstances or individual behavior (like domestic violence or substance abuse).

Some programs are fully reimbursed by the Federal government through Temporary Assistance to Needy Families Block Grant (TANF), the Social Services Block Grant (Title XX) or the Child Care Development Block Grant, subject to the limits of allocation ceilings. Other allocations include the Foster Care Block Grant, the Independent Living Allocation, a Training Cap, Food Stamps Education and Training and a Domestic Violence allocation. State Legislation defines the rules and framework of reimbursement within broader federal requirements for each of these special allocations.

The claiming and settlement process has changed from years ago when there was a more simplified reimbursement process based on fixed percentages of expenditure. The use of more complicated funding mechanisms has increased in recent years as the State has used the flexibility of TANF funding to finance a broad array of services to clients and families. Relative shares, reimbursable from State, Federal and Local funds has changed substantially over time.

A Maintenance of Effort (MOE) requirement is set forth in the TANF Block grant.

The MOE requires that the State maintain current Federal Fiscal Year (FFY) spending at 75% of historic non-Federal (i.e. State and Local combined) shares levels. If MOE is not achieved on a statewide basis, the State is subject to a number of block grant reduction actions and penalties as prescribed in Federal law.

The State has devised innovation claim strategies that increase local and State spending for certain services which qualify for MOE (like public assistance), while using Federal funding for those services.
which do meet TANF goals but do not qualify for MOE expenses, such as diversion and supportive services to juvenile delinquents and persons in need of supervision (JD and PINS).

The funding process is dynamic and ever changing. It is a challenge to work within this process to meet the needs of Erie County's most vulnerable children, adults, and families.

If purchase of service agreements are used, describe the criteria and procedures used by the district for selecting providers for all child welfare, adult protective, and non-residential domestic violence purchase of services (e.g. RFP process, news releases on availability of funds, sister agencies panel).

RFPs are developed for program areas and released to the public by means of the County's website, local newspapers and e-mail distribution. Erie County conducts targeted outreach to address special needs, such as specific service contracts to address the disproportionate removal of children in certain communities. Upon release of the RFP an informational briefing may be held to allow interested agencies the opportunity to ask questions and become better acquainted with the requirements. Proposals are reviewed and scored by a review committee. Agency Annual Performance Reviews sheets are developed by program staff and given to the review committee, giving a summary of the agency program's past performance. Prospective agencies may then be asked to partake in a brief interview with the review committee. The proposer has the opportunity to further discuss their program and the review committee is given the opportunity to clarify any questions that may have come about during the proposal's review. The review committee takes into account the written proposal, past performance and interview when scoring the proposals. The review committee submits its recommendations to the Commissioner. Funds are distributed based on performance criteria and targets reached in the specific area. Once approved by DSS and the County Executive, the recommendations are presented to the Erie County Legislature for final approval.

The Erie County Youth Bureau release Request for Proposals for eligible not-for-profit 501(c)(3) organizations and Municipal Town and Village Governments to provide Youth Development Program (YDP), Runaway and Homeless Youth ACT (RHYA), and Supervision and Treatment Services for Juveniles Program (STSJP) on an annual or bi-annual basis. Organizations must provide services to at-risk youth ages 5-21, and provide outcome based positive youth development and juvenile delinquency prevention strategies. Due to the limited amount of funding available, programs providing services to at risk youth in the following categories are prioritized for consideration: School Based Positive Youth Development Programs, After School Community Based Positive Youth Development Programs; this includes programs run by a specific agency with programming offered at various sites, Mentoring Programs, Juvenile Diversion Programs, Runaway and Homeless Youth Programs, Youth Employment Programs.

Describe procedures that will be used to ensure that the services being purchased are effective in meeting the outcomes as outlined in the contract and your plan. Include the frequency of monitoring, tools that will be used, and who will be involved.

At the onset of a contracts, establishment agencies are required to provide the district with the following:

1) Documentation of Insurance, not for profit status, a list of current Board members and an organizational flow chart;
2) Job descriptions, qualifications and resumes for all positions funded through the contract;
3) A copy of the agency's last independent fiscal audit;
4) Delineation of all Direct Program Expenditures, Administrative Expenditures and Overhead costs;
5) A listing of the amounts of all other county and other government and private funding streams;
6) A detailed program narrative that describes measurable outcomes; and
7) Reporting matrixes required for quarterly reporting.
Contract providers are required to submit quarterly reports which document the number of families served, service units of service delivered and the amount of time spent in various methods of services provision. Quarterly reports are analyzed within the division by category (such as Preventive Services, Foster Care, Domestic Violence, Visitation) for utilization trends.

A Contract Monitor, Contract liaisons and a Contract Compliance Team monitor services, reporting requirements and providers’ fiscal records to ensure accurate record keeping and service delivery.

On-site audits are conducted by ECDSS staff. Program audits include a review of selected case records, agency policies and procedures, and interviews with selected casework and administrative staff. Financial records are reviewed as well. Random audits of other programs are scheduled for quality assurance purposes. Finally, untoward events, such as a fatality, or a formal complaint filed by agency staff or clients, or fiscal concerns may trigger an agency audit. Corrective Action or Recovery of funds ensues depending upon the nature of any material findings.

All programs funded by the ECYB are monitored annually to ensure youth are receiving the highest level of quality programming available. These unannounced onsite monitoring visits are completed by the Program Planning Coordinator, the Director of the ECYB, and members of the Youth Board.

Basic field monitoring is a periodic, brief and structured field visit (announced or unannounced) whose purpose is to review ongoing operations and the status of activities at intervals over the course of the contract period. This type of monitoring allows the monitor to become familiar with the operations, make casual observations and generally verify that everything is in order. During the onsite visit, the Program Planning Coordinator observes the program by observing the activities being performed by the program participants, reviewing the schedule submitted with the contract, speaking with youth participants, reviewing documents related to monitoring, and gaining other information pertinent to the compliance of the contract. The visit may be an opportunity for the monitor to offer encouragement, identify or resolve minor problems, provide technical assistance, meet with staff, clients, or community members. The Erie County Youth Board is updated on all agencies monitoring at their monthly meetings. Each program funded by the Erie County Youth Bureau is monitored at least once during the contract period. Agencies that are found to not be meeting all of their program description components are given a corrective action plan and are monitored more than once, until compliance is achieved.

In addition to the onsite monitoring, a Performance Accountability process for each Erie County funded agency is closely monitored. Agencies are trained in “Performance Accountability” to measure the work they do quantitatively to provide programmatic outcomes/data. The Erie County Youth Bureau is concerned about the well-being of the youth population in Erie County, and how funded programs and agencies are serving them. Performance Accountability looks at how well a program or agency is working on three levels:

1) How much did we do?
2) How well did we do it?
3) Is anyone better off? = Program/Agency Outcomes

These performance measures are based on the NYS OCFS Youth Development Touchstones and are each tied to individual and specific service types which fall within the Touchstones frame work. The Youth Bureau is regularly assessing its ability to collect relevant information and data around program outcomes and quality. New performance measures and reporting requirements are introduced as necessary and appropriate.

ECDSS has a "Contract Compliance" unit under the Division of Legal Affairs. This division works with the Program Areas to coordinate contracts for purchased services.

Some program areas (such as Child Welfare) have a Contract Monitor who collects data from Purchase of Service agencies, generating reports to Administration.

The Program Support Unit is responsible for drafting RFPs and establishing outcome measures for purchased services, with assistance from Program staff. The Program Support Unit also collects quarterly reports and data from the Non-Residential Domestic Violence service providers and generates
reports to Senior Staff to assist with planning initiatives.

Describe any existing situations where child protective services information is shared with service providers or coordinators of services and the agreements whereby such disclosure of Child Protective Services information is allowed. Disclosure of Child Protective Services information with providers or coordinators of services is unlawful unless the county documents herein any such existing agreements (SSL 422(4)(A)(o)).

Erie County Department of Social Services does not disclose child protective information with service providers or coordinators of services except as described in SSL 422(4). Agencies that contract with Erie County to provide preventive, foster care or adoptive services are provided the information that is necessary to develop a service plan, provide care and supervision of a child named in a State Central Registry report as outlined in SSL, NYCRR, and the Child Protective Manual.

**Relationship Between County Outcomes and Title IV-B Federal Goals**

Each district seeks to improve outcomes that support the achievement of the Federal Safety, Permanency and Well-Being goals. The outcomes, identified in the New York State Child Welfare Practice Model, are listed below and the strategies to reach these outcomes are located throughout this county’s Child and Family Services Plan.

- Through effective intervention, parent, caregivers, and families improve their ability to develop and maintain a safe, stable environment for themselves and their children.
- Children are safely maintained in their own home, families and communities with connections, culture and relationships preserved.
- When it is necessary to place children in out-of-home care, it is a safe, short and stable experience concluding with permanent attachments to caring adults.
- Parents and caregivers have the capacity to provide for their children’s needs. Children are cared for in safe, permanent, and nurturing environments that meet their needs and develop their physical, cognitive, behavioral/emotional and social functioning. As youth transition to adulthood, they benefit from services that promote health development, academic success and/or self-sustainability and safe living conditions.
- Organizations are diverse, flexible, professionally and culturally competent and use child-centered, family-focused practice, and demonstrate partnership at all levels.
Safety / Prevention Plan Update

1. What strategies did you plan to implement in your 2017–2018 County Plan for Safety/Prevention?

The strategies can be copied directly from the previous year’s plan.

- Implement an evidence based model for Preventive Services (Kinship, Traditional and Intensive services) to address not having families come back through the CPS system.
- Increase communication with sources and mandated reporters to understand safety plans and minimum degree of care.

2. Did you do what you planned?

Were you able to implement your strategies as designed, or did you change your implementation? If you changed it, or tried something completely different, please explain.

ECDSS continues to develop its evidence based model for Preventive Services. We are in the process of rolling out new policies and procedures to providers and community referral sources. The transition has already begun but has been a planful process of engaging various stakeholders to ensure proper implementation occurs. In addition, CPS has conducted various presentations within the community with mandated reporters to increase their knowledge of ECDSS services and CPS standards in general. ECDSS continues to develop partnerships within the community to enhance the community stakeholders trust and understanding of the continuum of care in child welfare.

3. What did you anticipate would happen as a direct result of implementing your strategies as you planned?

Although lowering the recurrence rate is the ultimate end outcome, we are looking for the change that will happen as a result of the implementation of your strategies. For example, if one of your strategies is to revise your service referral process, the intermediate outcome would be that more families were referred to services more quickly. This would eventually result in a lower recurrence rate.

Once the policies and procedures are fully implemented for an evidence based preventive service program, families will receive more timely services, they will receive voice and choice in service provision, and services will be more effective as families will be more engaged in the process. In addition, critical incidents within families once services are in place will be less frequent thus decreasing risk and increasing families success in the community (this includes recurrence of maltreatment). The length of service provision will decrease substantially as services will be provided in a more consistent and meaningful way.

4. Did the strategies have the anticipated impact? Yes or no, please describe.

Note: Throughout the year, OCFS sent a list of children who had at least one indicated report and
therefore, were candidates for recurrence. Our intent was for counties to track the children who participated in the strategies and see if the desired impact was attained. Provide data you have collected to verify that your strategies did or did not have the desired impact.

As the programming is not fully implemented this is difficult to track. Going forward this will become more accurately available.

5. **What strategies do you plan to do in the coming year to impact your outcome?**

Think about your year one strategies: What worked? What didn’t work? And how will you modify, tweak, or completely change the strategies or implementation of the strategies in year two? Please describe your changes.

ECDSS will continue to work with our county and community partners on rolling out the evidence based preventive services. ECDSS will continue to share information with the community about how to access services and will monitor the success or improvement opportunities of services offered.

ECDSS will continue to strengthen its partnerships with community service providers, especially mandated reporters to ensure a more comprehensive understanding of the Child Welfare continuum of care.

6. **What OCFS theme do your strategies most align with?**

This may be the same theme you had last year, or a different theme based on revised strategies. Knowing your theme will assist OCFS with providing technical assistance and facilitating shared learning opportunities for counties.

- Improve the quality of CPS investigations
- Improve the Quality of Risk Assessments
- Develop informed decision-making to identify appropriate service to meet families’ needs
- Expand the service array to meet families’ needs
- Streamline the process of referring a family to community-based services
- Streamline the process of transferring cases from CPS to Preventive services
- Engage informal community & family supports as resources to families to reduce the risk of recurrence of abuse/maltreatment
- Develop services, skills, and knowledge around addressing the DV risk factor

If you are working on more than one theme, please enter the additional themes below:

Streamline process of referring a family to community-based services.

Engage informal community & family supports as resources to families to reduce the risk of recurrence of abuse/maltreatment.
Planning Team and Technical Assistance

Is your planning team still meeting? If yes, how frequently and what stakeholders attend?

The planning team is meeting through the development groups for the evidence based preventive services program. There are various workgroups through this, some meet as often as weekly and others monthly. Some stakeholders attend all meetings and others are less frequent and may be involved in quarterly discussions that would not occur as often as some others.

Describe technical assistance or training, if any, requested by the district to implement this plan. Please be as specific as possible.

Continued offerings of Connections training, including FASP training, navigation, training around continued documentation of progress notes around safety and risk, candidacy clarification for ongoing case documentation. Family Engagement best practices and strategies need to be trained and coached throughout the workforce both internally and with contract providers. Development of critical thinking in contract providers around ongoing assessment of safety and risk. Training around the engagement of fathers and identification of other family members and support for families. Support around best practices in holding family meetings, rapid meetings trainings and coaching assistance. Training and assistance around data cleanup and consolidation. Training and technical assistance around cultural sensitivity, implicit bias, inclusion, SOGIE/LGBTQ, and best practice with refugee and other diverse populations. Training around early exploration of resources for families, family supports, engagement of fathers, communication skills with difficult populations etc. Technical assistance is needed in monitoring progress and implementing quality assurance for county plan and consolidated PIP items. In addition, technical assistance/monitoring and coaching are the most helpful ways to ensure that the knowledge from trainings in being transferred to the workforce.
Permanency / Prevention

Permanency / Prevention Plan Update

Permanency Indicator chosen in the 2018–2023 Plan:

- Permanency Indicator 1
- Permanency Indicator 2
- Permanency Indicator 3
- Permanency Indicator 4

1. What strategies did you plan to implement in your 2017–2018 County Plan for Permanency/Prevention?

The strategies can be copied directly from the previous year’s plan.

- Continue to develop and enhance our Kinship placements and services provided to kinship providers.
- Adopt an evidence based model to deliver preventive services.
- Rapid Permanency Reviews
- Permanency round Tables
- Family Group Conferencing
- Cluster trainings and increased external trainings

2. Did you do what you planned?

Were you able to implement your strategies as designed, or did you change your implementation? If you changed it, or tried something completely different, please explain.

Yes, many of the strategies were utilized as planned or planning for enhanced use of strategies occurred.

3. What did you anticipate would happen as a direct result of implementing your strategies as planned?

Although increasing the permanency rate is the ultimate end outcome, we are looking for the change that will happen as a result of the implementation of your strategies. For example, if one of your strategies is to change your business process related to adoptions, the intermediate outcome would be more children will have completed adoptions in shorter amounts of time. This would eventually result in a higher permanency rate.
Barriers were identified through the processes put in place and business processes were looked at more critically in order to hold all stakeholders more accountable to meeting the permanency needs of children in foster care. Staff and supervisors became more educated about permanency options and how to best implement them. Possible permanency resources are identified at early stages in cases so that if risk cannot be mitigated there is options for children to remain with kin or kinlike resources and closer to their communities and culture.

4. Did the strategies have the anticipated impact? Yes or no, please describe.

In April 2018, OCFS sent a list of children who entered foster care in 2017, and those who were in care as of December 31, 2017. Throughout the year, this file was updated to include discharge dates and reasons. Our intent was for counties to track the children who participated in the strategies and see if the desired impact was attained. Provide data you have collected to verify that your strategies did or did not have the desired impact.

Since so few children fit the Permanency Indicator for P4, this was difficult to get data. ECDSS instead will begin working towards the Permanency Indicator for P2 as this is an area in need of continued improvement that can be enhanced by many of the same strategies that were being utilized to make gains in P4. ECDSS is committed to the overall successful permanency for all youth that enter care. More closely monitoring P2 will allow us to continue initiatives that have begun but will have a greater impact on all of the permanency outcomes.

5. What strategies do you plan to do in the coming year to impact your outcome?

Think about your year one strategies: What worked? What didn’t work? And how will you modify, tweak, or completely change the strategies or implementation of the strategies in year two? Please describe your changes.

- Continue to develop and enhance our Kinship placements and services provided to kinship providers.
  - ECDSS will continue to enhance its kinship policy, procedures and business practices. Information provided to kinship providers was recently updated and our homefinding and children’s services departments continue to work on ways to ensure that kinship providers are receiving the necessary supports to be successful.
- Adopt an evidence based model to deliver preventive services.
  - This will provide enhanced service provision to the birth family and the kinship providers in order to prevent placement or expedite successful reunification.
- Rapid Permanency Reviews
  - RPR’s began in EC in the summer of 2017 focusing on children freed for adoption and has led to increased timeliness to permanency for children. EC will be using RPR’s for children not yet freed to identify and eliminate barriers to children not yet freed for adoption so that permanency is achieved sooner.
- Permanency Round Tables
  - PRT’s will continue to be used and expanded to bring stakeholders together to identify resources for children and young adults in foster care.
- Family Group Conferencing
  - FGC was expanded for this fiscal year to accommodate more families in identifying their own natural resources and creating plans that will assist them in achieving their goals sooner. It is our hope that OCFS will expand the FGC model to include the Rapid Meetings.
• Cluster trainings and increased external trainings

  • Cluster trainings are internal trainings provided by an internal expert in a particular skill or practice, in the past these were offered to trainees. We have expanded the offerings for any staff that either their supervisor or themselves feel they need to sharpen a skill. In addition, EC has partnered with OCFS and other external stakeholders to provide ongoing trainings and professional development to enhance the tools our workforce has to work with our complex family and communities. EC has invested in creating conference space that will be fully operational in the second half of the year.

  • ECDSS and Family court have engaged in more comprehensive discussions related to permanency and systems communication through the court improvement process that will also impact our continued improvements towards permanency.

6. What OCFS Theme are your strategies most aligned with?

This may be the same theme you had last year, or a different theme based on a revised strategies. Knowing your theme will assist OCFS with providing technical assistance and facilitating shared learning opportunities for counties.

- Improve Foster Care Discharge Planning when discharge is imminent
- Improve the connection of JD/PINS youth to effective services
- Improve the use of relatives as a placement and permanency (KinGAP) resource.
- Increase engagement with family & community supports
- Improve the quality and regularity of case collaborations among stakeholders to improve timely permanency
- Streamline the TPR and/or adoption process
- Streamline the process for transferring cases from CPS to Foster Care/Permanency units
- Give youth a stronger voice in the permanency planning process

If you are working on more than one theme, please enter the additional themes below:

Planning Team and Technical Assistance

Is your planning team still meeting? If yes, how frequently and what stakeholders attend?

Yes, since there are several strategies being utilized some stakeholders attend some or all of the strategy meetings. Some workgroups meet monthly and others meet quarterly depending on their role.

Describe technical assistance or training, if any, requested by the district to implement this plan. Please be as specific as possible.

ECDSS needs ongoing technical assistance around efficient utilization of the data and communication

Erie County: Permanency / Prevention
Page 3
with casework staff of how to implement strategies to improve outcomes. Trainings that ECDSS and contract providers would like offered on an ongoing basis include but are not limited to, father engagement, KinGap, cultural competency, implicit bias, SOGIE/LGBTQ, inclusive practice, mobility mapping, concurrent planning, family and community engagement, permanency options for older youth, caseworker roles in RPR, when to call for a PRT, Family Group Conferencing (include Rapid Meetings protocols), transition planning (additional info on beginning this earlier than regulatory requirements), working with Kin, comprehensive case management, trainings that enhance case management skills, safety/risk/ongoing assessments, developmental milestones, trauma impact on families, domestic violence indicators and impact, poverty impacts, navigating school systems, critical decision making, crucial conversations, building supervisory capacity, developing service plans with reasonable goals, legal aspects and procedures, ADM/INF/LCM practice impact trainings etc.

In addition to trainings, ECDSS staff and contract agencies would benefit from follow up coaching. Ways to check in on how the skills trained are being implemented or barriers to using the skills etc.
Youth and Young Adult Plan Update

OCFS encourages county teams to review last year’s Youth and Young Adult section through a positive youth development lens. Please use the Touchstone Goals below when reviewing or creating new strategies for the coming year. OCFS seeks to promote positive youth development through quality, multifaceted programming that helps youths learn, thrive, and develop to their fullest potential.

Youth and Young Adult Indicators chosen in the 2018–2023 Plan:

- Healthy Development: Teen Pregnancy Rate
- Healthy Development: Dependence or Abuse of Illicit Drugs or Alcohol (Ages 12+)
- Healthy Development: Needing But Not Receiving Treatment for Alcohol Use (Ages 12+)
- Healthy Development: Serious Mental Illness (Ages 18+)
- Healthy Development: Serious Thoughts of Suicide (Ages 18+)
- Healthy Development: Major Depressive Episodes (Ages 18+)
- Healthy Development: Other
- Academic Success: Graduation Rate
- Academic Success: Other
- Self-Sustainability: Youth Aged 18–24 Who Have Public Health Insurance
- Self-Sustainability: Households Headed By a Person <25 Years Old Which Are In Poverty
- Self-Sustainability: Other
- Safe Living Conditions (Counties who choose this indicator must inform with locally collected data as needed)
- Other (Counties who choose this indicator must inform with locally collected data as needed)

Touchstones

The Commissioners and Directors of New York State’s health, education, and human services agencies recognized that a new model characterized by prevention, early intervention and family/youth involvement was necessary to improve outcomes in the areas for which they had responsibility.

The agencies embarked on an effort to develop a common set of measurable goals and objectives that lead to improved outcomes for children and families. From these actions, the Council on Children and Families and its 12 member agencies developed the New York State Touchstones. These touchstones are a common set of goals and objectives that cut across all service systems. They allow individuals and organizations with diverse missions to work together to improve conditions for children and families.

The Touchstones framework is organized by six major life areas:
Economic Security  
Physical and Emotional Health  
Education  
Citizenship  
Family  
Community

Each life area has a set of goals and objectives representing expectations about the future and a set of indicators reflecting the status of children and families. These goals and objectives are integrally related to each other and call for comprehensive strategies to address any aspect of children and family well-being. Read more information on Touchstones

Positive Youth Development

Positive youth development is an intentional, pro-social approach that constructively engages youth within their communities, schools, organizations, peer groups, and families; recognizes, utilizes, and enhances young people’s strengths; and promotes positive outcomes for young people by providing opportunities, fostering positive relationships, and furnishing the support needed to build on their leadership strengths.

Quality youth development programs should include the following features:

- Physical and psychological safety
- Appropriate structure that provides clear limit-setting, rules and expectations
- Supportive relationships
- Opportunities to belong: meaningful inclusion regardless of gender, ethnicity, sexual orientation, or disability
- Positive social norms
- Support for efficacy (ability to produce effects) and mattering (be of importance) by engaging, empowering, and challenging youth to make a difference
- Opportunities for skill-building
- Integration of family, school, and community efforts

Your county's strategies should cut across all disciplines that help children grow from early childhood, through adolescence, and into adulthood to become competent and healthy adults who have developed to their fullest potential.

1. What strategy or strategies did your county plan to implement in your 2017–2018 Youth and Young Adults County Plan section?

   The strategies can be copied directly from the previous year's plan.

   Ensure prevention and diversion services have adequate capacity and are designed to meet the specific individual needs of existing and emerging populations of PINS and JD youth.

2. Did your county fully implement the strategies as planned?

   Were you able to implement your strategy as designed, or did you change the way you implemented it? If you changed it, or tried something completely different, please explain.

   Much time was spent collaboratively planning within the juvenile justice system how to provide adequate services to all youth including older Raise the Age Youth. This included assessment and resource mapping and having discussions with providers regarding current services and those which could be developed.

3. Are there any new or emerging issues that impacted your plan? If yes, please describe the issues

Erie County: Youth and Young Adult
The emerging issue which prompted the current plan is Raise the Age legislation. Funding for “STSJP like” services for older youth has since emerged which will help meet the need. Changes that have or may happen to PINS youth will effect planning going forward as well.

4. What did your county anticipate would happen as a direct result of implementing your strategy as it was designed?

The county anticipates that older youth entering the juvenile justice system will be referred to services which meet the specific needs they have as young people soon to be entering adulthood and divert them from further system penetration.

5. Did the strategy have the anticipated impact? If so, what was the impact?

Use data you have available as evidence that your strategy did or did not have the desired impact on the intermediate outcome.

As Raise the Age has only been in place for 4 months and new programs are currently being requested it is difficult to assess success at this time. Many decision makers from various systems within Juvenile Justice learned a great deal about services already in place for older youth during our 2018 planning.

6. What strategy or strategies does your county plan to implement in the coming year to impact outcomes?

When reviewing your strategies from year one, please consider the following questions to work towards growth: What worked well? How could you modify your strategies to ensure improvements? Please describe any changes and why the changes have occurred. Include any new activities and the evidence you plan to provide to demonstrate the strategy’s effectiveness.

The county is currently requesting proposals for programs to serve older (16-18) juvenile justice system involved youth. These programs will focus on job readiness, independent living, vocational training, leadership development, peer mentoring and advocacy. These new programs in addition to those already in existence will help to meet the needs of the 16 year old youth currently entering the system and the 17 year old youth who will begin to enter the system in October of 2019.

Planning Team and Technical Assistance

Describe the district’s planning team and how they assisted in the identification of underlying factors and the development of strategies.

The district planning team includes all relevant members of the juvenile justice system in Erie County including the individuals and representatives of the JDAI steering committee (now known as the Erie County Juvenile Justice Collaborative) as well as numerous stakeholders and relevant organizations. Planning around these issues is ongoing and happens within the formal structure of JDAI collaborative work groups and committees. Underlying factors and strategies to address them have been discussed and developed throughout 2018 to plan for the current year, identify priorities and prepare for
continued and complete Raise the Age implementation.

Describe technical assistance or training, if any, requested by the district to implement this plan. Please be as specific as possible.

Technical assistance is currently provided by OCFS from detention specialists and through the Western Region Regional Youth Justice Team. Additional technical assistance might become more necessary as Raise the Age implementation begins.

Phone: 7169234051

2019 Services and Needs

1. Using available data, describe the local RHY population in broad demographic terms. This description should include all RHY in the county, not just those served by a RHY-specific program. Consider data from local RHY programs, McKinney-Vento liaisons, DSS, Youth Bureaus, and other partners as relevant. If the municipality elects to serve homeless young adults (up to the 25th birthday), include them in the descriptions here.

Include, at minimum, the following characteristics:

1. Age
   The majority of youth currently seeking homeless and runaway services in Erie County are between 15-17 years of age.

2. Gender identity / expression
   National data demonstrates that youth with gender identity or expression that differs from that assigned at birth are disproportionately represented in the homeless and runaway youth system. Research also shows that many youth do not report SOGIE information while accessing services. Very few, less than ten, youth receiving services self-disclosed SOGIE information in the previous year.

3. Sexual orientation
   National data demonstrates that LGBTQ youth are disproportionately represented in the homeless and runaway youth system. Research also shows that many youth do not report SOGIE information while accessing services. 80 youth receiving services self-disclosed identifying as LGBTQ in the past year.
4. Race / ethnicity
   The majority of youth receiving homeless and runaway youth services in Erie County are African American and Caucasian and are split fairly equally.

5. Child welfare involvement or history
   Based on an analysis of 2017 data which is being repeated in 2019 with 2018 data, we can see that a significant portion of youth accessing homeless and runaway youth services have previous and sometimes current involvement in child welfare and/or juvenile justice.

6. Place of origin (where is "home" as defined by the youth?)
   Youth accessing services report a variety of settings as home. The majority of youth who access services return to the home of origin most often with a parent or legal guardian. Many youth report housing instability and/or "couch surfing" and do not identify as homeless or runaway despite not having safe, stable housing.

7. Estimated number of runaway and estimated number of homeless youth in the previous year
   We would estimate that approximately 400-500 young people are experiencing homelessness in Erie County. This includes those accessing services and those on the periphery, who may be experiencing unstable housing but have yet to access services.

2. Using available data, describe the needs of the population described above as identified by your municipality. Consider the needs listed below and describe, in broad terms, how they manifest in your local RHY population, as relevant:
   - Homelessness prevention
   - Family counseling / reunification
   - Mental health
   - Crisis services, including shelter
   - Transitional independent living support
   - Affordable housing/rapid rehousing
   - Trauma-responsive services
   - Trafficking and sexual exploitation
   - Substance use disorder
   - Sexual and reproductive health and health education
   - Pregnant and parenting support
   - Other, as identified by the municipality

The local runaway and homeless youth population has a variety of needs. Young people experiencing homelessness and housing insecurity in Erie County often are experiencing disharmony and conflict in their home of origin. Homeless and runaway youth as well as, in some cases, their parents, experience mental health and substance abuse issues which can exacerbate family conflict. Assisting youth and their families in accessing family therapeutic interventions and mediation would help to address this need. Older youth require job skills, workforce training and independent living skills to successfully transition to adulthood. Support and safe spaces for LGBTQ youth is also a critical need for RHY population in Erie County.
3. Describe the local public and private resources (services and funds) that support the needs of the RHY population as described in the response to question above. This should include all services designed specifically for the RHY population. Additional resources that meet the needs as defined in question above may be included as well. Do not copy and paste a resource list here.

1. A description of non-residential resources designed specifically to serve RHY in your municipality, regardless of funding source.
   
   There is only one non-residential program designed specifically to serve RHY youth in Erie County. The Compass House Agency operates a non-residential resource center offering a variety of services to at-risk youth up to the age of 24.

2. A description of all crisis or transitional residential resources designed specifically to serve RHY in your municipality, regardless of funding source. Include the total number of respite, crisis, and transitional beds designed specifically to serve RHY in your municipality.
   
   There are three certified RHY programs in Erie County, one emergency shelter for both genders, one transitional program for young men and one transitional program for young women. Compass House, the emergency shelter, has 13 certified beds and operates a non-residential resource center which serves at-risk youth up to the age of 24. Teaching and Restoring Youth, the transitional program for young women, has 10 certified beds. Plymouth Crossroads the transitional program for young men, has 8 certified beds.

3. A description of resources designed for the RHY population supported by other county agencies (health, mental health, substance abuse, courts, etc.).
   
   In addition to county funding some of the certified RHYA programs receive HUD funding. The local CoC in Erie County has a renewed focus on youth homelessness and works closely with the county. Erie County is a resource and service rich community and youth may engage in many pro-social opportunities to belong which may not be specific to the RHY population but from which they can and do benefit. There are also a variety of rapid rehousing programs that some youth qualify for. Currently in Erie County most youth 18 years of age and older seeking emergency shelter utilize adult services.

4. Other relevant community-based resources for the RHY population.
   
   Youth take advantage of a variety of services and programs throughout the county. Runaway and Homeless Youth access informal services such as youth development programs offered in schools and community centers and receive support from a variety of professionals including teachers, school counselors, program coordinators etc.

4. Describe how the resources described above are coordinated for RHY within the municipality. Include the following in your description:

   1. Your plan to address service gaps in 2019.
      
      There is currently an interagency collaborative work group looking to strengthen services for RHY population. Due to changes in policy regarding PINS youth this work group seeks to insure that services are available for runaway and homeless youth as well as human trafficking victims.

   2. Any new services or expansion of services planned in 2019.
      
      Some non-residential services may be expanded to provide independent living skills to Raise the Age Youth however funding decisions have not been finalized.
3. Where is current information concerning available shelter space, transportation, and services for RHY maintained? Where can vulnerable youth access this information on a daily basis?

Each of the three certified programs does significant outreach. Compass House Emergency Shelter has advertisements at the local bus station and has materials in a variety of youth serving agencies and social service organizations. Compass House has a 24 crisis hotline which serves as single point of access for coordinated entry for all RHY services.

Municipal Service Planning Process

1. **List the partners** consulted by the municipal youth bureau and LDSS in composing this plan. Suggested partners include but are not limited to: the municipal RHY services coordinator, program managers at OCFS-certified RHY programs, Continuum of Care (CoC) board members, youth advisory board, McKinney-Vento liaisons, etc.

Erie County takes a collaborative approach to planning for all initiatives including RHYA services. The Erie County Youth Bureau Director who is also the RHYA Coordinator and JDAI Coordinator works closely with DSS child welfare, assistance programs, departments of mental health and probation, local service providers and HUD CoC. All parties meet regularly to strengthen the system overall and to find opportunities to close service gaps and provide a high level of care to runaway and homeless youth in Erie County.

2. Describe the **process** used to collect and compile the information provided above, including needs assessment tools used.

   Appendix B contains resources available to municipalities that may be helpful in the planning process.

   i. List the data sources used by the municipal youth bureau and DSS in composing this plan. Please be as specific as possible.

   The Primary data source utilized was the annual reports, as well as other information collected independently, provided by each of the three certified programs serving runaway and homeless youth in Erie County. Other data included HMIS data collected but local CoC, some data from childwelfare and probation and data from Buffalo Public Schools.

   ii. Is your municipality involved in local or regional "point in time" counts to collect data on the RHY population?

   - Yes
   - No

   If yes, please consider sharing any outcome documents with OCFS by uploading them.

RHY Service Expansion
Indicate whether the municipality approves the provision of the following residential RHY services from certified RHY programs in 2019:

Please be advised: Residential programs that do not receive state RHY funding under this plan may apply to OCFS for variances related to the age of youth served and the length of time youth may remain in such programs subject to the same limitations placed on municipalities per 9 NYCRR 182-1.13(a) and/or 182-2.12(a).

1. Runaway youth age 14 or older to remain in a certified residential RHY crisis services program where the filing of a petition pursuant to article 10 of the Family Court Act is not contemplated up to:

- 30 days
- 60 days
- Not applicable

Pursuant to 9 NYCRR 165-1.3(b)(6), if a youth stays beyond the applicable period chosen by the municipality, the municipality, through its runaway and homeless youth service coordinator or other specified designee, must provide written notice, within 60 days, to OCFS of the circumstances that made the provision of shelter necessary, efforts made by the program to find suitable alternative living arrangements for such youth and the outcome of such efforts.

2. Runaway youth to remain in a certified residential RHY crisis services program without the filing of a petition pursuant to article 10 of the Family Court Act, with consent in writing from youth and parent/guardian or custodian for up to:

Note: If the municipality selects 30 days above, 60 days must be selected here. If the municipality selects 60 days above, 120 days must be selected here.

- 60 days
- 120 days
- Not applicable

3. Homeless youth under the age of 16 to receive shelter in a residential Transitional Independent Living Support Program (TILP) provided the municipality provides notice for each such youth in accordance with 9 NYCRR 165-1.3(b)(6).

- Yes
- No
- Not applicable

4. Homeless youth to remain in a TILP for a period of up to:

- 18 months
- 24 months
- Not applicable

5. Homeless young adults (see key definitions) to receive all services available to homeless youth as indicated in this plan.

- Yes
- No

Erie County: Runaway and Homeless Youth Services

Page 5
If the response to the above is no, briefly explain why the county is choosing not to make RHY services available to this population at this time:

6. Please list the following information for the RHY service coordinator and/or additional designees who are permitted to provide any required notice to OCFS in accordance with 9 NYCRR 165-1.3(b)(6):

RHY System Coordination

Designation and duties of the municipal RHY services coordinator

Coordinator’s Name:
Ben Hilligas

Employer, including name of the division, bureau, or office where the position is located:
Erie County Youth Bureau -Youth Services -Department of Social Services

Percentage of time spent on RHY service coordinator duties (% FTE):
10%

☑️ The municipal RHY service coordinator is also the municipal youth bureau director.

Please upload a copy of job description / responsibilities as maintained by the employer to this plan. Minimum responsibilities of RHY service coordinators are set forth in 9 NYCRR 182-1.15(c). The provided job description must meet these requirements at minimum.

Describe how residential RHY programs are monitored to confirm that youth accessing services have access to educational services, including transportation to and from educational programs.

The 3 certified RHY service providers in Erie County are very experienced in McKinney-Vento procedures and always request transportation from school districts or request transfers to new districts in a timely manner. All programs require school attendance and work diligently to insure all youth receiving services have their educational needs met.

Crisis Services Programs

Please provide the following information about each RHY residential crisis program certified by OCFS to operate in your municipality. One form must be completed for each certified program. Programs must be included here to remain eligible for state RHY funds. A data dictionary is available for reference.

Erie County: Runaway and Homeless Youth Services
Non-Residential Programs

Please provide the following information about each of the OCFS-funded non-residential RHY programs and services that operate within your municipality. A data dictionary is available for your reference.

Program Name:
   Compass House Resource Center

Program Address:
   1451 Main St Buffalo NY 14211

Program Contact Name:
   Lisa Freeman

Program Contact Phone Number:
   (716)884-3066

Program Contact Email:
   lfreeman@compasshouse.org

Hours of accessibility to RHY population:
   9-5 limited extended hours throughout the week

Target Population (age and other relevant demographics):
   At risk youth up to the age of 24.

Non-residential RHY Services Provided:
   At risk provided with services including case management, housing, employment, clothing, food, legal assistance, educational assistance, health information, referrals etc.

Municipal Service Planning Process

How can OCFS better support your municipality’s response to RHY and young adults?

Consider support surrounding training, technical assistance, program development, standardizing tools, best practices, positive youth development, cross-system collaborations, etc.

Financial resources for programs are extremely limited. OCFS could encourage child welfare to work more collaboratively with RHY programs. New training through PDP should focus on building collaborative structures.

Erie County: Runaway and Homeless Youth Services
The PINS Reform Law (Chapter 57 of the Laws of 2005) requires an LDSS’s Consolidated Services Plan or its Child and Family Services Plan (Integrated County Plan) to include a Persons In Need of Supervision (PINS) diversion services section. This requirement applies to all counties and supports increased services to PINS youth and families, reduced use of detention, and collaboration to develop productive responses to status offenders and their families.

Please note that the information in this form is specific to the PINS Diversion Services population and process in your county, not to the post-petition PINS population or the juvenile delinquent (JD) population.

Designation of Lead Agency

Counties should configure their PINS diversion services according to their individual efficiencies and strengths. The designation may be changed in the future through an update to the plan or at the time of the next plan submission. While the LDSS is required to identify one lead agency, cooperative procedures may require other agencies to perform certain functions or services.

Select the Lead Agency for PINS Diversion Services:

- Probation
- LDSS

Inventory of PINS Diversion Service Options

Describe PINS diversion services that are available in your county and indicate whether a service gap exists. For each service, include the geographic area (countywide or specific cities or towns). Please note that the first three service categories are required. Counties may coordinate efforts with providers to establish regional services.

<tbody>
<tr>
<td><strong>a. Determines the need for residential respite services and need for alternatives to detention</strong></td>
<td></td>
</tr>
</tbody>
</table>
| **Describe how provided:** The Family Services Team (Collaboration between MH, DSS, and Probation) and the Early Intervention Program makes recommendation/offers services to families as needed. Targeting the risk that is placing youth at emerging or imminent risk of out of home care. The contracted residential respite program was closed over five years ago due to underutilization, as well as the inability to sustain it financially. When needed, natural supports are utilized and in emergencies, Compass House (the local runaway shelter) can be considered, but it is not an option in all cases (due to the youth’s behavior or past history with this agency). Due to the fact that respite is not readily available, it is somewhat of a “service gap,” although as stated, options are sought and utilized. This issue is an ongoing issue across the state, and not unique to Erie county. | ☑ Probation  
☑ LDSS  
☑ Other  
| Mental Health manages community service contracts |
| **b. Provides an immediate response to youth and families in crisis (includes 24 hours a day response capability)** |

North Carolina Family Assessment Scale

Describe how provided:
Services that complete the North Carolina Family Assessment Scale include MST, High Fidelity Wrap around, Community Connections, Urgent Access. Erie County continues to utilize the tool as a support service for treatment planning.

e. Works with youth and family to develop case plan

Describe how provided:
The Family Services Team intake and Probation Officers sit with families to develop targeted trajectory case plans, including crisis planning, assessing risk and needs, as well as family/youth strengths. Targeted Case plans are shared with community services providers to support services to mitigate emerging or imminent risk of out of home care. Case plans are updated and amended as necessary to ensure the successful servicing of families.

f. Determines service providers and makes referrals

Describe how provided:
The Family Services Team utilizes evidence based and best practice service programs for targeted family interventions. The focus is addressing those risk and needs that are placing youth at emerging or imminent risk out of home care.

The Early Intervention Program assesses the youth and families upon referral from the Family Services Team and provide case management, family support and community linkages.

PINS Diversion Services Plan

A. Planning Activities

Erie County: PINS Diversion Services
Briefly describe all PINS Diversion Services Planning activities the county has engaged in related to this current plan. Include every organization in the county that are involved to date in the PINS Diversion Services planning process. Schools, law enforcement officials, and the local family court are critical partners. Respite service providers, youth bureaus, detention facilities, and others also are important to the planning process.

Describe the development of the PINS Diversion Services Plan and MOU:

There has been an expansion of high-end services, based on the assessed needs of youth that continue to be placed in non-secure detention. There are currently two evidence based Catholic Charities Multisystemic Therapy (MST) teams which have been proven effective with youth with primary substance abuse issues in a short time frame. Southwest Keys Runaway Outreach Support Services was developed as an alternative to detention for PINS Youth. The Probation Department was able to secure a Runaway Probation Officer through DSS funding. The Runaway Outreach Support Services and Runaway Probation Officer provide immediate support and assistance to families while their youth is missing from home. The primary goal of the service is location and safe retrieval of the missing youth and diversion of these youth from further penetration into the juvenile justice system. Since the program’s inception, the service has successfully retrieved approximately 90% of youth reported missing. The Family Services Team meets regularly with ECDSS, the International Institute of Buffalo and other local community groups to address the issue of human trafficking as this contributes to the number of runaway youth processed each year. The Center for Resolution and Justice received funding to provide mediation and conflict coaching to address ongoing family conflict for PINS diversion cases. Collaboration efforts continue with the community and local school districts to address truancy. Goals include developing procedures and policies to address truancy, identify youth and families in need of services and guidelines to meet the needs of youth. PINS Diversion Services planning and operational activities include collaborations among Erie County Department of Social Services (Child Welfare, Family Services Team, Preventive Services), Department of Mental Health, Department of Probation, Youth Services and Detention, Erie County Family Court, various law enforcement agencies and legal entities, and the network of service providers in Erie County who work with at-risk youth and families. The gap in access to needed respite services is being addressed through the continued development of natural community supports, including the use of a stress pass. The stress pass identifies a mutually agreed upon location where a youth can reside during a crisis in the home. Further planning includes strategies for utilizing mental health and clinical support services to provide stabilization of the families and strategies to sustain youth in their homes. The focus is diversion from detention admission before entering the JD/PINS portal and on individualized service plans at the time of discharge to reduce return of youth.

List stakeholder and service agency involvement in planning:

ECDSS/Youth Services, Mental Health Department, Probation, Family Court, Catholic Charities, Youth Services and Detention, Southwest Keys, Buffalo Public Schools, Erie County Youth Bureau, International Institute of Buffalo, Center for Resolution and Justice, various law enforcement agencies.

**B. PINS Diversion Services Population**

Please define the PINS Diversion Services population in your county for 2018. Specifically, please provide the following as whole numbers (not %):

**Number of Youth carried over from previous year:**

79

**Number of PINS Diversion Services referrals filed by parents:**

756

**Number of PINS Diversion Services referrals by schools:**

32
Number of PINS Diversion Services referrals by police: 2

Number of PINS Diversion Services referrals by victim: 0

Number of PINS Diversion Services referrals other sources: 7

Please identify other sources:
- Family Court judges (through active neglect dockets)

Number of PINS Diversion Services cases closed as Successfully Diverted: 729

Number of PINS Diversion Services cases closed as Unsuccessful and Referred to Petition: 68

Number of PINS Diversion Services cases that remain open: 112

C. Data Collection

How was data collected?

Data is collected in Caseload Explorer, a NYS Probation data base, High Fidelity Electronic Health Record System (Fidelity EHR) and through manual record keeping techniques.

D. Pre-PINS Diversion Efforts

Is your county performing any pre-PINS diversion techniques?

☐ Yes

☐ No

If "Yes" please list and describe:

Erie County utilizes Southwest Keys - Family Keys Pre-Pins Diversion Program. This is a family centered, strength based service that provides linkages to youth and their families with the goal of preventing youth from further penetrating the Juvenile Justice System.

E. Needs Analysis

Include a summary of the data and the analysis used to determine the needs of the PINS Diversion Services population.

List data sources (e.g., Communities That Care, youth assessment and screening instrument aggregate reports, PINS/complaint [source or type] information, status at closing, cases referred for petition, etc.). Specify whether the findings relate to county, city, town, neighborhood, school or other specific groups within the PINS Diversion Services population. Describe any conclusions drawn or changes made to strategies to address the needs of this population. Data collected through the needs assessment process can be useful in selecting outcomes in the next section.

There is a need to strengthen the Runaway Outreach Support Services with the addition and expansion of community based services to address the needs of this population. Since the inception of the service, Erie County has identified several youth who are human trafficking victims. More individualized services are needed to address the unique needs of this population, including trauma informed providers. We have established a working group in our county to strengthen the partnership between the Family
Services Team, ECDSS and the International Institute of Buffalo. School truancy continues to be an issue for the PINS youth. We have identified the need for alternative educational programs for older youth, specifically 16 and 17 year olds. We continue to collaborate with our local school districts to explore the development of vocational and non-traditional school programs. Additionally, State level advocacy to change Education Law to best serve youth that are not on track to graduate and are in need of alternative job readiness education is a must. Efforts continue to reduce the number of youth admitted to non-secure detention, especially in lieu of the changes anticipate in 2020. Intensive case management services have been expanded to service PINS youth, both in the diversion stage and after the filing of a PINS petition in court. Efforts will continue to improve and strengthen the collaboration between staff in the juvenile justice system and in the child welfare system to reduce the number of youth who cross over from one system to another, thereby reducing further system penetration and providing individualized service plans to youth and families.

F. Desired Changes

List desired changes in community, family, or individual behaviors or conditions in terms that are specific, measurable, achievable, realistic, and timely. Identify the intended outcomes to be achieved for the PINS Diversion Services population. Outcomes should be derived from the aggregate needs, and could include specific populations (e.g., truants, ungovernable youth, females, males, special education youth); specific PINS Diversion Services processes (e.g., pre-PINS collaborative work, improved service timelines, improved services, focus on evidence based interventions); or aggregate data based outcomes (e.g., reduced number of PINS referred to petition, reduced parental PINS, reduced school PINS, or reduction in specific YASI risk assessment scores). It is important to note that the outcomes in this section are only for the PINS Diversion Services population and/or process.

For each outcome:

1. Identify the specific raw number or percentage change indicator sought for that outcome.
2. Identify quantifiable and verifiable outcomes of the desired change in conditions or behaviors for the PINS Diversion Services population.
3. Describe the strategies to be implemented to achieve the identified indicator and outcome. Each strategy should include the timeframe for completion, and a designation of who is responsible for implementation.

<table>
<thead>
<tr>
<th>Desired Change</th>
<th>Numerical or Percentage Change Sought</th>
<th>Identify Outcome (for PINS Diversion Services population)</th>
<th>Strategy / Plan to achieve (who, what, and when)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Further system penetration of high-risk youth will be diverted due to youth/families being referred to the Family Services Team.</td>
<td>1</td>
<td>In 2018, 797 families presented to the Family Services Intake requesting general early intervention/diversion. Of these 797 families who presented, 68 were referred to Court for filing of petitions (this includes 7 petitions filed on active neglect cases). 91% did not move further into the Juvenile Justice System.</td>
<td>There is a plan for expansion of existing services which now include STSJP (Supervision and Treatment Services for Juveniles Programs) programs. The implementation of evidence based and individualized services which target risk and needs of youth and their families and build upon strengths of families to increase the likelihood of youth remaining in their homes and not penetrating the Juvenile Justice System further. The goal</td>
</tr>
</tbody>
</table>
in 2019 is to maintain or increase the number of youth who avoid further penetration into the Juvenile Justice System.

### Change #2

| Increased collaboration between Juvenile Justice and Child Welfare Systems. | 20 | A reduction in the number of youth who cross over from the Child Welfare System (Child Protection Services and Children's Services) to the Juvenile Justice System, thereby leading to the filing of PINS petitions. | Increased case conferences for all potential crossover cases prior to the acceptance of a case into PINS diversion. Develop training for staff involved in both systems to better understand the goals, objectives and limitations of each system. |

### Change #3

| Continue to reduce the number of non-secure detention admissions. | 75 | By reducing the number of admissions into non-secure detention, we hope to see a corresponding reduction in the number of RTC placements for PINS youth in 2019. | In 2019, we will strengthen the Runaway Outreach Support Services and increase the usage of intensive community based services, including STSJP (Supervision and Treatment Services for Juveniles Programs), Restorative Justice programming, the International Institute of Buffalo, trauma informed training and preventive services. Services will be individualized and target the risks and needs of youth and families while building upon the strengths of families to maintain youth in their homes and communities. |
Adult Services

Please select one of the APS goals you chose to address in your 2018–2023 Child and Family Services Plan address the following questions for it:

Select one of the goals from your 2018–2023 Plan:

- **Goal 1**: Vulnerable adults who self-neglect or are abused, neglected, or exploited by others will be identified, have their living situation thoroughly investigated, and be protected.

- **Goal 2**: APS will pursue appropriate legal interventions to address situations where impaired adults are at risk of harm, are unable to make informed decisions, and are refusing necessary services.

- **Goal 3**: APS will utilize multi-disciplinary teams and community resources to improve investigations, assessments and service delivery to reduce risk and protect vulnerable adults.

- **Goal 4**: APS will provide protective and residential services in the least restrictive manner that will effectively protect vulnerable and dependent adults, balancing adults’ rights to self-determination against need to seek protection of at-risk persons lacking capacity.

- **Goal 5**: Youth aging out of foster care or other child welfare services who could benefit from Adult Services as they reach adulthood will be identified, have their needs assessed and be protected.

Identify the strategy(s) you proposed for year one (can be copied from your CFSP submission):

- ECDSS APS will complete a Community Needs Assessment to identify gaps and barriers in service delivery and collaboration, prepare and implement strategies to improve practice and consequently reduce risk and protect vulnerable adults.
- Erie County APS will formalize agreements with hospitals regarding referrals and from respective organizations, develop a training regimen for hospital and APS staff regarding the other disciplines' provisions of service, and adopt a procedure for conferencing successes and challenges as well as systemic improvements.
- Erie County APS will increase participation and contribution to the Financial Crimes and Identity Theft Task Force. Focus in doing so will be on the working relationship between APS and financial institutions.
- Erie County APS will engage the refugee community by coordinating efforts with the Child Welfare System.
- Erie County APS will develop and implement a sustainable practice of interviewing employees separating from employment. Data from the evaluation will be used to develop strategies for reducing staff turnover.
- APS will employ supervisory practices consistent with Solution Focused Trauma Informed System of Care (SFTIC). All supervisors and direct-line staff will be trained in SFTIC, and a system of follow-up and monitoring will be implemented.
- APS will evaluate the efficacy of the intake unit. Focus groups will be conducted to assist with re-structuring the staffing pattern and practices of thoroughly triaging referrals.

Have you implemented the strategy(s) you proposed for year one? If not, why not?

ECDSS APS initiated a Community Needs Assessment in conjunction with our partners at the Center for Elder Law and Justice in late 2018. Surveys have been completed by providers and the community; telephone and face to face interviews with APS clients is in process. Upon completion of the survey, APS will review the data and develop strategies to improve practice thereby reducing risk and protecting vulnerable adults.

**Erie County**: Adult Services
All of our supervisors have completed Solution Focused Trauma Informed System of Care training. Additionally two sessions of booster trainings have been provided to supervisory staff. Most of the staff has also completed SFTIC training; SFTIC principles are discussed in meetings, case reviews, and cross departmental communication.

In 2019 ECDSS has established the practice of completing exit interviews with staff separating from employment. Human resource Development staff completes the interviews, collect feedback, and provide reports to management. All responses remain anonymous. Thus far we have had only separation in 2019; responses from that interview will not be shared until additional interviews are held to ensure anonymity.

ECDSS APS has made several changes to improve our Intake function including staffing changes which includes the appointment of a Spanish speaking worker to better serve the Spanish speaking population of Erie County and new supervision. APS casework and supervisory staff is now classified as essential staff which will enable the department to mobilize staff to address safety and risk concerns regarding vulnerable adults during a state of emergency.

We have not yet implemented the formalization of agreements with hospitals, coordinating efforts with Child Welfare regarding the refugee community, or increasing our involvement with the Financial Crimes and Identity Task Force. We will be using the Community Needs Assessment data to assist in developing a strategy.

Were the activities associated with your strategy(s) successful (so far)?

The Community Needs Assessment has not yet been completed. Other strategies have not produced enough data to determine success at this time (exit interviews, intake changes).

How do you know? How did you measure your success and was there an Administrative review by the Director of Services, Deputy Commissioner or the Commissioner?

The Community Needs Assessment has not yet been completed. APS will be reviewing the changes in intake in comparison to historical data over several months to determine success. The Assistant Commissioner and Director have reviewed the changes and are monitoring data collection.

At this point, do you believe that a strategy needs to change? Is there an obstacle which is interfering with your activities / strategy(s)?

No changes in the strategy are indicated at this time

What will you do instead?

N/A

Please select one of the APS goals you chose to address in your 2018–2023 Child and Family Services Plan address the following questions for it:

Select one of the goals from your 2018–2023 Plan:

- **Goal 1**: Vulnerable adults who self-neglect or are abused, neglected, or exploited by others will be identified, have their living situation thoroughly investigated, and be protected.

- **Goal 2**: APS will pursue appropriate legal interventions to address situations where impaired adults are at risk of harm, are unable to make informed decisions, and are refusing necessary services.

---

Erie County: Adult Services

Page 2
Goal 3: APS will utilize multi-disciplinary teams and community resources to improve investigations, assessments and service delivery to reduce risk and protect vulnerable adults.

Goal 4: APS will provide protective and residential services in the least restrictive manner that will effectively protect vulnerable and dependent adults, balancing adults’ rights to self-determination against need to seek protection of at-risk persons lacking capacity.

Goal 5: Youth aging out of foster care or other child welfare services who could benefit from Adult Services as they reach adulthood will be identified, have their needs assessed and be protected.

Identify the strategy(s) you proposed for year one (can be copied from your CFSP submission):

- Erie County APS will conduct county wide research on young adults to determine the needs of vulnerable youth in the community and aging out of Child Welfare System. This will be completed by securing unidentifiable client data on APS clients who have a history of Child Welfare involvement. Erie is only interested in aggregate information as opposed to client specific information. APS cases will also be reviewed to determine common and uncommon needs of youth aged 18-24, and cross referencing those needs with available services to determine gaps. Strategies will then be developed and implemented to bridge the gaps between needs and services.
- Erie APS will develop a formal information and referral process for agencies or individuals seeking services. This will be accomplished by developing formal protocols with the Child Welfare System, the local Independent Living Center, and NY Connects (operated by the Department of Senior Services).
- Erie County APS will increase its resource network by expanding into the base of community service collaboratives that currently exist.
- Erie County APS will increase its education and outreach efforts. 20 presentations will be conducted annually.

Have you implemented the strategy(s) you proposed for year one? If not, why not?

ECDSS APS and Child Welfare have partnered with the Office for People with Developmental Disabilities (OPWDD) to examine community housing options for youth in transition. OPWDD is working with NY Alliance for Inclusion and Innovation to identify potential demonstration projects that address barriers to expanding the footprint and impact of non-certified housing for people with intellectual and developmental disabilities.

ECDSS APS has held preliminary meetings with several community agencies (Community Services for Everyone, Person Centered Services) and internal partners (Office of Mental Health) to discuss strategies to best meet community needs. APS is finalizing protocols with Child and Family Services’ (C&FS) Non Residential Domestic Violence (DV) program to strengthen and formalize its partnership. C&FS will provide in-depth training on topics of DV and be available for consultation and technical support. APS has also had several meetings with Erie County Senior Services to build upon the existing partnership and improve the services provided to vulnerable senior adults. In 2018 APS provided presentations to physical therapy PhD students, churches, and Hospice. APS participated in a panel discussion at the community Elder Abuse Awareness Day.

Erie County Department of Social Services’ (ECDSS) Adult Protective Services (APS) initiated a Community Needs Assessment in conjunction with partners at the Center for Elder Law and Justice in late 2018. Surveys have been completed by providers and the community; telephone and face to face interviews with APS clients is in process. Upon completion of the survey, APS will review the data and develop strategies to improve practice thereby reducing risk and protecting vulnerable adults.

APS supervisors have completed Solution Focused Trauma Informed System of Care (SFTIC) training. Additionally two sessions of booster trainings have been provided to supervisory staff. Most of the staff has also completed SFTIC training; SFTIC principles are discussed in meetings, case reviews, and cross departmental communication.
In 2019 ECDSS has established the practice of completing exit interviews with staff separating from employment. Human resource Development staff completes the interviews, collect feedback, and provide reports to management. All responses remain anonymous. There was only one separation in 2018. Thus far there have been only two separations in 2019; responses from those interviews will not be shared until additional interviews are held to ensure anonymity.

ECDSS APS has made several changes to improve the Intake function including staffing changes which includes the appointment of a Spanish speaking worker to better serve the Spanish speaking population of Erie County and new supervision. APS casework and supervisory staff is now classified as essential staff which will enable the department to mobilize staff to address safety and risk concerns regarding vulnerable adults during a state of emergency. ECDSS APS has also piloted several initiatives to improve the level of services to the community including changing the work flow within one team to assign assessments to specific workers and ongoing cases to others, rotating off line weeks for teams receiving assessments, and assigning intake home visits during the three day intake phase when appropriate to reduce the number of cases to be assigned for assessment.

ECDSS APS has not yet implemented the formalization of agreements with hospitals, coordinating efforts with Child Welfare regarding the refugee community, or increasing our involvement with the Financial Crimes and Identity Task Force. APS will be using the Community Needs Assessment data to assist in developing a strategy.

Were the activities associated with your strategy(s) successful (so far)?

The preliminary meetings with community agencies and internal departments have been productive thus far. Continued work with partners is planned to address the needs of vulnerable youth.

How do you know? How did you measure your success and was there an Administrative review by the Director of Services, Deputy Commissioner or the Commissioner?

The Assistant Commissioner and Director have reviewed the changes and are monitoring data collection.

At this point, do you believe that a strategy needs to change? Is there an obstacle which is interfering with your activities / strategy(s)?

No change is indicated at this time.

What will you do instead?

N/A
The Child Care section of the plan is effective on the date that it is approved by OCFS. The approval date for the Child Care section of the plan can be found on the OCFS website.

Appendix K: Child Care Administration

Describe how your district is organized to administer the child care program, including any functions that are subcontracted to an outside agency.

1. Identify the unit that has primary responsibility for the administration of child care for:

   a. Public Assistance Families: Temporary Assistance Units
   b. Transitioning Families: Day Care Unit
   c. Income Eligible Families: Day Care Unit
   d. Title XX: Children Services

2. Provide the following information on the use of New York State Child Care Block Grant (NYSCCBG) Funds.

| c) a victim of domestic violence and participating in an approved activity | ☐ | Yes  
☐ | No  | PA families with an approval from Employment Division |
| d) in an emergency situation of short duration | ☐ | Yes  
☐ | No  |
| 3. Families with an open child protective services case when child care is needed to protect the child. | ☐ | Yes  
☐ | No  | Approval by the child protective service worker required |
| 4. Families with incomes up to 200% of the State Income Standard when child care services are needed for the child to be protected because the child's caretaker: |   |   |
| a) is physically or mentally incapacitated | ☐ | Yes  
☐ | No  |
| b) has family duties away from home | ☐ | Yes  
☐ | No  | Active Military Duty only |
| 5. Families with incomes up to 200% of the State Income Standard when child care services are needed for the child's caretaker to actively seek employment for a period up to six months. Child care services will be available only for the portion of the day the family can document is directly related to the caretaker engaging in such activities. | ☐ | Yes  
☐ | No  | Family must have an active subsidy child care case and reported loss of employment within 10 days would be eligible for a period not to exceed 3 months to actively job search and for a maximum of 25hrs/week |
| 6. PA families where a sanctioned parent or caretaker relative is participating in unsubsidized employment, earning wages at a level equal to or greater than the minimum amount under law. | ☐ | Yes  
☐ | No  |
| 7. Families with incomes up to 200% of the State Income Standard when child care services are needed for the child's caretaker to participate in: |   |   |
| a) a public or private educational facility providing a standard high school curriculum offered by or approved by the local school district | ☐ | Yes  
☐ | No  | Limited to Parent/Caretaker under the age of 21 |
| b) an education program that prepares an individual to obtain a NYS High School equivalency diploma | ☐ | Yes  
☐ | No  | Limited to Parent/Caretaker under the age of 21 |
| c) a program providing basic remedial education in the areas of reading, writing, mathematics, and oral communications for individuals functioning below the ninth month of the eighth-grade level | Yes | No |
| d) a program providing literacy training designed to help individuals improve their ability to read and write | Yes | No |
| e) an English as a second language (ESL) instructional program designed to develop skills in listening, speaking, reading, and writing the English language for individuals whose primary language is other than English | Yes | No |
| f) a two-year full-time degree granting program at a community college, a two-year college, or an undergraduate college with a specific vocational goal leading to an associate’s degree or certificate of completion | Yes | No |
| g) a training program, which has a specific occupational goal and is conducted by an institution other than a college or university that is licensed or approved by the State Education Department | Yes | No |
| h) a prevocational skill training program such as a basic education and literacy training program | Yes | No |
| i) a demonstration project designed for vocational training or other project approved by the Department of Labor | Yes | No |

**Note:** The caretaker must complete the selected programs listed within 30 consecutive calendar months. The caretaker cannot enroll in more than one program.

8. PA recipients or low-income families with incomes up to 200% of the State Income Standard who are satisfactorily participating in a two-year program other than one with a specific vocational sequence (leading to an...
9. PA recipients or low-income families with incomes up to 200% of the State Income Standard who are satisfactorily participating in a two-year college or university program (other than one with a specific vocational sequence) leading to an associate’s degree or a certificate of completion that is reasonably expected to lead to an improvement in the caretaker’s earning capacity if the caretaker is also working at least 17½ hours per week. The caretaker must demonstrate his or her ability to successfully complete the course of study.

| Yes | No |

10. PA recipients or low-income families with incomes up to 200% of the State Income Standard who are satisfactorily participating in a four-year college or university program leading to a bachelor’s degree and that is reasonably expected to lead to an improvement in the caretaker’s earning capacity if the caretaker is also working at least 17½ hours per week. The caretaker must demonstrate his or her ability to successfully complete the course of study.

| Yes | No |

Limitation: For PA recipients only with approval from the employment division a four year college program would be the highest level of post-secondary level education that could be approved. This approval would be determined based on the individual’s assessment plan toward self-sufficiency and the district’s need to meet Federal and State work participation requirements. Approval for enrollment considers factors such as: the individual’s ability to successfully complete the program; whether it is necessary for the achievement of the individual’s employment goals outlined in their Employment Plan; and whether such goals relate directly to obtaining employment in an occupation with favorable job prospects. Continued approval of enrollments is based on the participant maintaining satisfactory progress to complete the course of study. Verification of school attendance is the responsibility of the participant.

11. Families with incomes up to the 200% of the State Income Standard when child care services are needed for the child’s caretaker to participate in a program to train workers in an employment field that currently is or is likely to be in demand in the future, if the caretaker documents that he or she...
Appendix M #1: Reasonable Distance, Recertification Period, Family Share, Very Low Income, Federal and Local Priorities

I. Reasonable Distance

Define "reasonable distance" based on community standards for determining accessible child care.

1. The following defines "reasonable distance":

- 90 minutes or less each way

  The amount of travel time indicated by the applicant will be accepted as indicated if the travel time is one hour or less each way. If the amount indicated is more than one hour each way, additional information or documentation must be provided to determine reasonable distance.

2. Describe any steps/consultations made to arrive at your definition:

  Consultations with Day Care Unit, Employment Program, Temporary Assistance staff and Child Care providers.

II. Recertification Period

The district’s recertification period for low income child care cases is every:

- Six months
- Twelve months

III. Family Share

"Family Share" is the weekly amount paid towards the costs of the child care services by the child’s parent or caretaker. Your district must select a family share percentage from 10% to 35% to use in calculating the amount of family share. The weekly family share of child care costs is calculated by applying the family share percentage against the amount of the family’s annual gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by the district:

- 35%

Additional Description of this Family Share Percentage:

Erie County: Child Care
Note: The family share percentage selected here must match the percentage entered in the Program Matrix in the Welfare Management System (WMS).

IV. Very Low Income

Define "very low income" as it is used in determining priorities for child care benefits.
"Very Low Income" is defined as 100% of the State Income Standard.

V. Federal and Local Priorities

1. The district must rank the federally mandated priorities. Cases that are ranked 1 have the highest priority for receiving child care assistance. These rankings apply to case closings and case openings.
   
a. Very low income as defined in Section IV:
   
   □ Rank 1
   □ Rank 2
   □ Rank 3
   
b. Families with incomes up to 200% of the State Income Standard that have a child with special needs and a need for child care:
   
   □ Rank 1
   □ Rank 2
   □ Rank 3
   
c. Families with incomes up to 200% of the State Income Standard that are experiencing homelessness:
   
   □ Rank 1
   □ Rank 2
   □ Rank 3
   
2. Does the district have local priorities?

   □ Yes
   □ No

   If yes, list them below and rank beginning with Rank 4.

Appendix M #2: Case Openings, Case Closings, and Waiting List

Erie County: Child Care
Page 7
I. Case Openings When Funds Are Limited

If a social services district does not have sufficient funds to provide child care services to all families who are applying, the district may decide to open certain categories of families as funds become available. The district must open federal priorities first. If the district identified local priorities, they must be opened next. After the federal and local priorities, identify the basis upon which the district will open cases if funds become available. Select one of the options listed below and describe the process for opening.

- 1. Open cases based on **FIRST COME, FIRST SERVED**.
- 2. Open cases based on **INCOME**.

    **If opening based on income...**
    - The district will open cases starting from the lowest income to the highest income.
    - The district will open cases based on income bands, starting from the lowest income band to the highest income band.

        If using income bands, list the bands, starting from the one that will be opened first:

        0-99% SIS  
        100%-125% SIS  
        126%-149% SIS  
        150%-174% SIS  
        175%-200% SIS

- 3. Open cases based on **CATEGORY OF FAMILY**.
- 4. Open cases based on **INCOME AND CATEGORY OF FAMILY**.
- 5. Open cases based on **OTHER CRITERIA**.

II. Case Closings When Sufficient Funds Are Not Available

If a social services district does not have sufficient funds to continue to provide child care assistance to all families in its current caseload, the district may decide to discontinue child care assistance to certain categories of families. The district must close federal priorities last. If the district identified local priorities, they must be closed next to last. After the federal and local priorities, describe the basis upon which the district will close cases if sufficient funds are not available.

If no priorities are established beyond the federally mandated priorities and all funds are committed, case closings for families that are not eligible under a child care guarantee and are not under a federally mandated priority must be based on the length of time they have received services (must choose #1 below).

Select one of the options listed below and describe the process for closing.

- 1. Close cases based on **AMOUNT OF TIME** receiving child care services.
- 2. Close cases based on **INCOME**.

    **If closing based on income...**

**Erie County:** Child Care

Page 8
The district will close cases starting from the highest income to the lowest income. The district will close cases based on income bands, starting from the highest income band to the lowest income band.

If using income bands, list the bands, starting from the one that will be closed first:

- 175%-200% SIS
- 150%-174% SIS
- 126%-149% SIS
- 100%-125% SIS
- 0-99% SIS

3. Close cases based on **CATEGORY OF FAMILY**.
4. Close cases based on **INCOME AND CATEGORY OF FAMILY**.
5. Close cases based on **OTHER CRITERIA**.

### III. Waiting List

The district will establish a waiting list when there are not sufficient funds to open all eligible cases.

- No
- Yes

### Appendix M #3: Fraud and Abuse Control Activities and Inspections

#### I. Fraud and Abuse Control Activities

1. Describe below the criteria the district will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payments in addition to procedures for referring such applications to the district’s front-end detection system.

The District conducts FEDS investigations on child care subsidy applications if an application contains 1 or more indicator(s) as listed below and the eligibility worker is not confident that the indicator in question has been explained or supported adequately. Once identified, the application is referred to the Special Investigations Division (SID) via the completion of form B-5390 with documentation of the identified indicator for a FEDS investigation. Upon receipt of a child care FEDS referral, an SID Special Investigator is assigned to the case. The Special Investigator schedules an office or home visit with the applicant. The Special Investigator will conduct an investigation and respond to the Day Care Unit within 21 days of the receipt referral as to the findings of the investigation. The eligibility worker will respond to SID within 45 days of the receipt of the findings, by completing the B-5389 SID FEDS/Child CARE Unit Survey Response form and indicating the action taken on the case.

- Information on Child Care Assistance Application is inconsistent with case information

**Erie County:** Child Care

Page 9
• Applicant indicates he/she is working off the books
• Applicant is self-employed, but cannot provide adequate business records
• Applicant has a prior history of case denial, case closing or overpayment
• Child Care provider lives in the same residence as the child being provided care
• Applicant is employed by the Child Care Facility/provider that the child attends

2. Describe the sampling methodology used to determine which cases will require verification of an applicant's or recipient's continued need for child care, including, as applicable, verification of participation in employment, education, or other required activities.

Applicant's/Recipient's are subject to a 90 day review of income verification to determine continued need for child care assistance.

3. Describe the sampling methodology used to determine which providers of subsidized child care services will be reviewed for the purpose of comparing the child care provider's attendance forms for children receiving subsidized child care services with any Child and Adult Care Food Program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

A random sample of 25 child care providers will be selected on a quarterly basis for the purpose of comparing the child care provider's attendance forms for children receiving subsidized child care services with any Child and Adult Care Food program inspection forms to verify that child care was actually provided on the days list on the attendance forms. Any provider selected in the calendar year will not be included in subsequent samples unless a discrepancy is found.

II. Inspections of Child Care Provider Records and Premises

The district may choose to make announced or unannounced inspections of the records and premises of any provider/program that provides child care for subsidized children to determine if the child care provider is in compliance with applicable laws and regulations and any additional requirements imposed on such a provider by the social services district per 18 NYCRR §415.4(h)(3).

The district has the right to make inspections prior to subsidized children receiving care of any child care provider, including care in a home, to determine whether the child care provider is in compliance with applicable laws and regulations and any additional requirements imposed on such a provider by the district.

The district must report violations of regulations as follows:

1. Violations by a licensed or registered child care provider must be reported to the applicable Office of Children and Families (OCFS) Regional Office.
2. Violations by an enrolled or enrolling legally-exempt child care provider must be reported to the applicable Enrollment Agency.

Does the district choose to make inspections of such child care providers/programs?

☐ No.
☐ Yes. Provide the details of your inspections plan below.
The following types of subsidized child care providers/programs are subject to this requirement:

- **Legally-Exempt Child Care**
  - In-Home
  - Family Child Care
  - Group programs not operating under the auspices of another government agency
  - Group programs operating under the auspices of another government agency

- **Licensed or Registered Child Care**
  - Family Day Care
  - Registered School-Age Child Care
  - Group Family Day Care
  - Day Care Centers
  - Small Day Care Centers

---

**Appendix N: District Options**

Districts have some flexibility to administer their child care subsidy programs to meet local needs. Districts must complete Question I below. Note that all districts must complete the differential payment rate table in Appendix T.

**I. The district selects:**

- None of the options below
- One or more of the options below

**II. Districts must check the options that will be included in the district’s county plan and complete the appropriate appendix for any option checked below.**

- 1. The district has chosen to establish funding set-asides for NYSCCBG (complete Appendix O).
- 2. The district has chosen to use Title XX funds for the provision of child care services (complete Appendix P).
- 3. The district has chosen to establish additional local standards for child care providers (complete Appendix Q).
- 4. The district has chosen to make payments to child care providers for absences (complete Appendix R).
- 5. The district has chosen to make payments to child care providers for program closures (complete Appendix S).
6. The district has chosen to pay for transportation to and from a child care provider (complete Appendix T).

7. The district has chosen to pay a differential rate for licensed or registered child care providers that have been accredited by a nationally recognized child care organization (complete Appendix T).

8. The district has chosen to pay a differential rate above the required 5% minimum differential rate for child care services during non-traditional hours (complete Appendix T).

9. The district has chosen to pay a differential rate for child care providers caring for children experiencing homelessness above the required minimum differential rate (complete Appendix T).

10. The district has chosen to pay a differential rate in excess of the 25% maximum differential rate for child care providers that qualify for multiple differential rates to allow sufficient access to child care providers or services within the district (complete Appendix T).

11. The district has chosen to pay up to 75% of the enhanced market rate for legally-exempt family and in-home child care providers who have completed 10 hours of training, which has been verified by the Legally-Exempt Caregiver Enrollment Agency (complete Appendix T).

12. The district has chosen to pay an enhanced market rate for eligible legally-exempt group child care programs that meet required health and/or training requirements (complete Appendix T).

13. The district has chosen to pay for child care services while a caretaker who works the second or third shift sleeps (complete Appendix T).

14. The district has chosen to make payments to child care providers who provide child care services exceeding 24 consecutive hours (complete Appendix U).

15. The district has chosen to include 18-, 19- or 20-year-olds in the Child Care Services Unit (complete Appendix U).

16. The district requests a waiver from one or more regulatory provisions. Waivers are limited to those regulatory standards that are not specifically included in law (complete Appendix U).

17. The district has chosen to pay for breaks in activity for low income families (non-public assistance families) (complete Appendix U).

18. The district has chosen to use local equivalent(s) of OCFS required form(s). Prior to using a local equivalent form the district must obtain OCFS, Division of Child Care Services (DCCS) written approval. Any previous approvals for local equivalent forms will not be carried forward into this county plan. Therefore, any local equivalent forms a district wishes to establish or renew must be included in this plan and will be subject to review and approval by OCFS.

List below the names and upload copies of the local equivalent form(s) that the district would like to use.

19. The district elects to use the OCFS-6025, Application for Child Care Assistance. The local district may add the district name and contact information to the form.

Appendix O: Funding Set-Asides

I. Total NYSCCBG Block Grant Amount, Including Local Funds
Describe the rationale behind specific set-aside amounts from the NYSCCBG (e.g., estimated number of children) for each category.

Appendix P: Title XX Child Care

1. Enter the projected total of Title XX expenditures for the plan’s duration: $

Indicate the financial eligibility limits (percentage of State Income Standard) your district will apply based on family size. Maximum reimbursable limits are 275% for a family of one or two, 255% for a family of three, and 225% for a family of four or more. Districts that are utilizing Title XX funds only for child protective and/or preventive child care services must not enter financial eligibility limits as these services are offered without regard to income.

2. Programmatic Eligibility for Income Eligible Families (check all that apply)

☐ Employment
☐ Seeking employment
☐ Homelessness
☐ Education / training
☐ Illness / incapacity
☐ Domestic violence
☐ Emergency situation of short duration
☐ Participating in an approved substance abuse treatment program

3. Does the district apply any limitations to the programmatic eligibility criteria?

☐ Yes
☒ No

If yes, describe eligibility criteria:

4. Does the district prioritize certain eligible families for Title XX funding?

☐ Yes
☒ No

If yes, describe which families will receive priority:

5. Does the district use Title XX funds for child care for open child protective services cases?

☒ Yes
☐ No

6. Does the district use Title XX funds for child care for open child preventive services cases?

☐ Yes
☐ No

Appendix Q: Additional Local Standards for Child Care Providers

The district may propose local standards in addition to the State standards for legally-exempt providers who will receive child care subsidies issued by the district. This appendix must be completed for each additional local standard that the district wants to implement.

The district must coordinate with the local Enrollment Agency, including, but not limited to:

Erie County: Child Care
• Informing the Enrollment Agency of the intent to request an additional standard.
• Developing the stepwise process referenced in Question 5.
• Ensuring that no significant burden of work shall be incurred by the Enrollment Agency as a result of the additional local standard, unless such work is addressed in a separate contract or a formal agreement is in place, which are referenced in Question 3.
• Sharing any consent/release form that may be required.
• Keeping the Enrollment Agency informed of the approval status.

1. Select the additional local standard that will be required of child care providers/programs.

   ○ Verification, using the district's local records, that the provider has given the caretaker complete and accurate information regarding any report of child abuse or maltreatment in which he or she is named as an indicated subject
   ○ Local criminal background check
   ○ Require providers caring for subsidized children for 30 or more hours a week participate in the Child and Adult Care Food Program (CACFP).
   
   Note that districts are required to notify the Enrollment Agency, using the OCFS-2114, District Notification to Legally-Exempt Caregiver Enrollment Agency, of all providers on the referral list for whom the requirement is "not applicable."

   ○ Site visits by the district
   ○ Other
   
   Please describe:

2. Check below the type of child care program to which the additional local standard will apply and indicate the roles of the persons to whom it will apply in cases where the standard is person-specific.

   ✓ Legally-exempt family child care program
     ✓ Provider
     ✓ Provider's employee
     ✓ Provider's volunteer
     ✓ Provider's household member age 18 or older

   ✓ Legally-exempt in-home child care program
     ✓ Provider
     ✓ Provider's employee
     ✓ Provider's volunteer

   □ Legally-exempt group provider / program not operating under the auspices of another government agency
     □ Provider / director
2a. Exceptions: There may be instances when the district may be unable to enact the additional standard, such as, the applicable person may reside outside of the district’s jurisdiction, or the site of care may not be located within the district. In such cases, the district may create an exception to the applicability stated above.

Note: The Child Care Facility System cannot track such exceptions and, therefore, the district remains responsible for notifying the applicable Enrollment Agency, using the OCFS-2114, District Notification to Legally-Exempt Caregiver Enrollment Agency, that an additional standard is “not applicable” to the specific provider/person named on the referral list.

Place a check mark below to show any exception to the applicability of this Local Additional Standard to programs or roles previously identified.

- a. The district will not apply this additional local standard when the applicable person resides outside of the subsidy-paying district.

- b. The district will not apply this additional local standard when the program’s site of care is located outside of the subsidy-paying district.

- c. The district will not apply this additional local standard when the informal provider is younger than 18 years of age.

3. Districts are responsible for implementation of the additional local standard unless they have a formal agreement or contract with another organization. Check the organization that will be responsible for the implementation of the additional local standard.

- Local social services staff
  Provide the name of the unit and contact person:
  Day Care Unit, Patricia Musial

- Contracted agency (must correspond to Appendix K, Question 3b)
  Provide the name of the agency and contact person:

Note: Costs associated with the additional local standard cannot be passed on to the provider.

4. Are there any fees or other costs associated with the additional local standard?

- Yes
- No

Note: Costs associated with the additional local standard cannot be passed on to the provider.

5. Describe, in chronological order, the steps for conducting the additional local standard. Include

Erie County: Child Care
how the district will retrieve referrals from CCFS, communicate with providers and other applicable persons, determine compliance with the additional local standard, inform the Enrollment Agency whether the additional local standard has been “met,” “not met” or is “not applicable” and monitor its timeliness. Include all agencies involved and their roles. Note that the district’s procedures must be in accordance with 12-OCFS-LCM-01.

Erie County Department of Social Services (ECDSS) will arrange for a background check of criminal convictions to be conducted for the purpose of verifying that the individuals checked in question #2 above have accurately reported their criminal convictions history to the Enrollment Agency (EA). The checks will be conducted by the local district utilizing the Office of Court Administration.

The district will provide an OCFS Approved District Created Criminal Background Check Authorization and Release Form in the enrollment package, which will authorize the local criminal history database check. The individuals checked in question #2, will be required to complete and sign the Criminal Background Check Authorization and Release Form, allowing ECDSS, its agents or employees, to conduct a criminal background check to retrieve criminal convictions information. The individual checked in question #2 will be instructed to return to the EA, the completed and signed Criminal Background Check Authorization and Release Form. If the individual checked in question #2 refuses to complete, sign, and/or submit the Criminal Background Check Authorization and Release Form, the enrollment package will be considered incomplete. As a result, the enrollment process cannot move forward and the enrollment package will be withdrawn by the EA in accordance with OCFS policy.

To initiate the additional standards check, per 12-OCFS-LCM-01, the Child Care Facility System will automatically generate the referral for the applicable child care program types and individual roles. Designated district staff will run the LE Additional Local Standard Referral List report in CCFS to obtain the list of persons subject to the additional local standard.

The district will conduct the check utilizing the Office of Court Administration. If the search results in the findings of a misdemeanor and/or felony conviction/s, the child care unit staff will provide the conviction information to the EA. In accordance with the Guide to Enrollment, the EA will evaluate any discrepancies of the conviction/s and the sworn statement of the applicable individual(s).

The district provides detailed information with the EA to that of crimes where there was a subsequent conviction using the OCFS 2114 for consideration in making full enrollment decisions. The EA compares the results with the sworn statement submitted by the provider to the EA and will take action in accordance with OCFS policy.

In accordance with the Guide to Enrollment, the EA will evaluate any discrepancies of the conviction/s and the sworn statement of the applicable individual(s). In accordance with 12-OCFS-LCM-01, For each person referred, Erie County Department of Social Services will complete the OCFS-2114, District Notification to Legally-Exempt Caregiver Enrollment Agency, and send it to the applicable Enrollment Agency to notify the Enrollment Agency of the determination of: “Met”, “Not Met” or “Not Applicable

The standard is “met” when:

• The Criminal Background Check Authorization and Release Form is completed, signed by those that are required to do so and submitted to the EA

AND

• The criminal background check is conducted for all the applicable parties.

The standard is considered to be “not met” when:

• The Criminal Background Check Authorization and Release Form is not completed, signed or submitted to the Enrollment Agency

AND/OR

• The criminal background checks cannot be completed due to the lack of cooperation of the provider or those who are required to participate according to their roles as indicated in question #2

The standard is considered to be “not applicable” when:
• the applicable person resides outside of the subsidy-paying district.
• the program’s site of care is located outside of the subsidy-paying district.
• the informal provider is younger than 18 years of age.

6. Indicate how frequently the additional local standard will be applied. Answer both questions.

1. The Standard will be applied:
   - At initial enrollment and re-opening
   - At each re-enrollment

2. The district will assess compliance with the additional local standard:
   - During the enrollment review period, and the district will notify the Enrollment Agency of the results within 25 days from the E-Notice referral date.
   - During the 12-month enrollment period, and the district will notify the Enrollment Agency of the results promptly. Note that this option is always applicable to an additional local standard requiring participation in CACFP.

7. Describe the justification for the additional local standard in the space below.

The additional information gained through the local criminal history check will be shared with the Enrollment Agency to provide them with an informed background on the potential provider when making their final full enrollment decision.

Appendix R: Payment to Child Care Providers for Absences

1. The following providers are eligible for payment for absences (check all that are eligible):
   - Day care center
   - Group family day care
   - Family day care
   - Legally-exempt group
   - School-age child care

2. Our district will only pay for absences to providers with which the district has a contract or letter of intent.
   - Yes

Erie County: Child Care
3. Base Period:

- 3 months
- 6 months

4. Number of absences allowed per child during base period:

<table>
<thead>
<tr>
<th>Period</th>
<th>Routine Limits (# of days)</th>
<th>Extenuating Circumstances (# of days)</th>
<th>Total Number of Absences Allowed (# of days)</th>
</tr>
</thead>
<tbody>
<tr>
<td>In a Month</td>
<td>12</td>
<td>3</td>
<td>15</td>
</tr>
<tr>
<td>Base Period</td>
<td>12</td>
<td>8</td>
<td>20</td>
</tr>
</tbody>
</table>

5. List reasons for absences for which the district will allow payment:

Court appointments related to provision of preventive, foster care, adoption, child protective services, or other needs set forth in the child's Service's Plan; child has an illness, handicap or other condition that requires medical care or treatment; child's family is homeless and that homelessness necessitates the child's absence from day care.

6. List any limitations on the above providers’ eligibility for payment for absences:

Provider must be contracted with Erie County Department of Social Services

Note: Legally-exempt family child care and in-home child care providers are not eligible to receive payment for absences.

Appendix S: Payment to Child Care Providers for Program Closures

1. The following providers are eligible for payment for program closures:

- [ ] Day care center
- [ ] Group family day care
- [ ] Family day care
- [ ] Legally-exempt group
- [ ] School-age child care

2. The district will only pay for program closures to providers with which the district has a contract or letter of intent.
3. Enter the number of days allowed for program closures (maximum allowable time for program closures is five days):

4. List the allowable program closures for which the district will provide payment.

Note: Legally-exempt family child care and in-home child care providers are not allowed to be reimbursed for program closures.

Appendix T: Transportation, Differential Payment Rates, Enhanced Market Rate for Legally-Exempt Providers, Legally-Exempt Programs, and Sleep

1. Are there circumstances where the district will reimburse for transportation?

   - No
   - Yes

2. If the district will reimburse for transportation, describe any circumstances and limitations the district will use to reimburse. Include what type of transportation will be reimbursed (public and/or private) and how much your district will pay (per mile or trip). Note that if the district is paying for transportation, the Program Matrix in the Welfare Management System (WMS) should reflect this choice.

II. Differential Payment Rates

1. Districts must complete the Differential Payment Rate Percent (%) column in the table below for each of the four (4) differential payment rate categories. For the two (2) categories that require a state minimum five percent (5%) differential payment rate, the district must enter "5%" or, if it chooses, a higher rate up to 15%.

   The other two (2) differential payment rate categories in the table below are optional. If the district chooses not to set differential payment rates, the district must enter zero. If the district chooses to set a differential payment rate, enter the appropriate percentage up to 15 percent (15%). Note that if the district selects a differential payment rate for nationally accredited programs, then that rate must be in the range of five percent (5%) to 15 percent (15%).

<table>
<thead>
<tr>
<th>Differential Payment Rate Category</th>
<th>Differential Payment Rate Percent</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homelessness: Licensed and Registered Providers State required minimum of 5%</td>
<td>5%</td>
<td>Enter a percentage (%): 5% to 15%. (Must enter at least 5%)</td>
</tr>
</tbody>
</table>
2. Generally, differential payment rates may not exceed 25% above the applicable market rate or actual cost of care. However, a district may request a waiver from the Office to establish a payment rate that is in excess of 25% above the applicable market rate upon showing that the 25% maximum is insufficient to provide access within the district to child care providers or services that offer care addressing more than one of the differential payment rate categories. However, if your district wants to establish a payment rate that is more than 25% above the applicable market rate, describe below why the 25% maximum is insufficient to provide access to such child care providers or services.

III. Increased Enhanced Market Rate for Legally-Exempt Family and In-Home Child Care Providers

1. The enhanced market rate for legally-exempt family and legally-exempt in-home child care providers who have completed 10 or more hours of training annually is a 70% differential applied to the market rates established for registered family day care. Indicate if the district is electing to establish a payment rate that is in excess of the enhanced market rate for legally-exempt family and in-home child care providers who have completed 10 or more hours of training annually and the training has been verified by the legally-exempt caregiver enrollment agency.

   - No
   - Yes

2. If yes, indicate the percent (71%–75%), not to exceed 75% of the child care market rate established for registered family day care.

   %

IV. Enhanced Market Rates for Legally-Exempt Group Child Care Programs

Answer both questions:

1. Indicate if the district is electing to establish an enhanced market rate for child care services provided by legally-exempt group child care programs that have prepared an approved health care plan and have at least one caregiver in each classroom with age appropriate cardiopulmonary resuscitation (CPR) certification and the enhanced requirements have been verified by the enrollment agency.

   - No
   - Yes

If yes, indicate the percent (76%–81%), not to exceed 81% of the applicable market rate for day care centers.

   %
2. Indicate if the district is electing to establish an enhanced market rate for child care services provided by legally-exempt group child care programs when, in addition to the training required in 18 NYCRR §415.4(f), the caregiver has completed an approved course and a minimum of 15 hours of approved training annually and each employee with a caregiving role completes a minimum of 5 hours of approved training annually and the enhanced requirements have been verified by the enrollment agency.

- No
- Yes

If yes, indicate the percent (76%–81%), not to exceed 81% of the applicable market rate for day care centers.

% 

If a district chooses to establish both legally-exempt group child care enhanced rates and a program is eligible for both enhanced rates, then the enhanced market rate must be based on the percentages selected for each individual market rate, up to a maximum of 87%.

V. Sleep

1. Does the district choose to pay for child care services while a caretaker that works a second or third shift sleeps?

- No
- Yes

2. The following describes the standards the district will use to evaluate whether to pay for child care services while a caretaker that works a second or third shift sleeps, as well as any limitations pertaining to payment:

3. Indicate the number of hours allowed by your district per day (maximum number of hours allowed is eight).

Appendix U: Child Care Exceeding 24 Hours, Child Care Services Unit, Waivers, and Breaks in Activities

I. Child Care Exceeding 24 Hours

1. Child care services may exceed 24 consecutive hours when such services are provided on a short-term emergency basis or in other situations where the caretaker’s approved activity necessitates care for 24 hours on a limited basis. Check below under what circumstances the district will pay for child care exceeding 24 hours.

- On a short-term or emergency basis

Erie County: Child Care
Page 23
2. Describe any limitations on the payment of child care services that exceed 24 consecutive hours.

II. Child Care Services Unit (CCSU)

1. Indicate below if your district will include 18-, 19-, or 20-year-olds in the CCSU for determining family size and countable family income.

   a. The district will include the following in the CCSU (check all that apply)

      □ 18-year-olds
      □ 19-year-olds
      □ 20-year-olds

   OR

   b. The district will only include the following in the CCSU when it will benefit the family (check all that apply)

      □ 18-year-olds
      □ 19-year-olds
      □ 20-year-olds

2. Describe the criteria your district will use to determine whether or not 18-, 19-, or 20-year olds are included in the CCSU.

III. Waivers

1. Districts have the authority to request a waiver of any regulatory provision that is non-statutory. The waiver must be approved by OCFS before it can be implemented. Describe and justify why your district is requesting a waiver.

   Waivers of regulatory provisions that are non-statutory for the Early Head Start-Child Care Partnership program. To create strong partnerships with the child care provider community to expand the number of high quality slots for infants and toddlers. The focus for the partnership is to promote school readiness by providing family-centered services for low income children by enhancing their cognitive, social and emotional development and by providing a high quality early childhood experiences and continuity of services.

   **Family co-pay:** Waive 18 NYCRR § 415.3(e) which requires that each family receiving child care services, with the exception of a family on temporary assistance, pay a family share based on income. This waiver pertains only to families in receipt of child care in lieu of Temporary Assistance and only for the child(ren) participating in an Early Head Start-Child Care Partnership program.

   **Flexibility in eligibility periods:** Waive 18 NYCRR § 404.1(d) which requires that redetermination be made not less than every 12 months. This waiver will allow the district to match child care eligibility periods to the Early Head Start-Child Care Partnership program period regardless of disruption in the parent’s eligibility. This waiver only applies to the child(ren) participating in an Early Head Start-Child Care Partnership program.
Care Partnership program.

**Flexibility in reporting changes in family circumstances:** Waive 18 NYCRR § 415.3(b) which requires applicants and recipients to report immediately any change in financial circumstances, living arrangements, employment, household composition, or other circumstances that affect the family’s need or eligibility for child care services. Erie County will continue to require clients to report income documentation/verification requirements and will determine on a case by case situation if this waiver would pertain only if the parent only has a child participating in an Early Head Start-Child Care Partnership program.

**IV. Breaks in Activities**

1. **Districts may pay for child care services for low-income families during breaks in activities either for a period not to exceed two weeks or for a period not to exceed four weeks when child care arrangements would otherwise be lost and the subsequent activity is expected to begin within that period.** If your district will pay for breaks in activities, indicate below for how long of a break that the district will pay for (check one):

   - [ ] Two weeks
   - [ ] Four weeks
   - [ ] The district will not pay for breaks in activities

2. **Districts may provide child care services while the caretaker is waiting to enter an approved activity or employment or on a break between approved activities.** The following low-income families are eligible for child care services during a break in activities (check all that are eligible):

   - [ ] Entering an activity
   - [ ] Waiting for employment
   - [ ] On a break between activities
Non-Residential Domestic Violence Services

In accordance with the Domestic Violence Prevention Act and subsequent budget provisions, districts are required to provide non-residential services to victims of domestic violence, either directly or through a purchase of service agreement. Whether provided directly or through a purchase of service, each program must be approved through the Child and Family Services Plan process.

Non-residential domestic violence programs must comply with 18 NYCRR Part 462.

Please provide the information required below.

Indicate if Plan has Changed

Please review your Plan from last year, and then indicate if you will be making any changes to your Plan.

☐ I have read and acknowledge that there are no changes to the previously approved domestic violence non-residential plan. STOP HERE. Do not update any information in this section.

☐ Changes have been made to this plan. Please update as needed.

Program Information

Complete this section for every program that provides non-residential domestic violence services in the district.

To promote accuracy through the review and approval process, OCFS recommends that this section be completed by the non-residential domestic violence program.
Program Requirements

This program is intended to be a separate and distinct program specializing in services for victims of domestic violence. 70% of the clientele served must consist of victims of domestic violence and their children.

All questions must be answered

Describe how the program is separate and distinct and how it fits into the overall agency?

The Erie County District Attorney’s Office is comprised of 178 employees, 93 of whom are attorneys. The Office is divided into eleven (11) separate prosecution bureaus, one of which is the Domestic Violence (DV) Bureau. Additionally, the office has 2 victim advocacy programs employing 14 victim advocates. One of these programs is the BE SAFE (Buffalo and Erie County - Stopping Abuse in the Family Environment) Domestic Violence Advocacy Program. The BE SAFE Advocate Program is comprised of confidential victim advocates and social workers who assist survivors of domestic violence with needed services, including, but not limited to, court advocacy and accompaniment, supportive counseling, safety planning, information and referral, discussing options for filing charges, shelter, and housing. Prosecutors, investigators and support staff are also assigned to work with the BE SAFE Program.

The BE SAFE Program is a separate and distinct part of the Erie County DA’s Office. Confidential advocates cannot disclose information to the District Attorneys or other agencies without a release of information signed by the client. Services are NOT denied if a client chooses to revoke consent for the release of information or if they choose not to prosecute their abuser.

One-hundred percent (100%) of the clientele of the BE SAFE program are survivors of DV. (It is important to note that all clients receive complete access to services and counseling, regardless of their linkage to the court system. Any DV survivor can obtain services by phone or walking into the office, with or without an appointment.)

Describe the eligibility criteria for clients utilizing the services of the non-residential domestic violence program?

BE SAFE serves any person who identifies as an adult survivor of domestic/intimate partner violence. Services are generally available during normal business hours, from Monday through Friday, 8:30 a.m. to 5:00 p.m. at the BE SAFE Program. Services are by phone, appointment, walk-in, or through Buffalo City Court and Erie County Court. Each survivor who frequents the BE SAFE Program receives services from a social worker or victim advocate, regardless of whether they have a criminal case or are interested in pressing charges.

One-hundred percent of BE SAFE's clientele are victims of domestic or intimate partner violence. Services are provided FREE of charge and individuals will not be denied services based on race (actual or perceived), creed, color, national origin, sexual orientation, gender identity or expression, military status, sex, marital status, or disability. The minimum eligibility criteria needed by the BE SAFE program for services to begin is a simple verbal
statement from an individual stating that s/he is a survivor of domestic/intimate partner violence (DV). BE SAFE does not discriminate by providing sex-segregated or sex-specific services.

Describe how special needs populations, including non-English speakers, disabled, and hearing impaired, are accommodated?

BE-SAFE is dedicated to providing culturally appropriate services and has an on-site bi-lingual Spanish-speaking advocate. When needed, BE SAFE will arrange for professionals from other local agencies, such as Community Services for Every1!, to assist longer-term needs of clients who have physical or mental disabilities. The office is handicapped accessible and sign language interpreters are available on an on-call basis through other local agencies, such as Deaf Access Services. BE SAFE Advocates also utilize 7-1-1 NY Relay Service to place outreach calls to survivors who are Deaf and Hearing impaired, and the BE SAFE office is equipped with a Captioned Telephone for use by those with hearing impairments. Likewise, BE SAFE coordinates with advocates and interpreters from the International Institute of Buffalo to serve other non-English speaking clients. Language Line is utilized frequently for phone outreach. The BE SAFE office is equipped with laminated language cards from Language Line so that clients who walk in seeking services can easily communicate what language services they will need. The BE SAFE Program also has a bi-lingual Spanish-speaking advocate on staff. Additionally, the BE SAFE Program devised brochures describing their services which have been translated into: Spanish, Burmese, Karen, Kirundi, Arabic, Nepali, Somali, and Vietnamese. BE SAFE is will also be looking to expand accessibility by providing Video Remote Interpreting Service.

Explain how the location(s) where the non-residential domestic violence services are provided ensures the safety and confidentiality of the persons receiving services and their identities.

*DO NOT PROVIDE LOCATION ADDRESS(ES)*

BE SAFE Advocates work with all clients and walk-ins, not just those individuals with criminal cases. The BE SAFE Office has a separate entrance and waiting area apart from the ECDA’s Office, as well as a separate office/hotline number.

Due to the courts being a main entry point for clients entering the DV system, BE SAFE makes every attempt to ensure a comprehensive approach and coverage. When BE SAFE Advocates are working with clients going through the courts, every effort is made to discuss a client’s situation privately in the BE SAFE Office. While outside of the courtroom or office, advocates make every attempt to steer confidential discussions to a more private area. Advocates are aware of their surroundings and will always ask clients if there are concerns regarding location, certain situations or individuals. While in court, Court Officers are available to secure the abuser in the courtroom while allowing the victim to leave separately with a “head start”. Court Officers can also escort victims out to the parking ramp. In addition, an escort service (to and from the building) is available from the Confidential Criminal Investigators of the District Attorney’s Office.

BE SAFE Advocates are specifically trained to work with clients on the issue of safety planning within the courts and emotional trauma safety planning for the court experience. With consent, Advocates will liaise with Assistant District Attorneys to attempt to limit the survivor’s exposure to the perpetrator and the court process.

BE SAFE Advocates maintain confidential, electronic case files for each client and every service is documented, as well as length of time spent with each client. The BE SAFE Program utilizes a new, one-of-a-kind, confidential case management system software that is tailored to the needs and services of domestic violence survivors, and ensures more detailed records-keeping. The current program is password protected and accessible only to advocates and not attorneys. The new database also has a built-in Danger Assessment and specialized prompts for advocates to better track risk and safety concerns. The BE SAFE office stores copies of referrals and hard copies of the Consent forms signed by clients in a locked cabinet and the key is available only to the BE SAFE advocates. In compliance with non-residential regulations, these documents will be kept for up to six years.

During the intake process, Advocates will explain BE SAFE services, information about the BE SAFE Program’s confidentiality policy and practices, their rights under such policy, and how advocates must obtain written permission (i.e. Release of Information) in order to share information with other parties. During intake and client meetings, the survivor may choose how much and what information they would like to provide.

Confidentiality extends to all current and former clients. If a client has an active criminal case and will be working with the District Attorneys or other service providers in any capacity, Advocates will explain that they cannot disclose information to any party without a release of information signed by the client. It is the policy of the BE SAFE Program to maintain confidentiality (to the extent possible under state and federal law) at all times while communications, observations and information are made by or about survivors. All clients are informed that the information they divulge will be accessible to other BE SAFE Advocates in the case of an absent staff member and

**Erie County:** Non-Residential Domestic Violence Services
in order to provide a continuum of care. A client will not be denied services should they decide not to sign a Release of Information. BE SAFE Advocates are informed that their continued employment is contingent on adherence to all privacy, information sharing, and confidentiality policies. Confidentiality policies and procedures are reviewed with all new staff, volunteers and interns before they begin work at the BE SAFE Program. Periodic training for all staff on the confidentiality policies and procedures is conducted. Information shared with the BE SAFE Advocates is confidential until circumstances with a case force a mandated reporter to contact Child Protective Services, Adult Protective Services, or Crisis Services/police if the client has expressed suicidal/homicidal thoughts. BE SAFE Advocates explain to clients how any information shared could also be shared again by third parties and the ramifications of this consent.

Child & Family Services, Haven House

**Program Name (if different):**

**Business Address:**

P.O. Box 451, Ellicott Station, Buffalo, NY 14205

**Contact Person:**

Kimberly Kadziolka, Director of Domestic Violence Intervention

**Telephone number:**

716-335-7310

**E-mail Address:**

kkadziolka@cfsbny.org

**Erie County:** Non-Residential Domestic Violence Services
Program Requirements

This program is intended to be a separate and distinct program specializing in services for victims of domestic violence. 70% of the clientele served must consist of victims of domestic violence and their children.

All questions must be answered

Describe how the program is separate and distinct and how it fits into the overall agency?

The non-residential domestic violence (DV) services program provided by at Haven House is called the Counseling and Advocacy Program (CAP). It is located on the same campus as the shelter and transitional housing, but in a separate and private area of the building. Only domestic violence services are provided at this confidential location. CAP receives referrals from the Haven House 24 hour hot-line, as well as from additional community referral sources. 100% of CAP clients are victims/survivors of domestic violence.

Haven House CAP is one program in a continuum of services provided by Child & Family Services. The services provided by CAP are consistent with the mission and vision of Child & Family Services, to "strengthen families and promote the wellbeing of children through prevention, intervention, education and advocacy." Residential and nonresidential services to victims of DV are organized under "one roof" within three distinct cost centers. Haven House has a rich history in the community and serves a very specialized population, but it also works very collaboratively with the other programs offered at Child & Family Services. For instance, clients may utilize the Family Mental Health Center to address additional mental health needs, and children of clients may benefit from in-home preventive services.

Describe the eligibility criteria for clients utilizing the services of the non-residential domestic violence program?

Haven House provides services to victims of domestic violence and their children up to age 18. The minimum requirement for services is a statement documenting that she or he is a victim of domestic violence. The majority of CAP clients are either complainants in a criminal domestic violence incident or petitioners in a Family Offense matter in Family Court. In addition, counseling clients complete a Danger Assessment with their counselor, which defines the level of risk each client may be facing. The core services are provided throughout Erie County in several confidential locations. Demographically, CAP clients represent the full range of the ethnic/racial/income/age composition of Erie County's population, and attempt is made to ensure that CAP staff reflects a the ethnic composition of the community served. Haven House is collaborating with the LGBT DV Committee and the Pride Center of WNY to serve lesbian, gay, bisexual, and trans gendered victims of DV.

Fee Policies and Procedures:
All Haven House services in the Counseling and Advocacy Program are provided free of charge. Clients with Special Needs/non-English speaking clients Non-English Speaking:
• Several Haven House staff are bi-lingual, offering fluency in Spanish, French and Dutch languages.
• Haven House has a long-standing partnership with the International Institute of Buffalo, utilizing their interpretation services for non-English speaking clients and Journey’s End Refugee Services for document translation.
• Haven House can utilize the Language Line either remotely or at the main site on a 24/7 basis.
• In Family Court, an interpreter may be available through the court - if an interpreter is not available, Haven House is able to access the Language Line at Erie County Family Court.
• Written materials about domestic violence, including safety planning, is available in all languages on the internet Haven House Safety Plan has been translated into Spanish, Burmese and Arabic.

Physically Handicapped/Visually Impaired:
• All offices used by CAP are completely handicapped-accessible and accessible for those with visual impairments.

Hearing/Speech Impaired:
• For hearing impaired callers, HH is able to use the TYY/TDY services, and/or inform callers that they may bring a support person to their appointment to interpret or sign for them.
• Child and Family Services has a contract with Deaf Adult Services for an interpreter to be available as-needed.

Describe how special needs populations, including non-English speakers, disabled, and hearing impaired, are accommodated?

Explain how the location(s) where the non-residential domestic violence services are provided ensures the safety and confidentiality of the persons receiving services and their identities.

*DO NOT PROVIDE LOCATION ADDRESS(ES)*

Erie County: Non-Residential Domestic Violence Services
Page 6
The main Haven House location is confidential (street address is not published), secure and locked, permitting entry only to those who have scheduled appointments. Unless there are unusual circumstances, clients are advised to come to their appointments alone and to keep the meeting place confidential. The primary location of CAP has an extensive security system in place. Haven House CAP reception area is HIPAA compliant, and confidential information is kept in locked file cabinets in locked offices. All staff are trained in responding to emergencies, such as abusers on premises. In addition, the Haven House phone number is a private blocked number that is not displayed on Caller IDs or cell phones.

CAP staff located in public agencies such as the courts or police stations have a private locked office. They also work closely with police agencies to assist with any safety issues for clients, including escorting if necessary. All individuals entering most court buildings are required to pass through metal detectors and are screened by Court Officers. Police and Court Officers are present to provide security assistance if needed for the clients and advocates working in police departments and court buildings. For the off-site services, client records are kept in locked filing cabinets in locked offices, accessible only by authorized Haven House personnel.

No information about a client is ever released without the client's consent, unless there are concerns about child safety or lethality towards self/others. Clients are given written HIPAA Privacy Notices at their initial meeting with an advocate or counselor and the CAP Confidentiality Policy is reviewed orally.

HH CAP complies with the extensive Confidentiality Policies and Procedures of Child & Family Services. Confidentiality is an essential aspect of staff training, and confidentiality issues are discussed at almost every CAP Team Meeting. If clients wish, they may receive services anonymously.

Although community members are able to contact Haven House through email via the Child & Family Services website, staff only provide very basic information in this manner generally, individuals will be directed to contact the Haven House Hotline for personal safety planning and they will be advised about the risks involved with safety planning via email and social media. Haven House does not maintain a presence on social media other than the Child and Family Services website and Facebook.

All questions must be answered

Describe how the program is separate and distinct and how it fits into the overall agency?

Part of a county-wide police agency - Unit Coordinator is a police officer; Advocates are available in police substations and courts throughout Erie County; Seneca-speaking advocate on staff; Liaison and advocate to Tribal Courts; Crisis Services representative/advocate on site; Team Leader for Veteran's Court; Collaborates with the District Attorney's Office; Provides transportation to court if necessary; Provides educational presentations and training to law enforcement agencies; Strategic partner in the development of the Tribute Garden (Isleview Park in Tonawanda, NY) for victims of domestic violence; Established two women's coffee hours discussing a myriad of issues, especially domestic violence (one in Lancaster, NY and the other in Grand Island, NY); Presentations in local schools regarding bullying, cyber-bullying, and teen dating violence; Presentations on Safety Awareness for the elderly throughout Erie County; Receives training from NYS OPDV in Albany, NY.

Describe the eligibility criteria for clients utilizing the services of the non-residential domestic violence program?

The unit staff responds to all domestic violence reports handled by police officers in areas policed by officers of the Erie County Sheriff's Office. All victims reported are eligible for services provided by the Erie County Sheriff's Office Domestic Violence Unit. Other individuals are referred through outside agencies such as schools and outreach programs that cannot provide domestic violence advocacy services. The Domestic Violence Advocates provide support, assistance, and necessary referrals to victims with special needs by ensuring their immediate safety and provide assistance in accessing required and needed services.

Individuals with special needs are serviced by our D.V. Unit by using existing resources available to the Sheriff's Office in the community. Our offices are handicap accessible as are all court buildings. We accommodate these individuals as we would those who do not present any physical disabilities, ensuring that they obtain the services needed for their safety and the safety of their children. If transportation is an issue, we would contact or provide the individual with the local transportation information in their area to address their transportation needs.

We have a Seneca Speaking D.V. Advocate and a Spanish Speaking D.V. Advocate on staff. If an individual requires
an interpreter for any another language or if the individual is hearing impaired, we then engage the services of the International Institute located at 864 Delaware Avenue in Buffalo, NY. They provide translation/interpretation and sign language services for the Sheriff’s Office free of charge.

Describe how special needs populations, including non-English speakers, disabled, and hearing impaired, are accommodated?

Explain how the location(s) where the non-residential domestic violence services are provided ensures the safety and confidentiality of the persons receiving services and their identities.

*DO NOT PROVIDE LOCATION ADDRESS(ES)*

Advocates offer to meet clients in a public setting of their choice so as not to be conspicuous. Advocates wear plain clothes or office attire. Specific locations are available should a client prefer to meet in an office setting. Offices are located in the substations, court buildings, and our main office at 134 W. Eagle Street. The advocates do everything in their power to ensure the safety of their client.

**Program Requirements**

This program is intended to be a separate and distinct program specializing in services for victims of domestic violence. 70% of the clientele served must consist of victims of domestic violence and their children.

All questions must be answered

Describe how the program is separate and distinct and how it fits into the overall agency?

Crisis Services (CS) established in 1968, is a private, not for profit mental health, human service and crime victim service agency with a mission dedicated to promoting the health, safety and well-being of the community through prevention, education, immediate intervention and access to community wide resources 24 hours a day. CS employs 68 Full Time and 17 Part Time staff and maintains a core of 55 trained volunteers. Crisis Services is comprised of 3 main departments: the Crisis Counseling Program; Emergency Mental Health Response Services and; the Advocate Program.

Crisis Services is the most comprehensive crisis center in Western New York area and offers the only 24 Hour Hotline of its kind in Erie County. The Crisis Services Advocate Program is a New York State Approved Non Residential Domestic Violence Service Provider as well as certified as the New York State Department of Health Designated Rape Crisis Center for Buffalo and Erie County.

The hub of our agency is our 24-hour Crisis Counseling Program that provides immediate response to all callers, **Erie County:** Non-Residential Domestic Violence Services
The Advocate Program provides services to survivors of domestic violence, family violence, elder abuse and sexual assault. The program averages at least 75% of the caseload as being survivors of domestic violence. The program also provides training and coordination of most Sexual Assault Nurse Examiners in Erie County. Since Sept 30, 2010, the Advocate Program has also been the proud operator of the NYS Domestic and Sexual Violence Hotline as well as the local Domestic Violence Helpline since 2012. Advocate staff have dedicated office space at the main agency address and there are also staff that are co-located at various locations including the Buffalo Police Department, the Town of Tonawanda Police Department and the Erie County Sheriff's office.

Describe the eligibility criteria for clients utilizing the services of the non-residential domestic violence program?

Crisis Services Advocate Program services are free to individuals in Erie County. The minimum eligibility criteria Crisis Services requires is a verbal statement from an individual currently residing within Erie County that s/he is a victim of domestic violence. Any and all victims, their family members or friends who are experiencing domestic violence are eligible for services from the Advocate Program.

Our language access plan includes use of 711/Deaf Relay for clients who are hearing impaired as well as Eriksen Translation services as language line access to be able to provide intervention for non-English speaking clients in their own language. We have service agreements with Journey's End (for face to face interpretation services) and Deaf Adult Services (for Deaf and Hard of Hearing face to face interpretation services) to utilize when needed. We also have a limited number of bilingual, Spanish and English, speaking staff. The agency's facilities are all handicapped accessible. Advocate Program staff is cross trained to assess individuals for mental health concerns and to provide appropriate linkage and/or referral. In an effort to meet the needs of our community, the agency works hard to recruit a diverse staff. Staff composition currently represents various backgrounds including male and female identified staff and staff who identify as African American, Latina and Caucasian.

Describe how special needs populations, including non-English speakers, disabled, and hearing impaired, are accommodated?

Explain how the location(s) where the non-residential domestic violence services are provided ensures the safety and confidentiality of the persons receiving services and their identities.

*DO NOT PROVIDE LOCATION ADDRESS(ES)*

Face-to-face contact with victims/survivors occurs at a variety of places throughout Erie County as long as that location is consider a safe space for the survivor and Crisis Services staff. Locations include: Crisis Services; the client's home; the home of the client's friend; a local community site; hospital emergency-rooms; various courts throughout the county; designated meeting rooms and/or staff office space at co-located agencies (e.g. Town of Tonawanda Police Department, the Erie County Sheriff's Office, Buffalo Police Department headquarters, college campuses); the Family Justice Center, and/or any other mutually safe location victims/survivors may choose.

Crisis Services confidentiality policy follows the New York State Mental Hygiene Law and Health Insurance Portability and Accountability Act (HIPPA). All staff, volunteers and board members are required to sign an agency confidentiality statement. All staff and volunteers who have direct contact with clients are required to have a background check and fingerprinting. All clients' information is maintained in designated cabinets, within a locked room, to which only authorized personnel have access. Information on clients is also maintained in a computer database that has a “lock-down” feature and only allows access by designated Advocate Program staff. When a client interacts with this program, permission about means of future contact is always requested and the program utilizes signed releases of information on a regular basis. The only time that confidentiality may be breached is when the client is at harm to self, harm to others, or it is suspected that a child is being abused or maltreated.

The Advocate Program offices are designed to maximize client convenience, safety, and confidentiality. Located on an easily accessed public bus route, there also is a separate, dedicated, lighted parking lot in front of Crisis Services. The building is locked at all times, and there is only one client entrance. All visitors must use the intercom system, and can only be accessed by a staff member unlocking the door from the inside (manually by being electronically “buzzed in”). There are closed circuit cameras outside the building that allow designated staff and managers the ability to view the parking lot, front entrance and areas around the building for enhanced safety.

Program Requirements

This program is intended to be a separate and distinct program specializing in services for victims of domestic violence. 70% of the clientele served must consist of victims of domestic violence and their children.

All questions must be answered

Describe how the program is separate and distinct and how it fits into the overall agency?

Hispanos Unidos de Buffalo, Inc. (HUB) New Hope Domestic Violence Program is located in the lower West Side of Buffalo, the heart of the Hispanic community, where we are more accessible to the Hispanic community especially in crisis situations. HUB provides specialized services to Erie County’s Hispanic community. We are the region’s foremost community based nonprofit providing low income Hispanics, immigrants and others with culturally appropriate bilingual programs addressing serious social and economic needs. We serve a completely underserved population that is most in need of help. Demographic trends indicate that this population will continue to grow. HUB offers an array of services at our location. In addition to our DV program, we have an onsite food pantry, substance abuse clinic, senior adult day care and senior recreation, health home and HIV services, and a Rapid Re-Housing Program for victims with children residing in a shelter where they receive assistance with apartment search and placement and rental assistance. DV program participants may be referred for these services depending on need. All program services at HUB available to the victims are offered in both English and Spanish. Our program and staff are recognized by: the Buffalo Police Department Domestic Violence and Sexual Assault Unit; Haven House Domestic Violence Shelter including other shelters as well; Crisis Services; New York State Hotline; City and Family Court, The Family Justice Center and the Erie County Department of Social Services (ECDSS). Collaborations with all the above makes it so much easier for HUB’s clients to obtain legal advice and restraining orders.

One hundred percent (100%) of the program’s clients are victims of domestic violence, victims ranging in the ages from 18 to 64 years, the median age being 30. Most clients are non-English speaking and receiving some form of public assistance or having no income at all, have an average between 3-4 school age children, and live in the lower West Side of Buffalo. While our primary focus is the Hispanic community we serve clients from other communities that are in need of our services. We attend to the physical safety and emotional well-being of all
HUB specifically, uses the Empowerment based approach to DV service provision which emphasizes focus on the victims’ ability to control their own decision making. Once an individual service plan is in place and their safety plan is implemented, we provide long term counseling and assistance in achieving financial and social independence. Counseling is designed to increase coping skills and self-confidence and reduce self-blame. Most of our DV victims become engaged in HUB’s additional continuum of services from our food pantry, to healthcare, parenting and housing. HUB is recognized for providing bilingual parenting classes which ultimately help the children impacted by DV. The assembling of multiple needed services, under one roof is significant because it reduces stress—and the re-traumatization of victims that Trauma Informed Care warns against.

Hispanos Unidos de Buffalo (HUB) is not an exclusive referral-only agency. HUB’s New Hope Domestic Violence Program has dedicated staff and space which includes security staff at all times inside and outside of the agency for the safety and well-being of the clients we serve. HUB’s domestic violence program provides soft hand care by navigating clients thru the courts and department of social services system (DSS), assisting clients in obtaining orders of protection and filing police reports, obtaining DSS Benefits, Social Security, and SSI. HUB’s program also includes translation and interpretation, transportation, linkages to other resources available, support group and parenting workshops where upon workshop conclusion clients receive a Certificate of Completion. HUB has a Rapid Re-Housing Program dedicated to serving domestic violence victims with children that are residing in shelters. HUB assists DV victims with apartment search/placement, rental assistance and obtaining employment. HUB also offers other services that clients may be referred to if needed such as Health Home Care, Medical appointment assistance, Substance Abuse Treatment, Specialty Care Services, Senior Services, Housing Application Assistance and Food Pantry.

Describe the eligibility criteria for clients utilizing the services of the non-residential domestic violence program?

There are no waiting lists or income qualifications to receive services. All persons are presumed eligible for services. Eligible persons are “Victims of Domestic Violence” 16 years or older and their minor children where he or she is a victim of an act that would constitute a violation of the penal law and (1) Such act(s) have resulted or could result in physical or emotional harm to the person or their child or children & (2) Such act or acts have been committed by a family member or household member.” Oral declarations of such need are sufficient to establish eligibility for DV services. Also, Hispanos Unidos de Buffalo, Inc. (HUB) is a handicapped accessible facility.

1. HUB has a very long history of providing services to non-English speakers, including the immigrant community. Though its long standing relationship with organizations such as the International Institute HUB is able to service a variety of other nationalities.

2. HUB has a variety of programs and a long history of providing services to the homeless population via the Food Pantry, Rapid Re-Housing Program, and former Transitional Supportive Housing Program.

3. Via HUB’s Preventive Service Program, we offer case management services to families deemed at risk and most of those referrals include issues of Domestic Violence as a reason for the referral to the program.

4. HUB has also serviced individuals with hearing impairments, mental health and Developmental Disabilities, and substance abuse issues.

Hispanos Unidos of Buffalo (HUB) is handicapped accessible. Our building is equipped with wide doors, an elevator, and ramp for clients with wheelchairs and other physical disabilities. HUB’s Domestic Violence staff are bilingual and fluent in both Spanish and English. We have other bilingual staff that can serve as interpreters that are fluent in Arabic, Macedonian and Ukrainian and also have a contract with the Language Line. For the hearing-impaired, staff utilizes note and pad to communicate.

Describe how special needs populations, including non-English speakers, disabled, and hearing impaired, are accommodated?

Explain how the location(s) where the non-residential domestic violence services are provided ensures the safety and confidentiality of the persons receiving services and their identities.

*DO NOT PROVIDE LOCATION ADDRESS(ES)*

Every person that enters the building must be buzzed in to get inside the building and signed in at the reception area. All entrance are completely secured in which only the staff having access in navigating throughout the building. Each department is notified that someone is waiting to see them, and then the staff person must escort them to their office and back out of the building when they leave. The sign in sheet also provides us with a
timetable of when clients or visitors come into our office. For security reasons clients that are identified that they are here to see one of the domestic violence staff, do not have to sign in and are immediately escorted into the office. No one is given information about the victim being there. Also, HUB has security personal inside and outside HUB patrolling the building and area, and security cameras placed throughout the outside of the building.

Program Requirements

This program is intended to be a separate and distinct program specializing in services for victims of domestic violence. 70% of the clientele served must consist of victims of domestic violence and their children.

All questions must be answered

Describe how the program is separate and distinct and how it fits into the overall agency?

The Family Justice Center is a unique program that provides free, one-stop wrap around services through a collaboration with several on-site and on-call partner agencies. The FJC strives to connect clients with all of the services while in the safety and security of the Center. The FJC is the only service provider in the county that is solely focused on providing the core non-residential domestic violence services. The FJC’s is headquartered in downtown Buffalo where staff and services are provided in a designated, secure space. In addition, the FJC has three satellite offices located in Grand Island, Amherst and Orchard Park, New York. Two of the satellites are located in community-owned homes and are strictly used by the FJC for domestic violence services.

The FJC staffs six domestic violence advocates that provide the core non-residential domestic violence services to clients. In addition to the core services, clients can obtain emergency orders of protection from Erie County Family Court through the agency’s web-conferencing program with the court and they can have any domestic violence related injuries photographed and documented by a nurse at the on-site Forensic Medical Unit. The Center also
has an office and a warrant clerk from the Buffalo Police Department to allow clients to file charges on-site, a patient navigator from the Center of Court Innovation who can help clients access insurance, a primary care provider as well as health education/information, an attorney from Neighborhood Legal Services who can assist them in obtaining civil legal counsel, an advocate from Community Services for Every1 to assist disabled clients in accessing available resources, a representative from HUB to assist with housing, as well as therapy dogs to provide additional support for clients.

Describe the eligibility criteria for clients utilizing the services of the non-residential domestic violence program?

All of the services provided by the Family Justice Center are free and provided to any resident of Erie County who has been identified as a victim of domestic violence. Our facilities are handicapped accessible. We have a contract with Deaf Adult Services to provide translation for hearing impaired clients, and we use Language Line Services to provide translation for non-English speaking clients. This service provides translation in more than 170 languages and dialects, around the clock. When available, the International Institute of Buffalo (IIB) will provide direct translation in other languages. IIB also provides in-service trainings annually to FJC staff and volunteers around issues of cultural competency. The Center also has a partnership with Community Services for the Developmentally Disabled which provides for an on-site advocate to assist clients with disabilities.

Describe how special needs populations, including non-English speakers, disabled, and hearing impaired, are accommodated?

Explain how the location(s) where the non-residential domestic violence services are provided ensures the safety and confidentiality of the persons receiving services and their identities.

*DO NOT PROVIDE LOCATION ADDRESS(ES)*

The Family Justice Center (FJC) has a strong Security & Confidentiality Policy. All three locations have security systems, including security cameras, that allow the FJC staff to monitor who is accessing the building. No one can gain access into the agency on their own; clients must press the door bell before entering and be “buzzed” in by FJC staff.

Once in the agency, all clients meet with a domestic violence advocate and receive all services in a private “living room.” Each client has their own “living room” to protect the confidentiality of the communication within. Each room is also equipped with a white noise machine to insure that any conversation/communication can not be heard outside of the room.

Information that clients share with the FJC is confidential, including personal identifying information such as name, address, and phone number, subject only to a client’s specific, informed, written, consent for release or sharing of confidential information. To best protect confidentiality, the FJC staff will complete a central intake assessment. The information obtained is essential in determining the services a client is requesting and protecting the confidentiality of the client.

Any information collected by the FJC cannot be shared with any of the FJC’s on-site or off-site partners without written informed consent from the client. All releases of information must be in writing, signed, dated in ink, and indicate a specified time limit for the release.

Districts are required to enter Program Matrix information into the Welfare Management System (WMS). Please note below if changes have been made to the matrix since your last annual plan, and what those changes are.

WMS allows local districts to update their Title XX Matrix by using the **Title XX Menu**. The matrix is the basis for the authorization/payment of Title XX services and for child care assistance funded under the New York State Child Care Block Grant for each local district. State income standards are established using the Federal Poverty Levels (FPL), which are updated periodically by the U.S. Department of Health and Human Services. When new FPLs are set, the state updates the WMS Title XX Services Matrix and the Title XX Matrix Update process is initiated.

Each district must designate a worker (or workers) who will receive the yearly notice that the Title XX Matrix is available for the district’s update. The district must provide the state with the worker’s name and user identification number.

Each district must update its WMS Title XX Matrix as necessary, and submit it to the state for review. Districts are not able to alter state-mandated fields. The updates are done by a district worker who has been assigned security function 180 by the district’s LAN administrator (this does not have to be the same person who receives the annual update notice). The worker who makes the update will be notified after the state reviews the district’s submission.

The following resources are available to assist with updating the Title XX Matrix in WMS:

- A Computer Based Training (CBT) is available with step by step instructions on how to complete the Appendix F Title XX Program Services Matrix. The link to the CBT is: [https://www.hslcnys.org/hslc/Content/DLT01/3748/player.html](https://www.hslcnys.org/hslc/Content/DLT01/3748/player.html)

- [Click Here for Instructions to Complete the Program Matrix](https://www.hslcnys.org/hslc/Content/DLT01/3748/player.html)

**Are there changes to the services your county intends to provide during the 2018 Child and Family Services Planning cycle?**

- [ ] Yes
- [ ] No

If there are changes to the services, please indicate what those changes are:
The list below contains common data sources often used in county planning. Please check all sources your county used in developing this plan. The list is not all-inclusive; if you have other sources of data, please indicate those as well.

407(g)(3) As required by sections 423.3(a) and 473.2(b) of the Social Services Law, discussions and meetings with public, private and voluntary organizations which are involved in adult and family and children’s services must be held to acquire their advice and consultation in the development of the plan. At a minimum, such organizations must include: health and mental health agencies; aging, legal and law enforcement agencies; societies for the prevention of cruelty to children; family court judges; youth bureaus or boards; and departments of probation.

Please list below all agencies that participated in the development of this section of the plan.

Senior Director of Youth Bureau - Social Services

DISTINGUISHING FEATURES OF THE CLASS: Under the direct supervision of the Deputy Commissioner of the division of Youth Services of the Erie County Department of Social Services, the incumbent is responsible for collaboration with juvenile justice agencies, community organizations and other government agencies providing services to youth who are at risk; alleged or adjudicated juvenile delinquents (JDs); youth alleged or adjudicated to be persons in need of supervision (PINS); and youth alleged to be or convicted as juvenile offenders (JOs), in order to divert these youth from detention or residential care and for the planning, organizing, implementation and administration of a county-wide comprehensive plan for County Youth Programs. Establishes standards and guidelines for the delivery of services to youth. This is a responsible administrative position with supervisory responsibilities for program analysts, Youth Bureau and clerical staff. Does related work as required.

TYPICAL WORK ACTIVITIES:
Collaborates with juvenile justice agencies, community organizations and other government agencies;
Executes administration of youth bureau funded programs and policies under the direction of the Deputy Commissioner of Youth Services;
Evaluates proposals, budget requests, program performance, and program performance measures with the Erie County Youth Board to make funding recommendations through the Deputy Commissioner for Youth Services and Commissioner of the Department of Social Services;
Implements performance measure evaluation model to ensure programmatic outcomes and data;
Reviews and monitors for safe reductions of special populations (e.g. violations of probation, warrants and cases awaiting placement);
Provides and ensures racial/ethnic fairness in policy and case-level decision-making;
Directs collection of all required New York State Office of Child and Family Services (OCFS) reports from all Youth Bureau funded agencies, Municipal Youth Bureau’s, and towns/villages in Erie County;
Oversight of Erie County Resource Allocation Plan (RAP) and entry of programs into New York State System;
Supervises Youth Bureau staff in program development, agency monitoring, and evaluation activities;
Attends and participates in meetings with community youth organizations, public-private youth service agencies, and local Youth Bureau’s and Boards;
Assists in the planning and preparation of the tentative budget requests, the allocation of expenditures and disbursements and Directs the collection and timely reporting of service statistics needed for State reimbursement of claims to the Administrative/Fiscal Unit.
Monitors agency operations to assure compliance with all applicable State and Federal laws, regulations and standards;
Maintains and updates Youth Bureau Annual Report, Website, Community Resource Guides, Quarterly Newsletter, and Policies and Procedures Guide, etc.;
Serves as Runaway/Homeless Youth Coordinator for Erie County, including signing extensions for youth providers.

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS:
Thorough knowledge of factors underlying juvenile delinquency and personal maladjustment; thorough knowledge of economic, psychological and sociological problems related to juvenile delinquency; thorough knowledge of modern public relations techniques; ability to plan, coordinate and direct the work of others; ability to plan, promote, direct, and coordinate a comprehensive community-wide program of delinquency control and prevention; ability to perform basic research and to prepare detailed reports; administrative, managerial leadership abilities; ability to meet the public and to address groups effectively; ability to secure the cooperation of others; tact and courtesy; industry and dependability; capable of performing the essential functions of the position with or without reasonable accommodation.

Continued....
MINIMUM QUALIFICATIONS:
A.) Graduation from a regionally accredited or New York State registered four year college or university with a Master’s degree in criminal justice, social work, human services, social sciences or closely related field, supplemented by two (2) years of experience in the administration of a youth detention or Youth services program, or:
B.) Graduation from a regionally accredited or New York State registered four year college or university with a Bachelor’s Degree in criminal justice, social work, human services, social sciences or closely related field, supplemented by three (3) years of experience in the administration of a youth detention or Youth services program, or:
C.) An equivalent combination of training and experience as defined by the limits of (A) and (B).

SPECIAL REQUIREMENTS:
Section 424-a of the Social Services Law requires the local social services district to inquire whether the applicant is the subject of an indicated child abuse or maltreatment report on file with the State Central Register of Child Abuse and Maltreatment.
All potential employees for this position will be required to sign the necessary clearance form prior to being advised that they will be hired. Refusal to sign will be cause for an automatic non-selection.
Subject to background investigation and fingerprinting for appointment. (Applicant may be required to submit the necessary fees for the fingerprint processing.)
As required by law or statute, subject to medical examination including tuberculin (TB) test, at time of appointment and throughout period of employment when assigned to Youth Services.

NOTE: Verifiable part-time and/or volunteer experience will be pro-rated toward meeting full-time experience requirements
NEW YORK STATE
OFFICE OF CHILDREN AND FAMILY SERVICES
Attachment B
ATTESTATION OF USE OF FAMILY FIRST TRANSITION FUNDS

Instruction:
This form must be completed to receive Family First Transition Funds. Please complete and return to FamilyFirstNY@ocfs.ny.gov by June 15, 2019. Such funds will not be used to supplant any other state or local funds. Claims for reimbursement under this appropriation will not be submitted for the same type and level of funding covered by any other state or locally authorized appropriation.

Section I

This is to certify that Erie County Department of Social Services (insert LDSS name) plans to use the allocation of these funds authorized in the amount of $243,036 toward one of the purposes listed below. This plan is subject to change based on individualized technical assistance and strategy selection. How the funds were used will be documented in the Family First Transition Fund Progress Report (Attachment C). Outcomes resulting from such expenditures will be documented in the Family First Transition Fund Outcomes Report (Attachment D).

Plan for use of funds: (Check all that apply.)
- Additional/enhanced targeted technical support
- Family search and engagement
- Enhancing support for foster parents
- Supporting kinship foster parents in meeting approval/certification requirements
- Improving recruitment and retention of foster families, including kinship caregivers
- Establishing administrative review teams to review proposed placements in non-kinship and congregate care settings
- Other (describe)

Section II

The LDSS agrees to participate in OCFS administered centralized technical assistance, and may receive additional technical assistance which may include one or more of the following:

- OCFS administered LDSS-specific technical assistance to assist with data analysis
- Consultant administered strategy development, system improvements and monitoring progress toward target goals

The LDSS has already received technical assistance toward the goal of reducing children in congregate care and increasing children in kinship foster care settings:
- Yes
- No

If yes, describe:

ECDSS has begun working with the Redlich Horowitz Foundation in building a strategic plan for preparation and support in meeting the requirements of the Family First legislation. We are currently in the assessment and analysis phase.

Section III

Instruction:
OCFS has set statewide target goals for the percentage of children in foster care living in congregate care and kinship foster care, to be achieved by September 30, 2021, as follows: 12% congregate care placements and 30% kinship foster care placements. To assist the state in meeting these targets, the LDSS must identify target goals to reduce congregate care and increase kinship foster care to be achieved by September 30, 2021. Progress toward these goals, as of September 30, 2020, will be documented in the Family First Transition Fund Outcomes Report due November 1, 2020.
Utilizing the data provided on the next page, fill in the placement percentages as of December 31, 2018. Establish and fill in target goals\(^1\) which may also be identified in the 3-year Retention and Recruitment Plan:

1. Reduce congregate care from 21 % (on December 31, 2018) to 16 % by September 30, 2021

2. Increase kinship\(^2\) foster care from 18 % (on December 31, 2018) to 25 % by September 30, 2021

Describe below how the LDSS will engage kinship resources with direct custody orders (1017) to consider becoming certified or approved foster parents.

ECDSS has worked on developing a Kinship Policy for over 2 years that has made an impact on our practice. We continue to explore best practices and efficiencies in this area. In addition, we are exploring the use emergency certifications to further expedite kinship placements. ECDSS plans to expand our use of Family Group Conferencing to include rapid meetings to increase our response and ability to support families in making plans that support children staying within their communities and culture.

In addition ECDSS is working with University of Buffalo on developing a marketing plan and information to share w/kinship providers.

\(^1\) Measured from an in-care sample of children in the care and custody of the LDSS in such setting on December 31, 2018 and September 30, 2021

\(^2\) Kinship foster care includes both approved foster homes, and certified foster homes where the foster parent is a relative or a non-relative with a positive relationship to the child or child’s family (i.e. godparent, neighbor, family friend).
March 18, 2019

Dear Local District Commissioner or Probation Director:

This letter is to inform you that the PINS Diversion Services Section of the Erie County Child and Family Services Plan (CFSP) has been approved jointly by the Office of Children and Family Services and the Division of Criminal Justice Services effective March 18, 2019.

The Office of Children and Family Services and the Division of Criminal Justice Services are committed to providing the support you need to continue to offer quality services and improve outcomes.

Sincerely,

Robert M. Maccarone
DCJS Deputy Commissioner and Director
Office of Probation and Correctional Alternatives
NYS Division of Criminal Justice Services

Dr. Nina Aledort
Associate Commissioner
Office of Youth and Young Adult Services
NYS Office of Children and Family Services
